IDENTIFIERS- \*Arizona

Four-year graduation rates by high school, district, county, and state were studied for Arizona in 1991, partly to establish a baseline from which to measure the effect of student retention programs. Members of the class of 1991 were identified as those who were first-time ninth graders in the 1987-88 school year. The median graduation rate was 72 percent, ranging from 38 percent to 98 percent (excluding 3 special programs). The state goal of an 80 percent graduation rate by 1992 has already been met or exceeded by 46 high schools, and about 40 percent of the schools have eliminated differences in the graduation rates of

IDENTIFIERS- \*Schools and Staffing Survey (NCES)

The National Center for Education Statistics (NCES) has recently released the 1990-91 Schools and Staffing Survey (SASS), an integrated survey of public and private schools, school districts, principals, and teachers, conducted every 3 years. This report presents results from the recent SASS. In 1990-91, there were about 80,000 public schools and about 25,000 private schools in the United States, enrolling about 44.8 million students, almost 40.1 million in public schools and 4.7 million in private schools. Seventy-five percent of central city public schools had enrollments that were 20 percent or more minority. In 1990-91, there were 2.9 million teachers in the elementary schools and secondary schools, more than 2.5 million teachers of whom were in public schools. Seventy-three percent of teachers were female and 87 percent were white. Forty-nine percent of all schools had no minority teachers, and 46 percent of all teachers had a degree higher than a Bachelor's of Arts. In the study period, both public and private schools filled almost all of their approved positions, and 10 percent of public schools and 16 percent of private schools provided teacher retraining to fill fields with anticipated shortages. Information about teacher attitudes is also presented. Sixty-seven tables and 39 figures present survey data. Appendix A contains 27 additional tables by school typology. Appendix B contains the standard errors for selected tables. Appendix C presents technical notes. (SLD)

IDENTIFIERS- Angoff Methods; National Academy of Education; National Assessment Governing Board; \*National Assessment of Educational Progress; \*Standard Setting; Trial State Assessment (NAEP)

The report of the National Academy of Education (NAE), "Setting Performance Standards for Student Achievement," provides an interpretation of NAE investigations into the procedures surrounding establishment of achievement levels for the National Assessment of Educational Progress (NAEP). The NAE report synthesizes the investigations of other research efforts commissioned by the NAE Panel on the Evaluation of the NAEP Trial State Assessment. The following documents have been reviewed: (1) the NAE report itself, with 10 studies commissioned in preparing the report; (2) "Setting Achievement Levels on the 1992 National Assessment of Educational Progress in Mathematics, Reading, and Writing" from the American College Testing Program, 1991; (3) "NAGB Policy Framework and Technical Procedures for Setting Appropriate Achievement Levels for the National Assessment of Educational Progress" (National Assessment Governing Board, 1991); and (4) "The Reliability and Validity of the 1992 NAEP Achievement Levels" from American College Testing, 1993. It is concluded that the NAE evaluation is a seriously inaccurate representation of the technical and procedural propriety of the NAEP levels-setting process. Errors and inaccuracies are described in the general areas of authority and credibility, conclusions about the use of the Angoff method, procedural propriety and results, and the validity of NAEP levels. Accurate conclusions are also reviewed, and some constructive suggestions are made. (Contains 35 references.) (SLD)

DESCRIPTORS- \*American Indians; Annotated Bibliographies; \*Asian Americans; \*Blacks; Economic Factors; \*Educational Experience; Ethnic Groups; Health; \*Hispanic Americans; Housing; Justice; Minority Groups; Multicultural Education; Political Issues; Racial Bias; \*Racial Discrimination

IDENTIFIERS- \*African Americans

A comprehensive and comparative compilation of the social science literature pertinent to ethnic discrimination and racial discrimination and practice is presented, focusing on areas of discrimination common to these groups in economics, education, employment, health, housing, criminal justice, and political participation. To represent major ethnic groups, the bibliography is presented in the following parts: (1) African Americans; (2) American Indians; (3) Asian Americans; (4) Hispanic Americans; and (5) Multi Ethnic. Each bibliography is accompanied by its own index that lists major content areas and subareas. There are over 4,200 entries. The education content area includes 425 references related to African Americans, and the multi-ethnic section lists 340 articles focusing on education. Education entries form a much smaller part of the other ethnic listings. (SLD)

DESCRIPTORS- Cross Cultural Studies; \*Cross Cultural Training; \*Cultural Awareness; Cultural Differences; \*Curriculum Development; \*Field Experience Programs; Higher Education; High Schools; Intercultural Programs; \*International Educational Exchange; \*Multicultural Education; Student Exchange Programs; Student Experience; Study Abroad; Theory Practice Relationship  
The essence of cross-cultural learning and how it can be

effectively incorporated into an academic program are explored. A design for cross-cultural learning is proposed that can be applied anywhere in the educational process from high school through professional training. It is based on the experiences of the authors in experimental programs in Hawaii and the Pacific. It is predicated on the idea that becoming familiar with one new culture builds the framework for understanding and accepting other cultures. The educational design begins with a pre-field seminar meeting at the campus for weekly sessions of cultural learning for a term. The second step is field experience of at least 2 months in another culture. This phase includes a weekly seminar and keeping a journal by students. A final step is the post-field program on campus with learning summaries and weekly meetings for a term to integrate theory and practice. Appendixes discuss implementing the design, stages of learning in the field experience, and adapting the design to existing study abroad programs. Contains 101 references. (SLD)

Progressive Education for the 1990s: Transforming Practice.

behaviors. The sample demonstrated high levels of behaviors and attitudes considered indicators of school problems and poor experiences of education. Case studies of three adolescents for whom the outlook is relatively positive and three for whom the prospects are negative provide insight into the conditions that predispose these youngsters to risk. Policies are suggested for the improvement of schools and the education of teachers to help combat the conditions that put youth at risk. Community supports and resources that can be mobilized for the effort are explored. Improved educational experiences and educational environments are vital for disadvantaged youth. PUB TYPE- Reports - Evaluative/Feasibility (142); Speeches, Conference Papers, "Papers Presented at..." (150)

DESCRIPTORS- \*Children; Cultural Differences; \*Disadvantaged Youth; Dropouts; Economically Disadvantaged; Elementary Secondary Education; Equal Opportunities (Jobs); Family Problems; \*High Risk Students; Poverty; \*Social Discrimination; Social Services; Social Support Groups; Summer Programs; Urban Problems; \*Urban Youth

IDENTIFIERS- \*Appalachian Whites; \*Ohio (Cincinnati)

The issues facing urban Appalachian children and their families in Cincinnati (Ohio) are addressed. Appalachians have the highest school dropout rate in Cincinnati proportionate to their numbers, with low access to jobs and generally poor access to, and use of, public services. Much of the information for this report comes from a survey of 246 Summer Program participants (youth) in an Appalachian neighborhood. Other information is derived from recent research and personal experiences working with this population. Two particularly pressing issues are jobs and health-related concerns. Appalachians are discriminated against in the job market and neglected in health services. Examination of the elementary school and high school experiences of urban Appalachian children reveals the economic stresses these families encounter, as well as the strong cultural influences in which they develop. The life experiences of a neighborhood worker from the urban Appalachian background illustrate the difficulties these children face. Interviews with program participants gave a strong sense of the neighborhood as a supportive network with an enclave character. High school is frequently seen as dominated by an alien culture. Social services delivery systems for urban Appalachians should address needs in the neighborhoods while emphasizing personal attention and practical applications in a culturally sensitive fashion. The View from New York City's Crack-Plagued Neighborhoods.

SPONS. AGENCY- Office of Educational Research and Improvement

in an inner-city black community were studied. To investigate their environmental moral reasoning, children's evaluations and supporting justifications were assessed regarding a hypothetical scenario that involved polluting a local waterway. Seventy-two children, 12 males and 12 females from each of 3 grade levels (1, 3, and 5), from a Houston (Texas) elementary school were interviewed. Virtually all were black, and most received the free lunch program. Subjects' general environmental knowledge and attitudes were evaluated, and questions were asked about the hypothetical polluting of a bayou near the school. Results confirm the personal and moral importance that the environment has for these inner-city children. They have talked about environmental issues in their homes and are aware of the problems of pollution. Environmental harm matters to these children, and they view polluting the bayou as a violation of a moral obligation. The constraints of living in the inner-city have not diminished their appreciation for nature. Four tables present student interests and characteristics. Contains 43 references. (SLD)

IDENTIFIERS- \*Hispanic American Students; Texas

The present study explored the perceptions of 664 Hispanic and non-minority high school students as regards barriers to entering health professions and the characteristics of health career jobs. Students were enrolled in a high school for the health professions or an enrichment add-on intervention, or were members of an honor society contrast group. The students were remarkably similar in their perceptions of barriers to entering health professions, and in attitudes toward health careers. Differences in student knowledge about health careers were noted. (Author)

IDENTIFIERS- National Teacher Examination; Preservice Teachers  
While the increase of older students in college undergraduate programs across the nation and the increasing need for teachers have been documented in a multitude of diverse research studies, there is little to link these two areas of research. This study provides a comparative analysis of 10 traditional and 22 nontraditional student teachers' performance on teacher competency measures. For this study, nontraditional students are individuals 24 years of age and older. The competency measures are divided into two parts: assessment of academic knowledge--ACT scores, grade point average, and NTE scores; and demonstration of teaching skills as measured by the student teaching evaluation scores. The Mississippi Teacher Assessment Instrument was used to derive these scores. The analysis of the data, done through a large correlation matrix, reveals relationships between achievement indicators and performance on the teacher competency measures, as well as an achievement profile of traditional and nontraditional students as it is colored by selected demographic variables. DESCRIPTORS- \*Curriculum; Higher Education; International Education; International Programs; \*International Studies; \*Leisure Time; Parks; Program Development; \*Recreation; Tourism

This workshop presentation on international curriculums in the field of parks, recreation, leisure, cultural services, and travel/tourism comments that the literature is replete with articles addressing what the field is about, but not about curriculum issues, models, and structure. It reports an international survey of 12 college educators concerning their curriculum's mission statements, domains covered, course titles, and other highlights. The survey found no universally accepted curriculum structure or format. The paper describes the WICE program, which is an innovative international university program offering 20-month certificate courses and short-term thematic courses in The Netherlands. Highlights of information from the "International Directory of Academic Institutions in Leisure, Recreation and Related Fields" are then presented, including general information; statistical data; and organizational charts of educational systems in such countries as Cameroon, China, Israel, Japan, Austria, Denmark, and France. (JDD)

programs are outlined. For example, it is recommended that preservice teachers be instructed on procedural policies, recordkeeping, and classroom management at the beginning of their student teaching programs, and that they be expected to apply more complex teaching strategies later as they become more focused and concerned about content. IDENTIFIERS- Schools and Staffing Survey (NCES)

This study examined the relationship between environmental factors of teaching climate for beginning teachers and the desire to remain in teaching. Data from 23,088 Public School Teacher Questionnaires from the Schools and Staffing Survey longitudinal database were analyzed to determine the effect of environmental demographic factors (administrative support, enforcement of rules, staff cooperation, adequacy of resources, student achievement level, after-school work load, gender, age, marital status, and second thoughts about career choice) on the intention to stay in teaching for 3,000 beginning elementary public school teachers. All variables listed except staff cooperation were related to beginning teachers' decisions to remain in teaching. Beginning teachers who were single, female, and older than the norm were especially susceptible to the stresses and isolation of elementary school teaching. The presence of administrative support and the adequacy of resources to do one's job far outweighed the negative influence of discipline problems and unending paperwork. The study confirmed that it is crucial for beginning teachers to have a support system to enhance their teaching experience. (Contains 27 references.) (JDD)

IDENTIFIERS- \*Acceptability Judgments; Australia; \*Child Responsiveness; Dilemma Discussion Approach

This paper reports on a study of the perceptions of 10 teachers as they sought to gain acceptance for curriculum practices considered to be child-responsive. The teachers worked with 5- and 6-year-old children in schools where some perceived their child-responsive practices as innovative, introducing practices which differed from those already institutionalized in the school. The transactional nature of the curriculum implementation process is illuminated through narrative accounts constructed with the teachers. Collaborative efforts were made to understand and explain the complexities of using ideals to inform practice within the everyday routines for living in the workplace. The inquiry resulted in narratives which focus on dilemmas commonly faced by the teachers and on personal images orientating action in situations where dilemmas arise. It is argued that the constructs of teacher dilemmas and teacher images provide useful foci for reflexively examining everyday experiences in deciding the curriculum. Through use of these constructs, teachers and student-teachers may achieve greater insight into the practical world of teachers' work, where images of self in social relationships enter into decisions made about how to act to gain acceptance for practices associated with educational ideals. High School Students; Mathematics Achievement; Rural Schools;  
Scores; Suburban Schools; \*Testing Programs; Test Items; \*Test  
Results; \*Urban Schools  
IDENTIFIERS- \*Australia (Northern Territory); \*Primary Assessment  
Program (Australia)

This report contains details of the results of the Primary  
Assessment Program conducted in 1991 in urban and non-urban  
schools in the Northern Territory of Australia. The assessment  
program, conducted annually at years 5 and 7 in urban schools  
and at ages 10 years and above in non-urban schools, monitors  
achievement in English and mathematics. In 1991, nearly 4,000  
urban students and 1,700 non-urban students participated in the  
testing program. Findings reveal a significant improvement in  
the achievement of urban students in years 5 and 7 in  
mathematics in 1991 compared with 1990. Fundamental changes in  
the reading test made it impossible to compare the two years.  
However, evidence suggests that urban school functional  
literacy and reading comprehension was good, but was not as  
good in the non-urban schools, where many students appeared  
unable to perform satisfactorily in tasks required for Stages 4  
and 5 of reading and Stage 4 of mathematics. Results are  
reported in a format teachers and principals have found easy to  
understand. Eleven appendixes contain sample questions for the  
different assessments, information about the test committees,  
and test statistics. Information about test items, scores, and  
mean achievement is presented in 26 tables. Score distributions  
are portrayed in 11 graphs. (SLD)

WV; Normal Curve Equivalent Scores; Probit Analysis; Z Scores  
Kanawha County (West Virginia) schools use Z-scores to identify  
elementary students eligible for Chapter 1 services in reading  
and mathematics. A probit analysis of over 500 previously  
served students was used to determine the variables and weights  
in the Z-score equations. Independent variables were chosen  
from those commonly used to identify Chapter 1 students. The  
best predictor formula for reading services used student's age,  
Comprehensive Test of Basic Skills (CTBS) total reading (or MRT  
reading composite) normal curve equivalent (NCE) score, end-of-  
year letter grade in reading, and number of times a student had  
been retained. For mathematics, best prediction was obtained

communities as part of the Kappa Delta Pi Good Schools Project. In both studies, data were collected with identical instruments and identical procedures, and analyzed site by site in identical ways. The work of the Students At Risk project is summarized to provide an understanding of the methodology. To assure commonality, the project began with preparation of a manual of instructions. Participants met in advance of the study for training and to become familiar with the manual. Data files were analyzed in aggregated and disaggregated form, the disaggregated form being the simultaneous replication. Researchers at each site received all of the data from all of the sites. An attachment presents a section of the manual. Appendix A contains the matrix data sheet, and Appendix B contains instructions for recording information. (SLD)

IDENTIFIERS- \*Cluster Schools; \*Newark School System NJ

The Cluster Schools Program attempted to restructure the governance structure in participating Newark (New Jersey) schools through shared decision making and site-based management. It also sought to foster strong links with other public and private institutions by establishing a collaborative that includes university participants among others. This report presents results of the first evaluation of program impact on the 10 participant schools. The evaluation relied on perceptions, attitudes, and behaviors of major participants. Questionnaires were completed by 4 central office personnel, 21 administrators, 187 teachers, and 274 parents. Highlights of findings are presented in the following areas: (1) the impact of organizational changes on schools; (2) the central office team; (3) endorsement of site-based management; (4) the level of involvement of schools and faculties in major program initiatives; (5) teacher perceptions of the impact of the Cluster Schools Program on bringing about change in the schools; and (6) the impact on student achievement. Highlighted findings underscore the need for the school district to look critically at the restructuring effort. Recommendations emphasize the importance of enhancing impact on the instructional program. Sixteen tables and four figures illustrate the evaluation. Three appendixes list collaborators, contain the study instruments, and give an achievement profile for cluster schools. (SLD)

IDENTIFIERS- \*Arizona

Four-year graduation rates by high school, district, county, and state were studied for Arizona for 1992. Members of the class of 1992 were identified as those who were first-time ninth graders in the 1988-89 school year. Data was submitted by 156 high schools and special programs for 12th graders, but the reports of 5 districts (21 schools and programs) were eliminated because of unreliable data. The mean 4-year graduation rate was 67 percent, and the median was 70 percent. Rates ranged from 29 percent to 100 percent. The state goal of an 80 percent rate was met by 37 high schools, and almost one-third of the schools achieved the goal of eliminating a gap between minority and non-minority rates. The rate was slightly higher than the corrected rate for 1991, although not higher than the rate originally reported. Overall, mean graduation rates improved for all ethnic groups and both genders. Ten tables and five charts present statewide graduation information. Appendix A ranks the schools by graduation rate, and Appendix B reports graduation rates by county and state. Appendix C contains 172 pages of tables of graduation reports by school and school district. The graduation rate report form and instructions for completing it are in Appendix D. (SLD)

IDENTIFIERS- \*Schools and Staffing Survey (NCES); \*Teacher Followup Survey (NCES)

The 1987-88 Schools and Staffing Survey (SASS) and the 1988-89 Teacher Followup Survey contain data that can be used to examine issues related to the need for teachers, sources of teacher supply, teacher turnover, teacher attrition, and teacher shortages. This report describes patterns in the sources of supply and the demand for teachers in terms of indicators of shortage and surplus. All but two tables include national estimates for all teachers and for public and private school teachers separately. In 1987-88, approximately 2.6 million teachers were employed in the nation's schools, 2.3 million of them in public schools. In 1987-88, about 63,000 teachers were newly hired, and most were just out of college. In 1987-88, approximately 11 percent of open teaching positions were not filled. Reasons why teachers left the workforce were also studied. Seventeen tables present survey findings. Appendix A presents 17 tables of standard errors, and Appendix B contains technical notes. (SLD)

IDENTIFIERS- Common Core of Data Program; \*Schools and Staffing Survey (NCES)

The Schools and Staffing Survey (SASS) represents the union of three surveys by the National Center for Education Statistics (NCES), the Teacher Demand and Shortage Survey, the School and School Administrator Surveys, and the Teacher Survey. The SASS measures critical aspects of teaching supply and demand, the composition of the teacher and administrator workforce, and the status of teaching and schooling in general. The merger of the studies produces one database. SASS is designed to provide estimates to meet its analytical goals: (1) national estimates for public and private schools; (2) state estimates for public schools; (3) state/elementary, state/secondary, and national combined public school estimates; (4) detailed association estimates and grade school estimates for private schools; (5) estimates of change from 1988 to 1991 in school level characteristics; and (6) national estimates for schools with greater than 25% American Indian enrollment. This report describes the procedures used in the following areas: (1) school and teacher sample stratum allocation; (2) overlapping 1988 and 1991 SASS samples; (3) public school sample design; (4) local education agency sample design; (5) private school sample design; (6) teacher sample design (including within school teacher allocation); (7) weighting; (8) imputation; (9) variance estimation techniques; and (10) frame evaluation. IDENTIFIERS- \*Angoff Methods; National Academy of Education; National Assessment Governing Board; \*National Assessment of Educational Progress; Standard Setting; Trial State Assessment (NAEP)

The National Academy of Education (NAE) Panel has drawn two major conclusions in its evaluation of the National Assessment Governing Board's (NAGB) efforts to set achievement levels for the National Assessment of Educational Progress (NAEP). They are that the Angoff procedure is fundamentally flawed for the setting of achievement levels, and that the weight of evidence suggests that the 1992 achievement levels were set unreasonably high. However, the evidence presented in the final report of the Panel and in the reports of the studies it commissioned do not justify these conclusions, and some of the evidence directly contradicts them. The NAE report is well written and provides a good discussion of the general issues in standard setting, but it generally accepts the results of the studies it commissioned at face value, without regard to their flaws, and it evaluates the NAGB achievement levels in a vacuum in that it fails to consider alternative explanations for anomalous results and fails to examine the potential problems in the methods it proposes for reporting the NAEP results. Nine commissioned studies are evaluated individually. (SLD)

IDENTIFIERS- IMPACT II

This publication describes Monsters Make Believe, a computer-based, teacher-developed program for enhancing reading and writing instruction in the elementary grades. Motivation to read and write is provided by the creation of monsters. The software can even offer a vehicle that is able to write a descriptive paragraph. An overview describes a possible use of the software with a computer where a teacher reads a classic scary story and sets the mood with audio effects, and students are anxious to create the monster. The final writing can be a team effort where students list the descriptive adjectives, use them to form sentences, and finally form a paragraph. Students would choose a background, build the monster, save the creation

Social Attitudes; Urban Problems; Urban Schools; \*Urban Youth  
IDENTIFIERS- \*New York (Harlem); New York City Board of  
Education; Reform Efforts  
The educational outlook for children of school age in low-income  
minority neighborhoods of New York City is discussed, drawing  
primarily on the researcher's observations in a field study in  
Central Harlem. The decline the neighborhoods have undergone is  
summarized; and the role of drugs, especially crack, is  
discussed. Some opinions of residents are reviewed, and the  
effects of a deteriorating physical and socioeconomic  
environment on school-age children and their families are  
considered. The experiences of three residents, an adult male,  
a young adult male, and a young mother, are recounted. These  
respondents were chosen because of the emphasis they placed on  
schools or education in interviews with the researcher.  
Recurrent in their remarks are a high level of frustration, the  
frequency of parental abandonment, perpetuation of social  
patterns, lack of discipline, peer pressure, and estrangement  
from community and school. Some policy recommendations are made  
to improve the situation through a fuller use of the school and  
its resources. In a "Marshall Plan" for cities, schools could  
play the roles of islands of stability and act as tutorial  
villages with services for children and families. Contains 50  
references. (SLD)

Latinos  
A study of inner-city youth in San Francisco (California) shows  
that behavior and street ideology once associated exclusively  
with gangs have now become the world view of a large segment of  
inner-city young people, especially males. Inner-city young  
people who aspire to material success do not see a realistic  
connection between public education and the world of work. From  
1981 to 1990 the Youth Environment Study addressed the twin  
issues of drug use and the AIDS epidemic in San Francisco

\*Educational Change; \*High Risk Students; Hispanic Americans; Inner City; Junior High Schools; \*Junior High School Students; \*Middle Schools; Minority Group Children; Pilot Projects; Public Schools; School Based Management; \*School Restructuring; Teacher Expectations of Students; \*Urban Youth IDENTIFIERS- \*Accelerated Schools; California (San Francisco Bay Area); Middle School Students

The experiences of the first middle school to pilot the ideas and concepts of the Accelerated Schools Project are described. The school is an inner-city public school with a population of at-risk students presently scoring below district and state achievement averages. The 689 students are 53 percent Hispanic, 23 percent Portuguese, 17 percent White, 3 percent Asian, 2 percent Filipino, and 2 percent African American. The Accelerated Schools Project is working to develop schools in which all children will succeed by closing the achievement gap early in schooling and accelerating learning by making it occur more efficiently. The middle school level adds some dimensions to the elementary school applications of the accelerated schools philosophy, in terms of student involvement and curricular, instructional, and organizational changes. The principles of the Accelerated Schools movement are articulated, and how they are applied in the school setting is reviewed. The experiences of the pilot middle school in the San Francisco Bay Area (California) are detailed as they begin to set priorities and create governance structures. The ongoing documentation processes of the pilot school are described. (SLD)

IDENTIFIERS- \*Accelerated Schools; Hispanic American Students; Middle School Students; Reform Efforts; \*School Culture

An ethnographic study was conducted of the first year of implementation of the Accelerated Schools Project in a pilot middle school. The interaction between intervention and the existing school culture is studied through multiple interviews with teachers, support staff, administrators, students, and parents as well as observation and review of relevant documents. The goals of the Accelerated Schools Project are to raise expectations for students in high-risk situations and to move decision making about curriculum, instruction, and organization of schools to the school level. Calhoun Middle School is an inner-city school in California with a largely Hispanic population. The Accelerated Schools philosophy and process were implemented in the school. The inquiry process of implementation and the five cadres established to study instruction, culture, student interaction, family involvement, and curriculum are reviewed. Primary changes observed in the first year were related to staff, administration, and school organization. Problems in the process, including the state

IDENTIFIERS- \*Alabama

This conference presentation chronicles the development of a coalition of over 20 Alabama health and education agencies, institutions, and organizations, representing a united effort to strengthen comprehensive school health in the state. The coalition was formed in response to removal of the mandated high school health requirement from the Code of Alabama, which resulted from the lobbying activities of groups against sex education. The coalition-building process involved identifying agencies and groups interested in the promotion of school health of children; acquiring commitments from key groups to offer their expertise, skills, and resources; drafting a position statement; developing a funding proposal; monitoring Alabama Board of Education meetings and the legislature; increasing public awareness of the need for comprehensive school health; meeting with media representatives; adopting by-laws and electing officers; establishing committees in the areas of communication, education/professional preparation, and legislative/public policy; and conducting training for coalition members. PUB TYPE- Opinions/Personal Viewpoints/Position Papers/Essays (120)

DESCRIPTORS- Definitions; \*Educational Change; Educational History; Higher Education; \*Physical Education; Professional Recognition; Teacher Education; \*Teaching (Occupation); \*Vocabulary

The use of the term "physical education" in higher education began in the 1920's, with previous terminology including "gymnastics," "hygiene," and "physical culture." There is now a large constituent of educators who feel the name physical education no longer accurately describes the field. Various names have been considered, primarily "kinesiology," along with "sport science," "movement science," and "human performance." Arguments for and against adoption of each of these terms are cited. It is concluded that the term "physical education" is neither too broad nor too narrow in focus. Some educators

Education; \*Inservice Teacher Education; \*Mastery Learning;  
Preservice Teacher Education; \*Teacher Education Curriculum;  
\*Textbook Content; Textbook Research; Textbooks

This study investigated the effect of the development of mastery learning on the curriculum of preservice teacher education programs and the content of inservice professional development programs. Nine educational psychology textbooks, published since 1990, and three other texts used as supplementary textbooks were analyzed. The study found that 10 of the 12 textbooks included descriptions of mastery learning, with the median number of pages allocated to the subject being 2.5 in textbooks that averaged between 600 and 700 pages in length. Benjamin S. Bloom's 1968 "Learning for Mastery" article, in which the basis of mastery learning was set forth, was cited in only 5 of the 12 texts. The texts' references to research reviews, books, and individual studies are analyzed. The study concludes that most of the textbooks' descriptions were limited and imprecise, with many being conspicuously inaccurate. As a result of the cursory treatment of mastery learning in most preservice education programs, implementation efforts have depended primarily on inservice professional development activities. Mastery learning is generally well received by inservice education participants because it helps them improve their results with students by making more effective use of skills they already have, rather than drastically altering what they are doing. IDENTIFIERS- \*New Zealand

This report examines the ways in which New Zealand's six colleges and schools of education have reacted to new responsibilities and challenges in producing better teachers and adapting to changed governmental requirements. It is based on interviews conducted with senior staff at the six institutions which are the main providers of teacher education in New Zealand. The report indicates that all the colleges are committed to degree programs as the norm for educating elementary teachers. All the colleges are acquiring contracts, primarily with the Ministry of Education, to develop curricula and implement teacher professional development programs. The colleges are investigating and piloting more flexible ways of delivering courses of preservice teacher education, including shortened courses and off-campus courses. Colleges are also recognizing the value of other types of educational experiences of students entering preservice teacher education programs. Colleges are using many approaches to improve the quality of practice teaching experiences. The colleges' increased autonomy is encouraging them, and a more competitive environment is forcing them, to pursue quality assurance goals more vigorously. (Contains 22 references.) (JDD)

IDENTIFIERS- Case Method (Teaching Technique); \*Concept Mapping;

Concept Maps; Cornell University NY; \*Problem Based Learning  
This paper discusses the development of concept maps for an entire veterinary curriculum, for each of the planned courses, and for each of the case-based exercises in each course, drawing on current efforts at the College of Veterinary Medicine at Cornell University (Ithaca, New York) to develop an integrated curriculum for use in a problem-based format. Increased use of problem-based approaches to medical education has highlighted the challenges of curricular revision and interdisciplinary development. Venturing beyond disciplinary boundaries can be difficult, despite a desire to create interdisciplinary courses and adopt new ways of teaching. Concept mapping is an effective tool for developing an integrated curriculum. Examples are given of concept maps that represent an entire veterinary curriculum, specific courses, and case-based exercises. It is argued that concept mapping is a valuable tool for curriculum development of any scope or discipline, but is particularly helpful for creating interdisciplinary courses and case-based exercises. Nine figures illustrate concept maps. (Author/SLD)

IDENTIFIERS- \*Even Start; \*Newark School System NJ

A first stage evaluation of the Even Start Program of the Newark

(New Jersey) public schools is presented. Even Start is an

early childhood parental involvement program in its third year

of implementation. Goals are to involve parents as active

partners, to help children develop cognitively and affectively,

and to improve adult literacy and English fluency skills. Three

survey instruments were used to measure parental involvement. A

survey of attitudes and practices of parent involvement was

completed by 34 participating parents and 132 non-program

parents. A survey of teacher attitudes and practices was

completed by 11 participating teachers and 11 non-participating

teachers. Seventeen project staff completed a survey about

project implementation. Findings reflect a common theme of

improved collaborations and reciprocal parent/staff decision

making. Both staff and parents report a better understanding of

children's problems and improved communication. These

preliminary findings can serve to guide program improvement

efforts and district planning. Study data are presented in 28

tables. Two appendixes contain the assessment measures and the

means and standard deviations for the teacher survey responses.

\*New Jersey Statewide Testing System; Stanford Achievement Tests

Results from testing programs in the Newark (New Jersey) public

schools for 1991-92 are discussed. The system used three

testing programs in the school year: (1) the Newark Uniform

Testing Program (Stanford Achievement Series, eighth edition);

(2) the New Jersey Statewide Testing System; and (3) the

Bilingual Testing Program. Results of the Newark Uniform

Testing program indicate that students are steadily improving,

but remain below grade level, with mathematics the weakest area

and reading the strongest. Kindergartners were on grade level

IDENTIFIERS- \*Analytical Reasoning Test (Johnson O'Connor);  
\*Internal Structure Analysis; Johnson O'Connor Aptitude Tests  
Standard and experimental forms of the Johnson O'Connor Research  
Foundations Analytical Reasoning test were administered to  
1,496 clients of the Foundation (persons seeking information  
about aptitude for educational and career decisions). The  
objectives were to develop a new form of the test and to better  
understand what makes some items more effective than others.  
Internal-structure analysis of the 26 new items indicated that  
all but 3 could be regarded as at least adequate on the basis  
of their correlation with current standard forms of the test.  
Thirteen items with the highest item-total correlations or the  
greatest contribution to overall test reliability were selected  
for the new test version. The relationships of six item  
characteristics to item quality and item difficulty were  
investigated, and these suggest that the clarity of the  
conceptual features among the words or concepts contributes  
more to item quality than any of the features studied.  
Suggestions are made for developing a new alternative form of  
the Analytical Reasoning test, drawing on the items not  
included on this revised version. Two tables present study  
data, and three figures illustrate the discussion. (SLD)

Sex Differences; \*Spelling; \*Test Construction; Test  
Reliability; Vocabulary Skills

IDENTIFIERS- Johnson O'Connor Aptitude Tests

Results of an analysis of a newly developed spelling test and  
several related measures are reported. Information about the  
reliability of a newly developed spelling test; its  
distribution of scores; its relationship with the standard  
battery of aptitude tests of the Johnson O'Connor Research  
Foundation; and its relationships with sex, age, education,  
college major, and laterality were studied using a sample of  
clients of the Johnson O'Connor Research Foundation (clients  
seeking information about aptitudes for career and educational  
planning). A total of 1,080 adult examinees completed at least  
part of the spelling measures. Measurement precision appears  
excellent for the new measure. The strongest relationships for  
spelling ability were with English vocabulary, reading  
efficiency, number checking, age, and years of education. Sex  
differences were found, although there was little indication of  
relationships with examinee laterality or parental handedness.  
Correlation with English vocabulary was substantially greater  
than correlations with other standard battery measures.  
Although there may be distinct aptitudes or other dispositions  
that affect spelling ability, spelling itself appears to be a  
learned skill and not an inherent aptitude. Seventeen tables  
present study findings, and four figures illustrate score  
distributions and the age curve for ability. (Contains 88  
references.) (SLD)

DESCRIPTORS- \*Educational Research; Educational Trends; Elementary Secondary Education; Higher Education; \*Research Methodology; Research Problems; Research Reports; \*Scholarly Journals; \*Statistical Analysis; \*Vocational Education

The status of statistical sophistication in research on vocational education in the 1980s and changes in the degree of sophistication were studied. Analyses were made of 118 quantitative research articles published in 4 vocational education research journals (28 articles in the "Journal of Vocational Education Research," 50 articles in the "Journal of Agricultural Education," 26 articles in the "Journal of Industrial Teacher Education," and 14 articles in the "Journal of Vocational Home Economics Education"). It was found that the statistical sophistication level of the majority of research in the 1980s was less than advanced. The statistical sophistication of research was related to both the problem area studied and the methodological strategy used. No changes were found in the use of statistical techniques and in the statistical sophistication of research from the early to the late 1980s. Seven tables summarize study findings. (SLD)

IDENTIFIERS- \*Language Minorities

This guide for minority language parents whose primary language is Vietnamese presents parenting information to supplement a course in English as a Second Language. It focuses on topics parents must deal with in meeting the needs of their children. Vocabulary and practice drills are presented for activities in the following areas: (1) education and dealing with the school system; (2) parenting; (3) nutrition; (4) mathematics; (5) health; (6) safety; and (7) citizenship. The section on education provides information on school organization, registration, forms that must be completed, communication with teachers, and reading student report cards. The parenting skills emphasized are those of interacting with children and of coping with systems that can have an impact on children, such as the public library. Illustrations present scenarios of everyday activities with discussion questions in the primary language. In most instances, parallel English and Vietnamese exercises are provided. (SLD)

The lives of poor single mothers and their children are explored, first grounding the present situation historically and pointing out their "other" status when examined against normal motherhood and family images. The first two chapters discuss the historical images of childhood and the family as they have developed in Western civilization. Part 2 introduces motherhood as experienced by single mothers and their children. The feminization of poverty is recognized through the stories single mothers tell. Part 3 examines the lives of the children as they enter school and the larger world. Single mothers and their children are a growing constituency in the United States. Other Western democracies have succeeded in alleviating the effects of poverty and offer workable models of much that might be done in this country. Recommendations for the future include: (1) universal health care; (2) affordable housing; (3) child allowances and maternity and parental leave; (4) a national child-care system; and (5) a pedagogy of equity. The primary purpose of this book is to serve as a basic text on

(California) in areas with the heaviest concentration of families and youth living in poverty. This study, updated by 30 additional interviews with city adolescents, has identified 4 essential aspects of growing up in the inner city as crucial to understanding behaviors and planning services: (1) the overriding importance of ethnic or racial identity; (2) the existence of a street system of social guidelines for youth; (3) increased importance of drug use and drug dealing as a means of socialization and income; and (4) the rise in the use of violence with advanced weaponry. In the competition between the criminal justice system and the educational system for young people, the criminal justice system has been winning. New policy directions are needed to reconsider the current prohibitionist drug policy, bringing fewer youths into the criminal justice system, and improve the educational system's use of natural neighborhood street systems. IDENTIFIERS- African Americans; Florida; \*Hurston (Zora Neale)

The life and work of Zora Neale Hurston, an African American writer and a folklorist (1891-1960), are described for children aged 10 years and older. Emphasis is placed on the author's childhood in rural Florida and her struggles to receive an education. Over the course of her career, Hurston, a trained folklorist, collected two volumes of black folklore, and wrote four novels, an autobiography, and numerous short stories and essays. Relatively less emphasis is placed on her writings, but they are described for children as a celebration of the African American spirit. A chronology outlines Hurston's life, and an epilogue tells of her recognition in recent years. (SLD)

IDENTIFIERS- \*Education Consolidation Improvement Act Chapter 1; \*Hawkins Stafford Act 1988; National Education Goals 1990; Reform Efforts

It is time to revise the Chapter 1 program to prepare disadvantaged children to meet the challenges of the National Education Goals. The Chapter 1 program must be aligned with larger reforms to develop higher standards for student performance and greater accountability. The gap in achievement between disadvantaged and other students means that high-poverty schools will have much greater difficulty in meeting the National Education Goals. The Hawkins-Stafford Amendments were a step toward holding Chapter 1 projects accountable for improved performance and they sought to provide the supports needed to implement change within the program. Since the amendments' enactment, however, the nation has moved to reform education, and is outpacing the Hawkins-Stafford reforms. Research shows that the current program is not helping to close the achievement gap. Fundamental changes must require high standards for all children, with strategies that promote them. Ten important directions for the reform of Chapter 1 are described. Six exhibits illustrate the discussion. (SLD)

IDENTIFIERS- Reform Efforts

In the spirit of educational reform, this paper discusses school restructuring and proposes a model for making education more responsive to the needs of urban youth by fostering competence built upon unique cultural resources and individual skills already possessed. The proposed project would target the middle school, which is considered an ideal starting place for structuring change because it is at this level that the gains of the elementary school are thought to be lost. The following structural changes are proposed: (1) redesign of the self-contained classroom; (2) professional diversification through the use of teachers as craftsmen, specialists, and artists; (3) the use of teaching teams; (4) the incorporation of group processing and problem-solving skills for both students and teachers; (5) a less hierarchical management structure; and (6) increased monitoring of performance through the use of advanced technologies. The three instructional strategies being considered are teacher-assisted instruction, team-assisted instruction, and computer-assisted instruction. The effectiveness of these strategies will be related to the core subjects of reading, mathematics, and science to assess academic achievement. (Contains 22 references.) (LL)

IDENTIFIERS- \*Citrus County School District FL

The Citrus County (Florida) Professional Orientation Program is designed to increase student learning by providing a set of supervised support services for teachers in the first year(s) of teaching that will assist them in their continuing professional development. The program provides for the development, demonstration, and documentation of teaching competence based on a system which provides technical and psychological support to teachers seeking Florida certification. Two program options exist: a 90-day program and a 196-day program. The 196-day program is required for teachers with a Bachelors degree but without a regular certificate and having less than 1 full school year or the equivalent of successful teaching experience or who have failed to demonstrate desired performance criteria. The 90-day program is designed for those teachers who have documented at least 1 full year of successful teaching experience. This report discusses: responsibilities of the members of the support team assigned to each teacher in the 196-day program, support team training, data collection instruments used, production of the Professional Development Plan, and development of a portfolio. Sample copies of checklists and recommendation forms are included. Appendixes define relevant terms and list recommended support services and training activities. (JDD)

IDENTIFIERS- \*Comprehensive School Health Programs; \*Integrated Services

This guide provides school leaders with a framework and tools for developing and implementing a comprehensive school health program. Theoretical and scientific information relating to students' needs is outlined, and approaches that have proven successful in other schools are described. The book is divided into three parts: The first, "Why Comprehensive School Health?" examines the role of the school and the foundation of effective school health programs. The second part, "A Blueprint for School Health Programs" includes background information and hands-on assessment worksheets for each of 8 areas of a comprehensive school health program: (1) school health instruction; (2) healthy school environment; (3) school health services; (4) school-based physical education; (5) school nutrition and food services; (6) school-based counseling and personal support; (7) schoolsite health promotion; and (8) school, family and community health promotion partnerships. The final part, "Developing a Comprehensive School Health Program," consists of 19 steps for making this goal a reality. Numerous tables, guidelines, figures, checklists, and worksheets for district level coordinators, state and county administrators, and other key decision makers are included. Appendices provide worksheets, a sample comprehensive health program self-assessment; a scope and sequence chart for a comprehensive health program, and resources for comprehensive health education. IDENTIFIERS- Saskatchewan

The purpose of the documents in this series is to provide educators in Saskatchewan with practical and relevant guides to teaching and learning as a means of expanding or refining teaching repertoires. This publication explores individualizing for students, emphasizing that what the classroom teacher does depends on his/her abilities and beliefs about education and learning, and on resources and students in the classroom. The guide acts as a starting point for individualizing; it contains a collection of activities that have been tried, along with tips that have worked for other educators. The individualizing process is explored through the utilization of variety, choice,

IDENTIFIERS- Boston Public Schools MA; \*Reach Out to Schools Social Competency Program

The Reach Out to Schools Social Competency Program is a 40-lesson elementary school curriculum that teaches children and their teachers to build positive, supportive relationships in the classroom. It is organized around three units: creating a cooperative classroom environment, building self-esteem and positive feelings, and solving people problems. The teacher research being conducted by participants in the Reach Out to Schools Program on the impact of the program in their classrooms and their teaching styles is described. The program is currently used in 18 school systems (47 schools) in the Boston (Massachusetts) area. Approximately 3,500 students and over 200 teachers have participated in the program. Training is provided for teachers and principals, and a parent component is being developed. Fifteen interviews were conducted with teachers new to the program in 1990-91. Subsequently, 65 teachers, 561 students, and 4 principals assessed the impact of the program in their classrooms. Teachers who have completed at least 1 year in the program may participate in a teacher research group. In these groups, teachers have conducted research projects that are clarifying program impacts. The program evaluation and teacher research have helped improve the curriculum, identify areas of success, and pose questions for further research. Efforts like the Reach Out to Schools Program and the Teacher Research Group demonstrate that teachers are ready and able to redefine their roles within the classroom, the school, and the research community. DESCRIPTORS- Ability; Attitude Measures; \*College Students; Computer Centers; Computer Science; Computer Science Education; \*Educational Background; Higher Education; \*Mathematics Achievement; Mathematics Anxiety; Measurement Techniques; Statistical Significance; \*Statistics; \*Student Attitudes; Test Reliability

The effects of previous mathematics, statistics, and computer science coursework; attitudes toward statistics and computers; and mathematics ability on statistics achievement were studied for 289 college students over 4 semesters. A secondary purpose of the study was to determine the effect of the computer laboratory component of an inferential statistics class on students' end of course attitudes. Instruments were administered to determine attitudes toward statistics and

in reading and mathematics. The Early Warning Test component of the state testing system indicated that mathematics and writing scores for eighth graders improved overall, but that many students would benefit from remedial services. The High School Proficiency Test component of this program becomes a graduation requirement after one more administration. The district remained below state means on this test. Results from the Bilingual Testing Program indicate that limited English proficiency students had lower scores than did English proficient students and scored below grade level on a Spanish language achievement test. This review simplifies the complex pattern of test results, but is a first step to identifying strengths and weaknesses of the curriculum. Study findings are summarized in 25 tables and 10 figures. An appendix contains an additional seven tables of test results. (SLD)

education or in occupations requiring mathematics skills. All  
10 tests are administered and scored by computer. The 10 tests  
are: (1) addition; (2) subtraction; (3) multiplication; (4)  
number operations and counting; (5) division; (6) geometry; (7)  
algebra; (8) fractions; (9) decimals; and (10) number  
conversions. Directions for administering the tests, scoring  
them, and producing score reports are included, with  
illustrations of software menus and screens presented in 18  
figures. Appendixes discuss files created and used by the  
system. (SLD)

IDENTIFIERS- Alberta; \*International Assessment of Educational Progress; \*Science Achievement

Information collected as part of the International Assessment of Educational Progress II (IAEP II) about learning in Alberta (Canada) is provided, including information on the educational and cultural factors associated with student achievement and information on student attitudes, backgrounds, and experiences. Results for all participating countries (20 in science and mathematics and 9 in geography) have been distributed. This report indicates what 13-year-olds in Alberta have been able to achieve in science, mathematics, and geography. In Alberta, 119 randomly selected schools participated. Alberta students (n=1,459) did very well in science, scoring in the top one-third in all comparisons. The mathematics achievement of the 1,422 students was not as high, ranking in the middle third both nationally and internationally. Those who took the geography test, a brief assessment, scored in the top third in all comparisons. Results for participating countries are summarized for comparisons with Alberta and other Canadian provinces. Results and score distributions are presented in 27 tables. Appendix 1 gives an overall summary of test administration, and Appendix 2 describes quality control procedures. (SLD)

IDENTIFIERS- California Achievement Tests; Education Consolidation Improvement Act Chapter 1; \*New Orleans Public Schools LA

The California Achievement Test (CAT) has been administered in Orleans Parish (Louisiana) annually each spring to gauge performance of New Orleans Public Schools students since 1989. In 1992, the CAT was given to students in kindergarten and grades 3, 5, and 8. With few exceptions, median percentiles for

mood-related activities. Subjects were children (166 boys and 156 girls), ranging in age from 8 to 12 years, who were enrolled in the public school system of a mid-sized midwestern city. Children identified, in 15-minute classroom sessions, 3 pleasant and 3 unpleasant activities. The types of activities reported differed across both age and sex. Common responses were included in the Pleasant Activities Survey and the Unpleasant Activities Survey. Several studies examined the relationship between children's activities and depression to test the generalization to children of Lewinsohn's reinforcement theory of depression. The study shows that children's mood-related activities can be reliably classified using a schema adapted for children from one originally used to classify adults' activities. One table and one figure illustrate the discussion. (Author/SLD)

DESCRIPTORS- Adolescents; Attention Deficit Disorders; \*Behavior Disorders; Behavior Patterns; \*Children; Classification; Comparative Testing; Depression (Psychology); \*Diagnostic Tests; Elementary Education; Elementary School Students; Hyperactivity; Males; \*Mental Disorders; \*Patients; Personality Problems

IDENTIFIERS- \*Child Behavior Checklist; \*Diagnostic Statistical Manual of Mental Disorders; Disruptive Behavior

Psychopathology in outpatient children was explored using two classification systems. Clinically derived Diagnostic and Statistical Manual of Mental Disorders (Third Edition, Revised) (DSM-III R) diagnoses in three high frequency diagnostic groups were compared to empirically derived Child Behavior Checklist (CBCL) scores for an overall sample of 161 males and females and a subsample of 59 boys aged 6 to 11 years. Diagnostic groups included depressive disorders, conduct disorders, and attention deficit disorders. A fourth group, which was comprised of translated DSM-III-R Disruptive Behavior Disorders, was also analyzed. DSM diagnoses and the CBCL broadband externalizing dimension converged among male and female clinic referred children, ages 4 to 16 years. Diagnoses and hyperactivity narrow-band scale converged among the 6- to 11-year-old male subsample. Reasons for the lack of convergence on other dimensions are discussed. Results suggest increased difficulties in classifying outpatient versus inpatient children. Implications for the classification of outpatient versus inpatient children are discussed. Support for the DSM-III-R Disruptive Behavior Disorders category is provided. (Author/SLD)

IDENTIFIERS- \*Language Minorities

This guide for minority language parents whose primary language is Hmong presents parenting information to supplement a course in English as a Second Language. It focuses on topics parents must deal with in meeting the needs of their children.

Vocabulary and practice drills are presented for activities in the following areas: (1) education and dealing with the school system; (2) parenting; (3) nutrition; (4) mathematics; (5) health; (6) safety; and (7) citizenship. The section on education provides information on school organization, registration, forms that must be completed, communication with teachers, and reading student report cards. The parenting skills emphasized are those of interacting with children and of coping with systems that can have an impact on children, such as the public library. Illustrations present scenarios of everyday activities with discussion questions in the primary language. In most instances, parallel English and Hmong exercises are provided. (SLD)

the black family as an institution. To facilitate an understanding of the black American family, an analysis is presented of the various sociocultural forces that shape both the structure and functions of the family as well as the way the family has experienced changes. Larger forces outside the black community are analyzed, such as assimilation, unemployment and underemployment, the role of government and public policy, and the imbalance in the gender ratio. The role of education is considered. Typically, the best efforts of the black male in preparing for the job market do not insure equal employment opportunities. At every educational level, blacks are twice as likely as whites to be unemployed. Single-parent families and children in poverty face barriers in access to education, equal educational opportunities, and the opportunity to benefit fully from public education. The theoretical perspective of the analysis is a political economy model that assumes that contemporary black family structure is a function of political and economic forces that have shaped its existence for several centuries. A list of 462 references is included, and an additional bibliography lists 97 selected readings. (SLD)

Community Service Partnerships: African-American Owned Radio's Commitment to Education.

PUB DATE- Apr 93

NOTE- 30p.; Paper presented at the Annual Meeting of the Broadcast Education Association (Las Vegas, NV, April 16, 1993).

LANGUAGE- English

EDRS Price- MF01/PC02 Plus Postage.

PUB TYPE- Reports - Research/Technical (143), Speeches, Conference Papers, "Papers Presented at..." (150)

DESCRIPTORS- Administrators; \*Black Community; Black Culture; Black Leadership; Broadcast Industry; \*Community Education; Community Services; Elementary Secondary Education; \*Mass Media Role; News Media; Partnerships in Education; Programming (Broadcast); \*Radio

IDENTIFIERS- \*African Americans; Minority Businesses; Public Service Advertising; \*Public Service Campaigns; Radio Operators

How African American owned radio stations use their collective resources to deal with educational issues in the communities they serve was studied by examining their community service promotional activities. The type and frequency of activity at these stations during a typical year were studied through a survey of 96 African American broadcast companies, with 123 radio stations, conducted in the first quarter of 1992. The commitment of senior-level management to community service promotional activities now and in the future was examined, along with the station's commitment to community service activity targeting education. Results suggest that community service promotion is an active, important, and highly regarded part of the programming at African American owned radio stations. African American radio has demonstrated its desire to improve the inner city schools for the children of its listeners. The promotional agendas of African American stations have included many hours of working toward solutions to other urban problems, typically focusing on violence prevention, combating the influence of drugs, parent participation in the schools, and promoting citizenship. Change has often been brought about by the commitment of senior level management. Three tables present study findings. Contains 70 references. (SLD)

Expectations of Students; \*Urban Schools; Urban Youth  
IDENTIFIERS- \*African Americans

This handbook focuses on five long-standing correlates for effective schools postulated by the late Ron Edmonds. Edmonds searched long and hard for those variables that were present in successful inner-city schools populated primarily by African American children. His work demonstrated that it is possible to educate so-called hard-to-reach students if the correct ingredients are present in the school environment. The five postulates are: (1) strong administrative leadership; (2) a climate of expectation; (3) the right atmosphere; (4) basic skills; and (5) monitoring of pupil progress. Many educational strategies are suggested as appropriate means of seeking to implement Edmonds' criteria. Most are not new, but many are untested in schools. The genuinely at-risk students of our "nation at risk" have not yet been helped by contemporary educational reforms, but these strategies offer approaches that may succeed. (SLD)

IDENTIFIERS- Education Consolidation Improvement Act Chapter 1;  
Hawkins Stafford Act 1988; \*Saginaw City School System MI

Holland House is a residential program for neglected and delinquent youth in Saginaw (Michigan). In 1992-93, the program received Education Consolidation and Improvement Act Chapter 1 funding, which was used for materials and a teacher and an aide for a reading skills tutorial program. This product evaluation was conducted in 1992-93, and focuses on the degree to which participants achieve the major objectives of the program. Student entry and exit normal curve equivalent (NCE) scores on the Woodcock Johnson Tests of Achievement--Standard Battery were compared. Twenty-five students were served by the program in 1992-93 (14 Black, 9 White, and 2 Hispanic), and 11 students for whom there were complete data were considered in the study. The grant performance criterion specified that students would improve more than three NCEs in reading. Test scores indicate that the program attained its objective in both basic and advanced reading. Seven of the 11 evidenced gains in both areas, 1 experienced a gain in only 1 area, and 3 showed losses in both. Recommendations for program improvement are offered. Three tables present study findings. Four appendixes contain a weekly evaluation form and three additional tables. (SLD)

IDENTIFIERS- \*Resilience (Personality)

To gain perspective on how the structure of a family impacts young people, data from a national study conducted by the Search Institute were reexamined. Of the 47,000 students of the study, 8,266 live in a single parent household, due largely to divorce. Analysis focused on at-risk behavior, deficits, and the dynamics of healthy single-parent families that help them beat the odds. The issues are too complex, and the perspectives and values too diverse to settle in a single discussion, but it appears that categorical statements about two-parent families being good and single-parent families being bad overstate the case. Two-parent families have an edge, but being in one is no guarantee that a young person will have the nurture, control, and guidance needed to grow up healthy. Being a single parent is tough, and living in such a family structure is not ideal for children, but with special effort and with the support of institutions, communities, and individuals around them, single-parent families can be supportive and healthy families in which young people can thrive. Six figures provide details of the situations of single families. (SLD)

Overview of Youth Sports Programs in the United States.

PUB DATE- 93

NOTE- 133p.

LANGUAGE- English

EDRS Price- MF01/PC06 Plus Postage.

PUB TYPE- Information Analyses/State-of-the-art Materials (070)

DESCRIPTORS- Adolescents; \*Athletic Coaches; \*Athletics; At Risk

Persons; Elementary School Students; Elementary Secondary Education; \*Program Effectiveness; Secondary School Students; Sex Differences; \*Sport Psychology

This overview focuses on two out of the six categories of organized youth sports; namely, agency-sponsored and interscholastic athletics. The discussion of the current status and proposed future direction of organized athletics for youth includes seven components of the problem: the role of youth sports in American culture; the role of athletic competition in youth development; education of youth sport coaches; injury prevention and safety in youth sports; patterns of participation and attrition in sports by adolescents; issues of gender in youth sports; and effectiveness of sports programs for adolescents. The discussion focuses on adolescents, especially those who live in high-risk environments. Programs that seem to be meeting specific objectives have been identified as a resource for those who seek models of effectiveness. Responses of youth to a survey about their experiences in organized sports are summarized. Among the findings are: progress toward true equality in sports opportunities regardless of gender has been made, but participation rates for boys continue to be much higher than those for girls; a commitment to provide programs for specific populations, such as low-income or minority groups, is absent from the mission, goals, and objectives of many national governing agencies; the potential benefits of competition are acknowledged, but whether these benefits are actually experienced by a significant number of participants depends largely on the quality of adult leadership; and competitive sports have the potential to produce negative effects, such as the disintegration of moral development. The paper concludes with 23 recommendations, divided among the following topics: Organization of Sports Programs (11 recommendations); Scheduling of Practice and Games (3 recommendations); Quality of Adult Leadership (9 recommendations). Three appendixes provide information on two publications ("Guidelines for Coaching Education: Youth Sports," and "Coaching Certification: A Position Paper") and an address list of representatives of national youth sports governing agencies. Contains 78 references. (AMH)

relationship. This view of microteaching examines how social, cultural, and historical conditions constitute the processes by which prospective teachers learn to teach. It examines how the concept of the ZPD has been portrayed as a "construction zone," a created, shared space in which meaning is constructed. The paper attempts to show how the ZPD is co-constructed by the persons who form the teaching-learning relationship and how the "construction zone" continually comes into being as meanings and tasks are negotiated and renegotiated within the historical context of a strategic relationship. It analyzes manifestations of power and knowledge, and places power/knowledge connections within the broader historical context of the teacher preparation program. The paper then analyzes microteaching as autonomous school learning and as connected labor. (Contains 29 references.) (JDD)

DESCRIPTORS- \*Discourse Analysis; Elementary Secondary Education; \*Interaction Process Analysis; Lesson Observation Criteria; Observation; Personal Autonomy; Success; \*Supervisory Methods; Teacher Administrator Relationship; \*Teacher Effectiveness; Teacher Evaluation; \*Teacher Supervision

The study reported here analyzed the interaction performance of instructional supervisors as they conducted postobservation conferences with teachers. Seven supervisor-teacher pairs consisting of varying combinations of experienced, beginning, and novice teachers and supervisors were examined, to determine status indicators such as jargon use, verbal complexity, and using the other person's name; informing versus controlling the interaction; dominance strategies such as total words, message unit turns, intended interruptions, and minimal responses; and the success level of the conference. Findings suggest that conference success is greatly influenced by strategy patterns, as the match between the strategy use of the supervisor and the teacher is more important than the experience levels of either participant. The most successful conferences were characterized by teacher-controlled dominance strategies, close matching of status indicators, and supervisory reliance on suggestions rather than direction, except in the case of a beginning teacher coupled with an experienced supervisor. Implications for supervisory practice, philosophy, and preparation are discussed. (Contains 62 references.) (JDD)

DESCRIPTORS- \*Classroom Observation Techniques; Classroom Research; Comparative Analysis; \*Data Collection; Documentation; Educational Technology; Elementary School Teachers; Elementary Secondary Education; \*Evaluation Methods; Naturalistic Observation; Professional Development; \*Psychometrics; Reliability; Scoring; Secondary School Teachers; \*Teacher Evaluation; Validity; \*Videotape Recordings

IDENTIFIERS- \*Performance Based Evaluation

Issues in collecting data on the classroom performance of teachers are discussed, with a focus on written descriptions of teacher behavior in contrast with videotaped observations. The central issue in this comparison is the comparability of the information when it is observed live and when it is simply recorded on videotape. The fundamental psychometric questions associated with any assessment technique can also be posed in terms of validity, reliability, and bias. In any data collection effort, the purposes must be clear, and the inferences to be drawn must be recognized. The situational generalization of observations is limited in different ways for live observers or videodocumentation. Live observers restrict their attention, and videorecorders may restrict the observers' focus. However, the videodocumentation of classroom teaching produces a record that can be viewed, interpreted, and evaluated by many observers. Limited research from J. R. Fredericksen and colleagues suggests that live observation and videotape scoring produce very similar evaluations of teachers, with adequate interscorer reliability. Various practical issues in videotape use, and opportunities it provides for professional development are discussed. Research needs are reviewed. (SLD)

Testing; Correlation; Factor Analysis; Federal Programs; High Schools; \*High School Students; Males; \*Military Personnel; \*Occupational Tests; Predictive Measurement; \*Testing Programs; Test Use; Whites; Young Adults  
IDENTIFIERS- \*Armed Services Vocational Aptitude Battery; \*General Aptitude Test Battery

A statistical comparison was made of two test batteries, the Armed Services Vocational Aptitude Battery (ASVAB) and the General Aptitude Test Battery (GATB), using a sample of 406 subjects (98 civilian high school students and 308 military recruit examinees). The sample was predominantly white and male. A first analyses described the sample and its performance on the subtests and composites of the GATB and the Department of Defense Student Testing Program composites of the ASVAB. A second analysis investigated the extent to which the ASVAB can predict GATB subtests and composites, and vice versa. The third analysis was a canonical correlation of the subtests of the two batteries. The fourth analyses consisted of principal components factor analyses of the batteries separately and combined. Results show that the batteries do not overlap enough to be considered equivalent or interchangeable, but that they do share a large amount of variance. Such shared variance is to be expected in batteries that have been developed for occupational selection or guidance. Nineteen tables present analysis results. (Author/SLD)

DESCRIPTORS- \*Automation; \*Computer Assisted Testing; \*Item Banks; Item Response Theory; \*Test Construction; Test Items  
Projects to develop an automated item banking and test development system have been undertaken on several occasions at the Air Force Human Resources Laboratory (AFHRL) throughout the past 10 years. Such a system permits the construction of tests in far less time and with a higher degree of accuracy than earlier test construction procedures. This paper details Classical Test Theory and Item Response Theory (IRT) approaches to item banking and test construction and their relevance to the development of an automated item banking system. State-of-the-art improvements in the current automated item banking system are proposed which include the capability to generate multiple forms simultaneously and to print new test forms with the same type font, spacing, and format as the reference form. Knowledge and Processing Speed as Determinants of Associative Learning. Interim Technical Paper for Period February 1986-February 1987.

PUB DATE- Apr 89

NOTE- 87p.

LANGUAGE- English

New Orleans students were below the 40th percentile, although dividing students into low-risk and high-risk groups gives a clearer picture of what the schools accomplish. Test results must be related to major student factors such as retention, Chapter 1 participation, absenteeism, suspensions, expulsions, free lunch status, welfare, etc., to gain a more meaningful understanding of true achievement. Retention does not seem to have any beneficial effect on students retained at the first grade level. The long-term benefits of Chapter 1 and prekindergarten experiences are questionable and merit further study. Absenteeism is a serious problem in the New Orleans schools, and it, along with instructional variables, must be examined for its relationship to test results. The tendency to associate low socioeconomic status automatically with poor scores must be reexamined to avoid stereotyping these students. The school district must begin to develop a student database management system to improve further research. Sixteen tables present test results, and nine figures make comparisons possible. Six appendixes provide additional details about test results. (SLD)

Response Rates (Questionnaires); Sex Differences; \*State Surveys  
IDENTIFIERS- \*Arizona

This survey determined the proportion of Arizona high school graduates who continued their educations, became employed, enlisted in the military, or chose another alternative. Surveys mailed to 5,288 graduates of Arizona public schools were completed and returned by 1,347. Female and white students were more likely to respond. At graduation, 86 percent of the respondents planned to continue their educations, 55 percent to be employed, 5 percent to enlist in the military, and 5 percent to become a homemaker or a volunteer. Eighty-two percent of the respondents enrolled in some form of postsecondary education after graduation in 1991, and 77 percent expected to be enrolled in 1992. Asians were most likely to have enrolled (97 percent) and American Indians were least likely to enroll (58 percent). Half had been gainfully employed more than 6 months of the year since graduation, and 83 percent of those continuing in school were also working. Respondents were basically satisfied with their high school experiences as preparation, with very good or satisfactory ratings given by 85 percent. In spite of these generally favorable ratings, most of the respondents' voluntary comments expressed frustration and disillusionment. Comparisons with the class of 1989 indicate that 1991 graduates face a more hostile world, or were less well prepared, since both employment and enrollment in postsecondary education declined over the 2 years. Twenty tables present responses and findings. Five appendixes discuss survey methodology and responses and include survey

IDENTIFIERS- Alpha Coefficient; \*Post Divorce Parental Conflict Scale

One difficulty in studying the long-term impact of divorce on children has been the lack of a reliable and valid measure of parental conflict for divorced parents. Items for a post-divorce conflict scale were written and tested using 32 male and 63 female college students from divorced families for Study 1 and 60 male and 75 female students from divorced families in Study 2. Using rational, factor analytic, and internal consistency methods, three subscales--Verbal, Physical, and Indirect Hostility--were developed. Alphas for the revised measure were 0.93 for the total Mother- and Father-Conflict scales. Alphas for the subscales ranged from 0.80 to 0.92. The patterns of correlations between each subscale and other measures support the validity of verbal, physical, and indirect hostility as separate constructs. Appendix A contains the scale, and Appendix B contains six tables of study data. (Author/SLD)

IDENTIFIERS- Mathematics Assessment Questionnaire

Commemorating the work of Anne Cleary, the author considers the need for research on assessment in the practice context, provides an example of research in context, and proposes general areas of development for assessment research in the context of practice. Research has shown that effects of testing programs on practice are often not those that were intended. In addition, assessments are becoming more complex. These factors and the historical independence of test developers and measurement practitioners from educational practitioners make research in the context of educational practice extremely important. The development of the Mathematics Assessment Questionnaire (MAQ), a survey of students' thoughts and feelings about learning and doing mathematical word problems in classroom activity settings, illustrates research in the

This guide for minority language parents whose primary language is Lao presents parenting information to supplement a course in English as a Second Language. It focuses on topics parents must deal with in meeting the needs of their children. Vocabulary and practice drills are presented for activities in the following areas: (1) education and dealing with the school system; (2) parenting; (3) nutrition; (4) mathematics; (5) health; (6) safety; and (7) citizenship. The section on education provides information on school organization, registration, forms that must be completed, communication with teachers, and reading student report cards. The parenting skills emphasized are those of interacting with children and of coping with systems that can have an impact on children, such as the public library. Illustrations present scenarios of everyday activities with discussion questions in the primary language. In most instances, parallel English and Lao exercises are provided. (SLD)

IDENTIFIERS- African Americans; California (Los Angeles); \*Self  
Reliance

Many have regarded the recent civil disturbances in Los Angeles (California) as a wake-up call, a warning that the deterioration of America's cities, education systems, and public services, and the continuing decline of the underclass may result in a race war that could destroy society. The wake-up call is directed primarily at middle-class black America, specifically at females, because African American women constitute 52 percent of the black adult population and far outnumber black men in administrative positions in higher education. The undeclared but obvious alienation between poor and middle income blacks may be one of the gravest by-products of upward mobility in black America. Black people have to begin relying on themselves again, using the initiative and energy that have characterized the black struggle in a legally segregated nation. No institution in society has ever been an adequate substitute for strong, responsible, intelligent, and loving parents. In inner-city families, some children, without parental guidance, have turned to gangs and drugs. A renewal of independence in the black community begins with parents and their participation in the schools. Community colleges have an important role to play through demanding high achievement and setting standards. The wake-up call to black Americans can only be sounded by the black community. (SLD)

IDENTIFIERS- African Americans; American Indian Students; Hispanic American Students; Latinos; \*National Education Goals 1990; State Higher Education Executive Officers Assn  
Goal Five of the National Education Goals states that by the year 2000, every American will be literate and will possess the knowledge and skills to compete in a global economy and exercise the rights and responsibilities of citizenship. This report examines the challenges and progress of minorities compared to Whites in reaching Goal 5, focusing on educational achievement and workplace success. Overall performance of American students on national literacy assessments is low, and this is especially true for minority students. African American, Latino, and American Indian students take fewer mathematics and science courses than do their White and Asian American counterparts and are less likely to be in academic programs. Minority students are less likely to participate in postsecondary education and have less information about its importance. Young workers, especially minority workers, have the greatest difficulty in finding and keeping jobs, and are greatly underrepresented in professional jobs and technical specialties. Further research and evaluation show that new initiatives, such as apprenticeship programs and innovative occupational training, are necessary to close the gaps between minorities and the White mainstream. Seven tables and two figures present study data. An appendix contains the "Leadership Statement of Nine Principles on Equity and Educational Testing and Assessment." (SLD)

Schools; Urban Youth

This book originally written in 1978, houses a pessimistic view of American culture that the author sees no reason to modify. The central argument is that the national faith in individual initiative and free opportunity has become a breeding ground for guilt about our own limited successes and prejudice against all who exhibit signs of failure. Among the many ways society fails the disadvantaged is through the educational system. American schools graduate thousands of students who are functionally illiterate, and thousands more drop out before mastering basic skills. American schools are underfinanced and bureaucratic rigidity plays a role in their failures, but the underlying causes of educational failure are found in a view of failure as a matter of insufficient capability rather than insufficient effort. Allowing educational failure to continue allows many to distinguish themselves from those who fail, as it serves a certain usefulness in the individual-as-central mentality. The epilogue makes the point that the culture of inequality created is not likely to be changed in positive ways, but that estrangement will increase and inequalities will grow. (SLD)

Analysis

Community recreation services provide enjoyable, interesting and challenging opportunities that will enhance the well-being and healthy development of participants, enrich community life, and provide life skills training for youth. Leisure skills and interests gained in adolescence contribute significantly to the development of human competence and the achievement of self-actualization. Successful recreation programs operate under the philosophy that youth are a resource to be developed, rather than a problem to be managed; therefore, constructive use of leisure must become an integral part of the school curriculum at all levels. This paper presents an overview of community recreation services for youth, examines current issues in community recreation services for young adolescents with a particular focus on at-risk youth, discusses the value of participation in organized sports, and provides an overview of programming for youth. Innovative and exemplary programs that serve the needs of youth are highlighted. The paper also includes an examination of funding strategies for leisure services, analyzes trends and issues in recreation and leisure services, and sets forth challenges for public policy makers. (Contains approximately 100 references.) (LL)

DESCRIPTORS- Concept Teaching; \*Confidence Testing; \*Economics Education; Elementary School Teachers; Experiential Learning; \*Inservice Teacher Education; Knowledge Level; Models; Pretests Posttests; Primary Education; \*Teaching Methods

IDENTIFIERS- \*Generative Processes

It is believed that if primary grade children are exposed to the fundamentals of economics, they will be better able to comprehend and apply the principles in later years. This paper describes an inservice economics education training institute for elementary school teachers that integrates the following strategies: (1) an experienced-based curriculum; (2) the Generative Model of Teaching (instructional strategies which empower the learner) and the Generative Model of Mislearning and Recovery (preconceptions that are actually misconceptions); and (3) Information Referenced Testing (IRT) (a scoring system which increases the learner's confidence level). The curriculum consists of nine sequential units, each of which follows a 3-step process: experiences, debriefing, and reinforcement. Teachers learned by experiencing a modified adult application of the program. Pre- and posttesting item analysis suggest that teachers exposed to the model increased their confidence levels in economics information from 54 percent to 89 percent. Appendixes provide learner objectives for an integrated teacher education model, IRT responses, total item analysis, item-by-item analysis, and an examinee's individual education plan. (Contains 20 references.) (Author/LL)

IDENTIFIERS- \*Partners in Learning; Reflective Practice; Saskatchewan

The purpose of the documents in this series is to provide educators in Saskatchewan with practical and relevant guides to teaching and learning as a means of expanding or refining teaching repertoires. This booklet highlights peer practice, a strategy that allows students to become actively involved in the strengthening or broadening of their own learning by supporting the learning of peers. Students reflect upon previously taught material by helping peers to learn and, at the same time, develop and hone their social skills. Students work together as partners, one functioning as a "doer" and the other as a "helper". The doer performs a task or answers questions; the helper observes and provides feedback and helping information. The doer is the student and the helper takes on the role of teacher. Later, the partners reverse roles. This guide explores the peer partner method, and is organized into the following eight parts: (1) Background; (2) Peer Partner Learning Is; (3) Why Use Peer Partner Learning; (4) Prepare for Peer Partner Learning; (5) Developing Peer Partner Learning; (6) The Teacher's Role During Peer Partner Sessions; (7) Executive Summary; and (8) Resources. Teaching Standards; \*Performance Based Evaluation; Policy  
Capturing Method; \*Standard Setting; Standards for Educational  
and Psychological Tests; Teacher Candidates

Methods that might be used to establish standards of performance  
that will permit the National Board for Professional Teaching  
Standards to classify candidate teachers as highly accomplished  
(worthy of National Board certification) or less than highly  
accomplished (not worthy of certification) are contrasted.

Plans for research on these issues are discussed. Two  
approaches are considered. One, "policy capturing," is a  
judgmental process that attempts to elicit and characterize the  
decision strategies used by expert judges when they evaluate  
profiles of performances and reach a summative decision. The  
other method is an extension of the standard-setting method of  
W. M. Angoff (1971), in which judges are asked to estimate for  
individual test items the proportion of minimally qualified  
examinees who would answer the item correctly. Each method is  
examined in some detail, and the proposed strategies for  
applying them are explored. If carefully applied, these  
strategies should satisfy the requirements of the 1985  
"Standards for Educational and Psychological Tests." One chart  
and four figures illustrate the discussion. (SLD)

DESCRIPTORS- Association Measures; \*Associative Learning; \*Cognitive Processes; \*Encoding (Psychology); Individual Differences; \*Knowledge Level; Military Personnel; Mnemonics; Models; Predictive Measurement; Recall (Psychology); \*Retention (Psychology); Study Habits; Time Management; Training IDENTIFIERS- \*Cognitive Speed

In five experiments with over 2,500 subjects, we examined the hypothesis that cognitive processing variables measuring breadth of declarative knowledge and information processing speed were related to learning outcomes on a paired-associates task. Experiments 1 and 2 compared recall with recognition tests, Experiment 3 assessed the effect of study-block size, Experiment 4 examined the effect of mnemonic strategy, and Experiment 5 tested the effect of mixing study times and presenting words versus nonsense syllable stimuli. Across all experiments, breadth of verbal knowledge was found to be a strong predictor of retention overall, and a strong predictor of increment in retention benefits due to increases in study time. Mnemonic strategy training improved retention but also served to enhance the relationship between knowledge and retention. Memory search speed also predicted retention, but primarily under conditions of high information flow, either as a result of short (5 seconds per pair) study or time-sharing pressure (mixed study-time blocks). High-Knowledge subjects and Fast Memory-Search subjects were also quicker at retrieving the answer, when they knew the answer; but High-Knowledge subjects took longer in retrieving an answer under conditions of uncertainty. Results are discussed in terms of a general model of associative learning in which encoding is viewed as a process of generating links by constructing elaborations of the terms studied. (Fourteen tables and 14 figures are provided. Appendixes discuss producing individual difference curves, and strategy-treatment group instructions for Experiment 4.) (Author)

Computational Approaches for Analyzing Tradeoffs between Training and Aiding. Final Technical Paper for Period February-December 1989.

SPONS. AGENCY- Air Force Human Resources Lab., Brooks AFB, TX. Training Systems Div.

PUB DATE- May 90

NOTE- 66p.

LANGUAGE- English

EDRS Price- MF01/PC03 Plus Postage.

PUB TYPE- Reports - Evaluative/Feasibility (142)

DESCRIPTORS- Artificial Intelligence; \*Cost Effectiveness; Decision Making; Evaluation Methods; \*Helping Relationship; Learning; Military Training; Models; \*Predictive Measurement; Problem Solving; Program Design; Research Methodology; \*Training IDENTIFIERS- \*Tradeoffs

A methodological framework is presented for representing tradeoffs among alternative combinations of training and aiding for personnel in complex situations. In general, more highly trained people need less aid, and those with less training need more aid. Balancing training and aiding to accomplish the objectives of the system in a cost effective way is the concern. A wide variety of methods, tools, and models is reviewed. These approaches are evaluated in terms of their advantages and disadvantages when used to analyze

instruments. (SLD)

IDENTIFIERS- \*Arizona

This survey determined the proportion of Arizona high school 1989 graduates who continued their educations, became employed, enlisted in the military, or chose another alternative. Of the 5,000 graduates originally selected, 1,380 graduates from 64 high schools responded to a mailed survey. Females, whites, and students with a high grade point average were more likely to respond. At graduation, 84 percent of the respondents planned to continue their educations, and 86 percent enrolled in some form of postsecondary education. At 2 years after graduation, 71 percent were still enrolled. Twenty-three percent intended to become employed, and three-fourths actually were employed in paid positions at 2 years. Of those who were employed, 32 percent were in full-time positions. While 4 percent planned to enlist in the military, 5 percent were actually enlisted. Respondents were basically satisfied with their high school experiences with regard to preparing them for the future, with 87 percent rating their experiences as very good or satisfactory. Two charts summarize activities after graduation and the distribution of grade point averages. Sixteen tables present survey responses and findings. (SLD)

context of practice. A framework has been developed to describe teacher change using the MAQ assessment. Research in the context of practice will necessarily link more closely to research on teaching and learning in subject matter areas. To foster this integration, examples are needed of new organizational arrangements and research that makes explicit use of theories of teaching and learning. New procedures to extend and adapt assessment development are needed, as are criteria for evaluating the meaning and use of assessments in context. One table and one figure illustrate the discussion. IDENTIFIERS- \*Arizona Student Assessment Program; Iowa Tests of Basic Skills; National Assessment of Educational Progress; Tests of Achievement and Proficiency; Trial State Assessment (NAEP)

This first report of the Arizona State Department of Education on the progress of the Arizona Student Assessment Program (ASAP) includes results of the March 1992 Pilot Assessment and contains a profile of Arizona student achievement. The first administration of the ASAP fulfills the legislative requirement of pilot testing. The report also includes results on the Iowa Tests of Basic Skills (ITBS), the Tests of Achievement and Proficiency (TAP), and the National Assessment of Educational Progress (NAEP) Eighth Grade Trial State Mathematics Assessment. Section 1 presents the ASAP results for grades 3, 8, and 12. As shown, 115,259 assessments were scored as part of the spring 1992 ASAP pilot. A summary of assessment participation and statewide results by assessment and grade are given. Section 2 summarizes ITBS and TAP results, which indicate that Arizona students scored slightly above national averages in reading for grades 4, 7, and 11, with scores above the national average for grades 7 and 11 in language and below the average for grade 4. Mathematics scores were below the national average for grade 4, but somewhat above for grades 7 and 11. Section 3 describes NAEP Trial State Mathematics Assessment participation for Arizona. Eight figures and 22 tables present test results. The bulk of the report contains data from the ASAP presented in 132 pages of data in tables. (SLD)

IDENTIFIERS- \*Language Minorities

This guide for minority language parents whose primary language is Chinese presents parenting information to supplement a course in English as a Second Language. It focuses on topics parents must deal with in meeting the needs of their children. Vocabulary and practice drills are presented for activities in the following areas: (1) education and dealing with the school system; (2) parenting; (3) nutrition; (4) mathematics; (5) health; (6) safety; and (7) citizenship. The section on education provides information on school organization, registration, forms that must be completed, communication with teachers, and reading student report cards. The parenting skills emphasized are those of interacting with children and of coping with systems that can have an impact on children, such as the public library. Illustrations present scenarios of everyday activities with discussion questions in the primary language. In most instances, parallel English and Chinese exercises are provided. (SLD)

IDENTIFIERS- \*African Americans

The mentoring experiences of African American women and the potential of mentoring for improving their circumstances are explored. To develop insight into mentoring, a brief pilot survey was designed using a definition of mentoring derived from the literature, specifically from the characteristics described by J. E. Blackwell. The 21-item instrument was sent to a sample of members of the Association of Black Women in Higher Education. The 63 usable responses represented a 28 percent response rate. Slightly more than half of the respondents identified themselves as administrators, and most earned appreciable salaries. Most were working in 4-year public institutions with a majority of non-African Americans. Fifty of the respondents described present or past mentoring relationships. Mentors were usually older, and respondents reported socializing with them beyond school or work functions. After reviewing their mentoring experience, 96 percent of the women said that they would like to be mentors. The most frequently perceived function of mentors was building self-confidence, heightening self-esteem, and strengthening motivation. The next most frequently identified function was

language arts (NLA), and content area subjects taught bilingually. It also was intended to provide students with personal counseling, tutoring, and orientation to American education and culture. The design also included plans for parent outreach activities. The project enrolled 365 students. Of these, 287 were Haitian and 32 spoke Spanish as primary language. For the most part, the project carried out activities proposed in its design. The project met its objectives for guidance and counseling, career conferences, and staff development, but did not meet its objectives for ESL, NLA instruction in Haitian, and attitude toward school. Objectives for staff awareness of pupil needs and problems and for parental involvement could not be evaluated due to lack of data. Recommendations are made for program improvement, especially in English language and NLA, and improved program evaluation. Appendixes discuss data collection and analysis and instructional materials. IDENTIFIERS- \*Reform Efforts

Problems that beset urban education in general are analyzed, and solutions are discussed and evaluated by a policy working group of the National Association of State Universities and Land Grant Colleges. The most acute problem in American education involves the unmet needs of disadvantaged students, who are heavily concentrated in urban school systems. Almost every one of our nation's largest city school systems has a predominantly minority enrollment and a high percentage of students whose first language is not English. Accepting that the nation must invest in at-risk students, and that the Federal Government should lead in this process, the following five areas identify specific needs that must be addressed: (1) assisting urban students through social services; (2) addressing teacher shortages and needs; (3) developing and disseminating information about effective teaching and instructional technology; (4) developing appropriate organizational arrangements; and (5) solving financial problems with increased aid. Specific recommendations are made for national action, which include teacher pension programs, incentives for teacher improvement, programs for minority students, and encouragement of innovation in instruction and organization. Urban universities have an important role to play in forming partnerships with urban educators to promote educational quality. (SLD)

Policy; Racial Discrimination; \*Urban Problems  
IDENTIFIERS- \*Latinos

With this report the National Council of La Raza begins to formulate a coherent framework for assessing proposed solutions to the problems of Hispanic American poverty. Poverty among Hispanic Americans is persistent and severe. More than one in four Hispanic Americans and two in five Hispanic children are poor. This discussion of the dimensions of Latino poverty reveals that the disadvantaged economic situation can be explained largely by the poverty of the four groups: the working poor; female-headed households; Puerto Ricans; and children. The outcomes of the following four public policy strategies on Hispanic poverty are considered: (1) equalizing educational attainment; (2) eliminating the effects of employment discrimination; (3) making work more rewarding; and (4) guaranteeing affordable housing. Other issues cannot be ignored, but anti-poverty approaches that address these four issues have the potential to reduce the number of Hispanic poor significantly. In addition, these strategies are amenable to statistical analysis to determine their real effects. Of the four approaches, equalizing educational attainment appears to have the most significant effect on poverty. Looking beyond the traditional civil rights issues to broader policy concerns will benefit the Hispanic American community. Nine figures illustrate the report. (SLD)

Chapter 1, student cognitions are related to their motivations for studying; Chapter 2 focuses on motivational values and expectations, cognitions, metacognitions, and strategy management; Chapter 3 concentrates on teaching learning strategies to students; Chapter 4 examines teaching form and content and provides a detailed case study; and Chapter 5 presents a discussion, suggestions for future work, and conclusions. Appendixes provide an article entitled "The Danger of Success in Math" (Earl Babbie) and Seminar Presentation Transparency Masters. (Contains approximately 60 references.) (LL)

This report provides an outline of the Urban Teacher Education Program (UTEP), describes curriculum development and delivery, and discusses the progress that has been made toward program goals. UTEP is a school district/university consortium for school-based professional preparation and development. Members of the consortium include: Indiana University Northwest, East Chicago Public Schools, East Chicago Federation of Teachers, Gary Community School Corporation, Gary Teachers Union, School City of Hammond, and the Hammond Teachers Federation. UTEP seeks to provide relevant urban education and experience for preservice teachers and to increase the professional development of teacher instructors--skilled master teachers--at the schools that serve as professional development centers (PDC). Field experiences for preservice teachers take place at either the elementary, middle, or high school professional development center. UTEP includes a graduate inservice teacher certification component--an alternative teacher certification program. The report details the evaluation plan and research design for the program and the appendices include protocols used in interviews with university faculty and PDC teacher instructors, as well as a survey instrument that collects information from faculty and teacher instructors on their instructional objectives and assessment methods. The appendices also include a list of 21 publication, papers, and presentations related to UTEP. (Contains 52 references.) (IAH)

IDENTIFIERS- Book Clubs

This paper describes the development of a teachers' book club as a form of professional development, based on the premise that teachers are leaders and can be responsible for their own professional development, if given a framework and opportunity to do so. Data sources included a survey and interviews with club members. Analysis of the success of the book club revealed four major contributing factors: (1) leadership style; (2) the environment in which the group held their discussions, including its physical space and the group climate; (3) the group members themselves, who included teachers of all grade levels and disciplines; and (4) integration of the book club into the teachers' daily routine. It was also felt that the club's success was due to the fact that teachers themselves selected the club as a professional development activity and made the commitment to it. The paper concludes that teacher conversations about teaching and learning should be promoted and links from theory to practice should be created. The reading list for the book club is appended, as well as a form for evaluating professional development activities. (JDD)

IDENTIFIERS- Saskatchewan

The documents in this series provide educators in Saskatchewan with practical and relevant guides to teaching and learning as a means of expanding or refining teaching repertoires. This booklet explores focused imaging as a way to enhance student learning, describes the application of imagery to specific school curricula, and acts as a strategy teachers can use with students to help them learn more effectively and develop creativity by using their imaginations. The publication is organized into nine sections that provide explanation and exercises. The topics are: (1) a sample imaging experience; (2) What is focused imaging? (3) Why use focused imaging? (4) What does focused imaging look like? (5) What does focused imaging sound like; (6) preparing for focused imaging; (7) lesson planning; (8) teacher reflection; and (9) a focused imaging highlight sheet. Resource selections include general overviews of focused imaging, curriculum specific applications, script examples, background information, and starter ideas and

Essentially, the League conducts action research on action research. The League and its definition of schoolwide research are described. Some general tendencies that have been noted in the conduct of research among member schools are reviewed, as is support provided to members by the League. Successes and difficulties in the conduct of the League's research are reviewed, and reflections on the process are presented. Currently, the League includes 60 elementary and secondary schools, with university participation through the University of Georgia. The League is a network held together by common goals, among which are continued cycles of action research. An analysis of 47 action programs of member schools finds 4 areas of success in the collaborative efforts: (1) desirable process outcomes for staff; (2) desirable process outcomes for students; (3) desirable product outcomes for staff; and (4) desirable product outcomes for students. The League is aware that action research is hard work, but it is clear that member schools are recognizing its value and learning how to conduct it effectively. An appendix describes key activities and resources of the League. Contains 72 references. (SLD)

DESCRIPTORS- \*Abstract Reasoning; Attitudes; College Graduates; College Students; Constructivism (Learning); Context Effect; \*Epistemology; Graduate Surveys; Higher Education; \*Individual Development; \*Interpersonal Relationship; \*Knowledge Level; Longitudinal Studies; \*Young Adults

IDENTIFIERS- \*Relational Learning

The roles of impersonal (or abstract) and relational (or connected) modes of knowing in the experiences of young adults were studied, and the ways the two converge are described in this report of the post-college phase of a 7-year longitudinal study of the epistemological development of college students, i.e., their assumptions about the limits, certainty, and criteria for knowing. The study group, initially 101 students, consisted of 53 students by the last phase. The experiences of participants suggest that contextual knowing is characterized by a complex interplay between relational and impersonal modes of knowing. This intertwining is clearest in contextual knowers' examples of situations in which the balance of the two was not present, and the situations resulted in lack of ability to connect with others in some cases and to maintain the separate self in others. The convergence of relational and impersonal modes of knowing holds implications for education on a number of levels. It provides empirical evidence for the argument that education needs to focus on advancing both modes of knowing and their integration. Collectively, the experiences of these contextual knowers suggest that effective education would emphasize the construction of knowledge, the importance of the knower in what is known, and the value of others' perspectives, and would offer direct practice with both types of knowledge. (SLD)

training/aiding tradeoffs. The use of the proposed framework and its component methods, tools, and models is illustrated by an analysis of a realistically complex example involving the design of a head-up display for use by truck drivers in long-haul transport. Results demonstrate that the tradeoff issue can be involved in other than an ad hoc manner. Research needed in predictive models, learning processes, and intelligent systems is reviewed. Four tables and nine figures illustrate the discussion. (SLD)

PUB TYPE- Reports - Evaluative/Feasibility (142); Speeches, Conference Papers, "Papers Presented at..." (150)

DESCRIPTORS- Associative Learning; Attitudes; \*Cognitive Processes; \*Constructivism (Learning); \*Emotional Response; \*Holistic Approach; Interaction; \*Memory; \*Moods; Research Needs; Research Problems; Self Concept

The interaction of emotion and cognition has received experimental attention, but the results have generally been weak and sometimes contradictory. Why this work on mood and memory has faltered is discussed, and a more holistic approach to the study of emotion and cognition is proposed. It is argued that a constructivist approach to memory may be more appropriate than currently used associational theories for exploring the interaction between cognition and emotion. The experimental approach is critiqued as incompatible for the study of emotion, and a constructive and holistic approach is advocated for research in this area. A conceptual framework based on current findings is used to suggest some potential directions for research. The three consistent themes that have emerged from work on mood congruent memory that can provide a starting point for investigation are: (1) the idea that emotion in any form represents a source of information or meaning for the individual; (2) that this meaning may be particularly salient under conditions of uncertainty; and (3) that emotional meaning will also be salient when the self is involved to some degree. IDENTIFIERS- \*Box Cox Transformations; Nonnormal Distributions;

A review of educational measurement journals indicates that the decade of the 1970s and up until about 1984 was the time when substantial numbers of studies dealt with criterion-referenced measurement, and the era in which criterion-referenced measurement advances were made. Although there appears to be less interest in publications today, a number of measurement advances can be traced directly to the conceptual paper of R. Glaser (1963) on the topic of criterion-referenced measurement. The following six areas are highlighted: (1) clarification in specifying performance outcomes; (2) improvements in item writing and increased emphasis on content validity; (3) new approaches to reliability and validity methods and proficiency estimation; (4) new and improved standard-setting methods; (5) increased emphasis on diagnosis, decision-making, and criterion-referenced interpretations; and (6) improved training of teachers in the area of assessment. Although less research is apparent in measurement journals, it is evident that the concept lives in the wealth of tests and measurement textbooks used today. Two figures illustrate the discussion (Contains 15 references.) (SLD)

Carlson, James E.  
Dimensionality of NAEP Instruments That Incorporate Polytomously-Scored Items.

PUB DATE- Apr 93

NOTE- 18p.; Paper presented at the Annual Meeting of the American Educational Research Association (Atlanta, GA, April 12-16, 1993).

LANGUAGE- English

EDRS Price- MF01/PC01 Plus Postage.

PUB TYPE- Reports - Evaluative/Feasibility (142); Speeches, Conference Papers, "Papers Presented at..." (150)

DESCRIPTORS- Computer Simulation; Correlation; Elementary Secondary Education; Factor Analysis; \*Mathematics Tests; Maximum Likelihood Statistics; Models; National Programs; \*Reading Tests; Sample Size; \*Scoring; Student Evaluation; Testing Programs; \*Test Items

IDENTIFIERS- Dichotomous Scoring; \*Dimensionality (Tests); LISREL Computer Program; \*National Assessment of Educational Progress; Polytomous Scoring; Residuals (Statistics)

In this article some results are presented relating to the dimensionality of instruments containing polytomously scored as well as dichotomously scored items, concentrating on the 1992 National Assessment of Educational Progress' (NAEP) mathematics and reading assessment data and several simulated datasets. The maximum likelihood factor analytic procedure of the LISREL 7 computer program was used. Results were evaluated through use of residuals from the fitted model. The square root of the mean squared residual was the statistic used. Overall sample sizes for mathematics were 1,125, 1,173, and 1,064 for grades 4, 8, and 12, respectively. For reading, the sizes were 1,169, 1,271, and 1,139 for each grade, respectively. Results suggest that the dimensionality of data structures in the NAEP assessment is generally not affected by the inclusion of polytomously scored items, but the data structures cannot be generalized to other situations. One reason is the size of the correlations among the scales of the NAEP, and another is the small number of conditions simulated in this study. In addition, the number of polytomously scored items was limited in the 1992 assessment. Eight tables present analysis results, and four figures illustrate the square roots of the mean squared residuals (Contains 32 references.) (SLD)

DESCRIPTORS- \*Context Effect; \*Curriculum Evaluation; Educational Assessment; \*Educational Practices; Elementary Secondary Education; Ethnography; \*Learning Processes; Recreational Activities; \*Research Methodology; \*Underwater Diving

IDENTIFIERS- Learning Communities; \*Legitimate Peripheral Participation

The role of context in learning has taken on a new significance in recent research in that it might account for the "lost learning" that should result from the school experience, but which does not appear on normative assessments intended to measure learning in areas explicitly valued by society. A naturally occurring microworld, or pocket, in the social fabric is examined to look at the phenomenon of learning within a domain where bracketing is naturally afforded by the practices involved. Like traditional schooling, recreational scuba diving has its own formal curriculum and schooling, as well as an informal participation structure and communities of practice. Using a mix of research methods, largely ethnographic, the effectiveness of the formal diving curriculum and the Legitimate Peripheral Participation learning theory of J. Lave and E. Wenger (1992) are assessed to account for the participation patterns observed in recreational diving. Results are examined for implications in larger educational settings. Ten figures illustrate the discussion. (SLD)

IDENTIFIERS- \*Authentic Assessment; High Stakes Tests; \*Performance Based Evaluation

At the root of the performance assessment movement is fairly widespread dissatisfaction with high-stakes multiple-choice tests. Many critics of multiple-choice tests argue that to improve instruction, tests themselves will have to improve. Hundreds of schools around the country are already experimenting with performance assessments, and many states are also experimenting with performance assessment. The states farthest along the road to performance assessment are Connecticut and Vermont. Vermont is the first state to use portfolios as part of a statewide assessment program. Among the advantages of performance assessments are the authenticity of what they say about what is assessed, the ways in which they offer students genuine intellectual challenges, and the opportunity they offer for restructuring schools. Problems with performance assessments are recognized in the areas of scoring,

Literacy; Childhood Needs; Citizenship Education; Daily Living Skills; Elementary Secondary Education; English (Second Language); Health Education; \*Hispanic Americans; \*Limited English Speaking; Minority Groups; \*Parent Education; Parenting Skills; Parent School Relationship; Second Language Learning; \*Spanish; Workbooks

**IDENTIFIERS- \*Language Minorities**

This guide for minority language parents whose primary language is Spanish presents parenting information to supplement a course in English as a Second Language. It focuses on topics parents must deal with in meeting the needs of their children. Vocabulary and practice drills are presented for activities in the following areas: (1) education and dealing with the school system; (2) parenting; (3) nutrition; (4) mathematics; (5) health; (6) safety; and (7) citizenship. The section on education provides information on school organization, registration, forms that must be completed, communication with teachers, and reading student report cards. The parenting skills emphasized are those of interacting with children and of coping with systems that can have an impact on children, such as the public library. Illustrations present scenarios of everyday activities with discussion questions in the primary language. In most instances, parallel English and Spanish exercises are provided. (SLD)

IDENTIFIERS- Comprehensive Instructional Management System;

\*Demonstration Schools; Middle School Students; \*New York City Board of Education

The Middle Level Demonstration School of the New York City Public Schools, in operation since September 1991, is committed to creating a middle school in which both students and teachers are active participants in a supportive learning community characterized by high standards, mutual respect, and cooperation. Parents are seen as important members of the community and as valuable partners. In 1991-92 the school served 190 students in grades 5 through 7. Evaluation of the program focused on how the organizational structure, assessment practices, and school climate support the goal of an integrated and interactive approach to learning. Teachers agreed that instructional practices such as whole language, hands-on approaches, and the concepts and strategies of the Comprehensive Instructional Management System mathematics program support the interactive approach and have a positive effect on attitudes and skills of students. The use of multicultural themes is being instituted at the school, with six of the nine teachers attempting to incorporate multicultural education. Teachers characterized the overall climate as one of teamwork and mutual support. Recommendations are made for program improvement. (SLD)

IDENTIFIERS- Diversity (Student); \*Reform Efforts

Some of the major barriers to progress in special education reform are highlighted, and critical issues for improving the prospects of achieving equity in schooling success for all of the children in U.S. schools are discussed. Vignettes illustrate what new programs and policies for helping students might actually mean for the students and their families. One of the most significant problems in special education is the way in which students are classified and placed in special education programs, with the related problems of labeling and stereotyping. Once placement has been made, students often suffer from inescapable isolation. Achieving success in special education reform requires progress on policy, administration, and programing. A first step should be eliminating the inherent disincentives in current funding. On an administrative level, it is crucial to empower building-level administrators and staff to assemble resources they need. From a programmatic point of view, special education must be understood in terms of the whole education enterprise. The vignettes suggested for the year 2000 represent better acknowledgment of and response to student diversity and better coordination among providers of education and services. (SLD)

This paper reports on a comprehensive survey of 1400 recent graduates of 11 teacher preparation institutions and nearly 500 principals who supervise them in their new teaching jobs and discusses data concerning leadership and collegial sharing of knowledge. The discussion of results focuses on two parts of the survey questionnaire: graduates' perceptions of themselves as leaders or change agents in their schools, and an open-ended question on the graduates' perceptions of how they "stand out" from their teacher-peers. Analysis of responses suggests that: (1) graduates of the 11 institutions were less willing to describe themselves as leaders or change agents than were the principals with whom they work; (2) graduates who have been teaching for 4 or 5 years perceive themselves to be functioning as leaders more often than their counterparts who have been teaching for 1 to 3 years, but still reported a low incidence of what they considered leadership behavior; (3) informal leadership behaviors were reported more often than traditional teacher-leader roles; (4) graduates described themselves as "standing out" among their teacher peers because they loved, cared about, and related well to children, tried new ideas and strategies in the classroom, had excellent rapport with colleagues, parents, and administrators, and were enthusiastic about teaching. provide instruction and support for novice teachers. A case study approach is used to describe their changed perceptions and beliefs about teachers, teaching, and students during the first year of teaching. The teachers' views were examined in December of their first year and again in the following May. Their views are analyzed in terms of the roles of the teacher as carer for and nurturer of children, manager and controller, collaborator and learner, and in terms of the time-consuming nature of teaching and the teachers' sense of self. Data reveal that first-year teachers were imbued with feelings of self-doubt, insecurity, and aloneness. The most important factor that contributed to their growth as teachers was their development of a strong sense of self. The paper concludes that novice teachers' focus on sense of self is a necessary part of learning to become a teacher, and their sense of self and their sense of their students evolved simultaneously. Implications for mentorship programs and teacher education programs are discussed. (Contains 37 references.) (JDD)

DESCRIPTORS- \*Calculators; \*Curriculum Development; Educational Innovation; Junior High Schools; \*Mathematics Curriculum; Middle Schools; Secondary School Mathematics; Secondary School Teachers; \*Teacher Attitudes; \*Teacher Participation

This study investigated the effect of teacher involvement in the development of calculator mathematics curriculum on the implementation of calculators in the classroom. Forty-five middle school mathematics teachers served as subjects. Findings revealed that teachers involved in curriculum development were observed significantly more often than those not involved in curriculum development to: explain the relationship between calculator and paper-and-pencil algorithm, stress the use of the calculator as a "time-saver," stress use of the calculator as a problem-solving tool, and initiate use of calculators in the classroom. Neither teacher attitude nor teacher involvement affected the overall quantity of student calculator use. In classrooms of teachers who were involved in curriculum development, students were observed more often than students in classes of other teachers to use calculators for exploration and induction activities, solving routine word problems, and self-checking and verifying answers. Findings indicate that classroom calculator implementation differences are not primarily the result of teacher attitude toward calculators. (Contains 17 references.) (JDD)

IDENTIFIERS- Blooms Taxonomy; \*Take Home Tests

The psychometric properties of objective tests administered in two testing conditions were compared, using an experimental take-home testing condition and a traditional in-class testing condition. Subjects were 290 college students in a basic educational psychology course who took a test developed and tested the previous semester. Two equivalent 30-item tests (Form A and Form B) were randomly distributed. Students in Group 1 (n=141) took Form A in the in-class testing condition and Form B in the take-home testing condition. Students in Group 2 (n=149) took Form B in class and Form A at home. Results indicate that carefully constructed objective tests designed to measure higher-order thinking can function effectively under take-home conditions. Test items in the three taxonomic classifications (based on the Taxonomy of Cognitive Objectives of B. Bloom, 1956) did not have differential impacts on the test in the two conditions. Most student-reported variables had no influence on test performance. The psychometric properties of a test can remain intact even when students have ample time and course materials available provided that higher-order thinking skills are being measured. Seven tables present study findings. (SLD)

\*Power (Statistics)

Most of the multivariate statistical techniques rely on the assumption of multivariate normality. The effects of non-normality on multivariate tests are assumed to be negligible when variance-covariance matrices and sample sizes are equal. Therefore, in practice, investigators do not usually attempt to remove non-normality. In this simulation study, the effects of non-normality on skewed multivariate data in terms of power were examined by manipulating the factors such as distribution, sample size, number of variables, and variance-covariance matrix. The number of replications was set to 500, and sample sizes of 10, 15, and 20 were used, with 2 sets of variables, and 2 variance-covariance matrices. The multivariate Box-Cox transformation was applied to remove non-normality. The power of multivariate analysis of variance (MANOVA) was then calculated after the transformation. The results were compared with the power calculated before the multivariate Box-Cox transformation was applied. In conclusion, even when variance-covariance matrices and sample sizes were equal, small to moderate increases in power were observed. (Author/SLD)

IDENTIFIERS- Carnegie Council on Adolescent Development; \*Youth Development Program; Youth Opportunity Program

In 1990, the Carnegie Council on Adolescent Development convened a Task Force to guide the work on a new Project on Youth Development and Community Programs. The major goals of this project are to expand the scope and availability of developmentally appropriate, community-based services for young adolescents, particularly those in high-risk environments. Two of the specific mandates of the project were related to the evaluation of youth programs. On January 15, 1991, a one-day consultation was held to assess the current challenges and successes of youth organizations as they work to evaluate their programs and to make recommendations for strengthening program evaluation efforts. This document contains: (1) a summary of the meeting; (2) a roster of the approximately 20 participants (Appendix A); (3) a summary of their written answers to questions (Appendix B); (4) a summary of the state of program evaluation within 19 selected national youth organizations (Appendix C); (5) summaries of 3 selected articles included in the briefing report preparing participants for the meeting (Appendix D); and (6) a bibliography of 22 sources on evaluation of youth development programs (Appendix E). \*Likert Scales; \*Needs Assessment; Principals; Problem Solving;  
Questionnaires; School Administration; Staff Development; \*Test  
Construction; Test Reliability

IDENTIFIERS- \*Discrepancy Measure

The development of a needs instrument designed to assess the continuing education needs of school administrators is described. The instrument was constructed to assess the administrators' continuing needs in: (1) principalship; (2) the school as a system; (3) problem solving; (4) staff development; (5) collaborative long-range planning; (6) short-term planning; and (7) personal awareness. Thirty-eight questions for the assessment were written using a standard domain sampling model, and the revised questions were made into a questionnaire using a Likert discrepancy model. Respondents rated statements on a five-point scale of perception of the degree to which the situation actually exists and perception of the extent to which it is desired to exist. The discrepancy between the two scale values is referred to as the need index. Content validity was established through factor analysis with a sample of 191 school administrators. Reliability measures indicate that the instrument can be used for group assessment. Items for the survey are listed, and two tables present the varimax rotated factor matrix for the two instrument columns (Contains 34 references.) (SLD)

IDENTIFIERS- \*Academic Misconduct; Academic Misconduct Survey

Researchers have often noted the desirability of investigating the incidence of academic misconduct of college students who will be in employment fields requiring a high level of competence and/or a high level of personal integrity, such as elementary school and secondary school teachers. The Academic Misconduct Survey (AMS) developed by Charlotte M. Ferrell (1992) was studied as a way of distinguishing groups of

validity, instruction versus accountability, time constraints and teacher resistance, and cost. Those who decide to explore performance assessments can benefit from the experience of those who have already worked in this area. A supplement lists 27 resources for those interested in performance assessment, as well as organizations active in the field and state contact people. (SLD)

Information; High School and Beyond (NCES); Integrated  
Postsecondary Education Data System; National Assessment of  
Educational Progress; \*National Center for Education  
Statistics; National Longitudinal Study High School Class 1972

This is the third periodic report on the programs and plans of the National Center for Education Statistics (NCES). The challenge facing the NCES is to collect and analyze data that track the growth and change in educational experience in the United States. Current programs toward this goal, future plans, and major publications of the NCES are described. In addition to updating the descriptions of traditional standard data collections, such as the Common Core of Data (CCD) and the Integrated Postsecondary Education Data System (IPEDS), this edition focuses on some of the NCES's new and innovative work. The availability of data sets, including the CCD and IPEDS databases, in electronic, machine readable format is highlighted. The work of the NCES is described in the following sections: (1) elementary and secondary education; (2) postsecondary education; (3) educational assessment; (4) national longitudinal studies; (5) vocational education; (6) library statistics program; and (7) annual publications. Each section describes the studies and surveys conducted in each respective area, with plans, selected publications, and the data collection calendar for work in the area. (SLD)

DESCRIPTORS- Academic Achievement; \*Academic Failure; \*Coping;  
Disadvantaged Youth; \*Educational Discrimination; Educationally  
Disadvantaged; Elementary Secondary Education; Equal Education;  
\*High Risk Students; \*Learning; Low Achievement; Outcomes of  
Education; Racial Discrimination; Sex Discrimination; \*Student  
Motivation; Student Reaction

Recognizing that all learning must on some level be voluntary,  
the author draws on his experiences as an educator to explore  
not-learning as distinct from failure. The refusal to learn can  
be a reaction to the conditions of schooling, which many  
learners, particularly those from poor and disadvantaged  
backgrounds, find irrelevant at best or actually inimical. Not-  
learning can be a defense, in fact, an intelligent defense,  
against school systems that represent a hostile society. Not-  
learning and unlearning are both central techniques that  
support changes of consciousness and help people develop  
positive ways of thinking and acting in opposition to dominant  
forms of oppression. Not-learning can represent a healthy  
response to racism, sexism, and other forms of bias. For many  
students, the only alternative to not-learning is confronting  
social, sexual, and economic oppression in the schools and in  
society. (SLD)

PUB TYPE- Reports - Evaluative/Feasibility (142)

DESCRIPTORS- \*Black History; \*Civil Rights; Course Content;  
\*Curriculum Development; Evaluation Methods; Grade 10; High  
Schools; \*High School Students; Human Relations; \*Racial  
Discrimination; Racial Relations; Secondary School Curriculum;  
Social Problems; Social Studies; United States History; Urban  
Areas

IDENTIFIERS- \*African Americans; \*Social Movements

A plan is presented for a curriculum that shows how African  
Americans have been left out of decision making, stereotyped  
negatively, and denied resources. The project is intended to be  
a base for future studies of human relations issues in order to  
understand how society operates. Using the contexts of the  
1960s and the 1990s, the power structures of American society  
are clarified. The curriculum is designed for a high school  
social studies classroom, typically a 10th grade studying U.S.  
history. Topics for the 9 days of study are: (1) racism; (2)

This report on the education of minorities results from policy research projects conducted at the Lyndon B. Johnson School of Public Affairs at Texas University (Austin) as part of the Quality Education for Minorities project to provide background research for development of a national action plan on improving the quality of education for Alaska native, American Indian, Black American, Mexican American, and Puerto Rican students. The following papers are presented as chapters: (1) "Education for Minorities and the National Interest" (R. Marshall); (2) "Parent-Child Interventions for Children Age Zero to Three: The Role of the States" (S. J. Means); (3) "Neither Equitable nor Excellent: The Effects of Tracking on Minority Students" (F. Mecca); (4) "Everyone Can Learn Math" (R. M. Nielsen); (5) "Mathematics and Science Education: Reclaiming Minorities at the Elementary School Level" (D. T. Garza); (6) "Assessment and Referral of Hispanic Bilingual Special Education Students: A Growing Controversy" (C. C. Talkington); (7) "Magnet Schools: A Quality Alternative" (E. Fonken); (8) "Magnet Schools for Disadvantaged Students in Texas" (J. Cano); (9) "Performance-Based Funding for Schools: A Practical and Feasible Alternative" (D. M. Marchick); (10) "Choice in Minnesota: Open Enrollment as a Means of Educational Reform" (J. S. Wicinski); (11) "Coordinating Social Services: The Role of Schools" (J. M. Ehrlich); (12) "The Potential Impact of Restructuring on the Education of Minorities: The Miami Experience" (B. Rungeling); (13) "The Use of High-School Vocational Counseling To Help Students Choose and Implement Career Choices" (S. L. Holland); (14) "Improving the School-to-Work Transition of Minority Youths" (R. W. Glover); and (15) "Effective Strategies for the Recruitment and Development of Black Faculty at Four-Year Institutions of Higher Education" (R. Pickering). One figure and 21 tables illustrate the essays. Contains 454 references. (SLD)

PUB TYPE- Reports - Descriptive (Program/Project Descriptions) (141)

DESCRIPTORS- Academic Achievement; Case Studies; Disadvantaged Youth; Dropout Prevention; Dropout Research; \*Dropouts; \*Educational Change; \*High Risk Students; High Schools; High School Students; Junior High Schools; Junior High School Students; Longitudinal Studies; Middle Schools; Outcomes of Education; Program Evaluation; Program Improvement; \*Secondary School Teachers; \*Urban Schools

IDENTIFIERS- Dropout Prevention Program; Middle School Students; \*New York City Board of Education; \*Reform Efforts

The story of the Dropout Prevention Initiative (DPI) of the New York City Schools illuminates the obstacles, incentives, and inventions that can come into play in a large city school system's effort to strengthen its effectiveness for at-risk students. The Board of Education commissioned an external evaluation of the DPI in 13 comprehensive high schools and 29 feeder middle schools. Data were collected through observation, interviews with staff, student and staff surveys, reviews of information provided by the Board of Education, and a longitudinal study of student outcomes for three cohorts of

education, with practical suggestions for achieving education that is multicultural throughout every facet of its structure and process. A step-by-step method is offered for developing a multicultural curriculum, and various teaching strategies and techniques applicable to classroom situations are discussed. These methods cover all content areas, including specific advice for art, language arts, mathematics, music, science, and social studies. The rationale for the necessity of multicultural education is also discussed. The book can be used as a textbook for undergraduate or graduate students as well as a reference for inservice teachers. Chapter 4 contains a practical model for preparing teachers to teach. (SLD)

PUB TYPE- Books (010), Reports - Evaluative/Feasibility (142)

DESCRIPTORS- Access to Education; \*Adolescents; Community Influence; \*Disadvantaged Youth; \*Economically Disadvantaged; Educational Practices; Education Work Relationship; Family Income; Grade Repetition; \*High Risk Students; Low Income Groups; Public Policy; Secondary Education; Secondary School Students; \*Social Problems; Urban Culture; Urban Schools; \*Urban Youth

By focusing on the settings and environments in which high-risk young people are living, this book fixes responsibility on society as a whole. High-risk settings do not just happen, but are the result of public policies and national choices. The Panel on High-Risk Youth of the National Research Council attempts to clarify forces tearing apart critical institutions in the lives of adolescents. Among the factors shaping the settings in which adolescents live, family income is perhaps the most critical. A severe decline in economic security is accompanied by an increase in single-parent households and reduced time parents can spend with children. The child welfare system and foster care are failing to provide a safety net. Neighborhoods are not the sources of support they should be, health systems and social services are not adequate, and traditional education practices contribute to high rates of failure for low-achieving students. Tracking and retaining students in grade, the historic means of addressing low achievement, are demonstrably not succeeding. School systems often compound the problems of students, and then the transition to work is not facilitated, and has not been supported, by adequate vocational education. The role of the juvenile justice system is also outlined. Suggestions are made for improving societal conditions and educational practices, and for improved social science and educational research. University of New Hampshire; University of Rhode Island;  
University of Vermont; University of Virginia

This paper reports on a follow-up study of teacher education program graduates that was conducted by a consortium of 11 universities to gain evidence of their students' performance, to determine the effectiveness of their programs, and to compare graduates of 4-year and 5-year teacher education programs. Two instruments were developed and distributed. The first, a survey, was completed by 1,390 graduates and included entry and retention data, self-reports of attitude toward teaching, preferred methods of teaching, and leadership behaviors; the second, a teacher effectiveness survey, provided principals' (N=481) evaluations of teaching performance. Results include: (1) graduates of extended programs enter teaching at significantly higher rates and show higher rates of retention than do graduates of 4-year programs; (2) great program variation exists among institutions; (3) there are outstanding programs of many types in teacher education; (4) certain institutions produce graduates who stand out in certain outcome areas; and (4) institutions can learn from each other how better to prepare teachers. (Contains 15 references.) (LL)

IDENTIFIERS- \*Integrated Services

This document reports on a symposium that was held to begin to shape a national policy on delivery of services to children at risk and their families, and to develop guidelines for future collaborative efforts between representatives from the health and education professional communities. The symposium explored innovative ways to integrate and enhance the delivery of services. The symposium was opened with a keynote address by former U.S. Surgeon General, Dr. C. Everett Koop, which charged that existing service delivery systems do not function in ways that cherish and provide for children and their families. Symposium participants cited social changes impacting on service providers, such as the rise of poverty, homelessness, teenage parents, and substance abuse. Efforts toward collaborative service delivery were viewed as resulting in greater cooperation but falling short of creating the attitudinal and systemic changes necessary. Issues in service provision include determining which children and families should be the focus of future efforts, expanding and replicating successful integrated service delivery approaches,

DESCRIPTORS- Biographies; \*Career Development; Elementary Education; Foreign Countries; Motivation; \*Professional Development; \*Self Concept; Self Evaluation (Individuals); Teacher Attitudes; Teacher Role; \*Teaching Experience

IDENTIFIERS- Belgium

The main aim of this project was to understand teachers' professional development by reconstructing their career experiences. The study examined the ways in which 10 experienced primary school teachers from 4 different Flemish schools experienced their careers, focusing on the personal perception and the subjective meaning of these experiences. Data were analyzed in two steps: (1) vertical analysis, which imposed a fixed structure to each teacher's data concerning formal career, professional biography, professional self, and subjective educational theory; and (2) horizontal analysis, which identified commonalities, differences, and patterns among the data from all respondents. The analysis examined teachers' self-image, self-esteem, job motivation, task perception, and future perspective. Recurring themes included teachers' perceived vulnerability and their need to cope with the limitations of their impact on pupils' results. The paper concludes that the study showed the usefulness of the biographical perspective for a better understanding of why teachers act the way they do. However, teachers' stimulated reflection on their career and personal development did not automatically change or improve their teaching practice. (Contains 51 references.) (JDD)

IDENTIFIERS- \*Blood Disorders; Hepatitis; Wisconsin

This document is intended to assist local school districts in complying with the Wisconsin Department of Industry, Labor and Human Relations (DILHR) Health and Safety Standard. Following an overview of the plan, the guide is organized into six chapters: (1) "Exposure Determination" discusses job classifications, tasks, and procedures; (2) "Methods of Compliance" concentrates on universal precautions, engineering and work practice controls, and personal protective equipment; (3) "Hepatitis B Vaccination" addresses employees who are or are not first aid providers; (4) "Post-Exposure Evaluation and Follow-up" covers exposure incident and medical follow-up, information for health care professionals, and follow-up

programs developed by school districts, boards of cooperative services, independent schools, and institutions of higher education. The Colorado Department of Education issues a one-year alternative certificate when an approved candidate is employed. The certificate enables the individual to be employed as a teacher and to participate in the school-based experience under the supervision of a master/mentor teacher, building principal, and representative of an approved institution of higher education. During the 1-year training and supervision program, the teacher completes 225 clock hours of professional preparation. Alternative teachers who complete the program are issued a standard general teacher certificate valid for 5 years and renewable. The report provides a framework for examining: program development; site-based training organizations; the 44 alternative teachers employed in approved alternative programs for the 1992-93 school year; and information concerning the program's operation for the 1992-93 school year. The document concludes with a discussion of concerns identified by the Colorado State Department of Education with respect to the program's future. (LL)

DESCRIPTORS- Bachelors Degrees; \*Beginning Teachers; \*College Graduates; \*Education Majors; Elementary Secondary Education; Graduate Surveys; Masters Degrees; National Surveys; Teacher Certification; \*Teacher Characteristics; \*Teacher Employment; Teacher Salaries; Teacher Supply and Demand; Teaching (Occupation)

IDENTIFIERS- \*New Teachers; Recent College Graduates Study 1987 (NCES); \*Recent College Graduates Study 1991 (NCES)

This report on the supply of newly qualified teachers (NQTs) is based primarily on data from the Recent College Graduates (RCG) study of 1991. The survey, which was originally designed to provide information on NQTs alone, was expanded to cover graduates in all major fields of study; however, it continues to emphasize graduates qualified to teach at the elementary or secondary school level. It focuses on the number, characteristics, and teaching status of NQTs who were defined as college graduates receiving a bachelor's or master's degree between July 1, 1989, and June 30, 1990; who became eligible or certified to teach during that same period; and who had not been employed as teachers before receiving their degree. The number of NQTs who graduated from the nation's colleges and universities increased from 126,200 in 1986 to 140,500; the number at the master's level decreased by 1,000. Of the NQTs in 1991, 71 percent were female. Among NQTs, about 50 percent had a grade point average of 3.25 or above, compared to 42 percent of other bachelor's degree recipients. Fifty-nine percent of the NQTs had majored in education, about the same as the percentage in 1987 (57 percent). One year after graduation, 91 percent of the NQTs were employed, 73 percent full-time. The average annual salary for NQTs who were employed full time was

order factor models on cognitive abilities and their invariance across male and female samples. Subjects were a stratified random sample of 234 male and 225 female 15-year-old students in Singapore attending Secondary 3 (the equivalent of grade 9). Four first-order factors were found underlying the 23 subtest scores of 2 group intelligence tests, the AH(sub 4) Test of Intelligence and the Advanced Progressive Matrices, and 2 group Piagetian tests, Science Reasoning Tasks and the Arlin Test of Formal Reasoning. Slight differences found in the formal operations, spatial, numerical, and verbal factors of the male and female groups suggest some gender-related differences in these factors. There were two alternative second-order general factor models for the male group, one with three first-order factors and the other with four first-order factors. Only a general factor model with three first-order factors could fit the data of the female sample. This female group model contains some differences in the loading of the formal operations and spatial factors, when compared with that of the male group. Eight tables present study findings. DESCRIPTORS- Educational Practices; \*Educational Research; Educational Theories; Elementary Secondary Education; \*Home Schooling; Models; Nontraditional Education; Parents as Teachers; Private Education; Religious Cultural Groups; Research Design; \*Researchers; \*Research Methodology; Research Problems; Surveys; Theory Practice Relationship

A set of concerns related to home education that is infrequently studied, namely, the content and direction of research in education, is examined. Issues surrounding home education have not been given adequate attention. A sample of home education researchers was gathered by compiling a list of authors who had published in the "Home School Researcher." Nineteen of 23 surveyed authors responded with information about themselves and their research. Survey responses indicate that research on home education is being conducted by a fairly diverse group of researchers, most of whom are in education-related occupations. About half of the researchers had not engaged in home education themselves. Much of the research on home education appears to be descriptive rather than experimental or quasi-experimental. No framework exists to unite the efforts of home education researchers. Nearly half of the researchers indicated that they did not maintain an interest in home education research, but those who did suggested several directions for the field. Broad findings demonstrate that researchers in the area can benefit from a critical analysis of practice, models, and perspective. Two tables summarize characteristics of home education researchers and methodology and sampling characteristics. (SLD)

DESCRIPTORS- Case Studies; Concept Formation; \*Educational Assessment; Educational Change; \*Evaluation Methods; Job Skills; \*Job Training; Military Personnel; \*Military Training; Models; \*Needs Assessment; Performance; Relevance (Education); Young Adults

IDENTIFIERS- \*Training Needs

A critical linkage in training systems is the translation of training evaluation information for reassessing training needs and for making training program changes. This paper presents the development of a conceptual framework for examining the job relevancy and efficiency of training and the linkage for this evaluative information to training needs reassessment. How to integrate job performance information into the existing training evaluation system for identifying over- and undertrained tasks is also described. The Aerospace Ground Equipment (AGE) (AFS423X5) Technical Training Program is used as a case analysis for this report. Recommendations for future research to identify the content domain of an Airman Basic-in-Residence (ABR) Training program and to integrate performance information into the evaluation system are presented. Intelligent Tutoring Systems: A Taxonomy of Evaluation Issues.

Interim Technical Paper for Period August 1988-December 1989.

PUB DATE- May 90

NOTE- 20p.

LANGUAGE- English

EDRS Price- MF01/PC01 Plus Postage.

PUB TYPE- Reports - Evaluative/Feasibility (142)

DESCRIPTORS- \*Classification; \*Cost Effectiveness; \*Evaluation Methods; \*Experiments; Field Tests; Measurement Techniques; Military Training; Research Design; \*Research Methodology

IDENTIFIERS- \*Intelligent Tutoring Systems; Life Cycle System Management Model

This paper posits a taxonomy for categorizing issues that arise in the evaluation of Intelligent Tutoring Systems (ITSs). The taxonomy has three dimensions: Life Cycle of Evaluation, Research Issues, and Methodological Issues. The Life Cycle dimension has four levels: pre-experimental, laboratory study, field study, and initial operational test and evaluation. The three levels of the Research Issues dimension--functionality, effectiveness, and cost--are subsequently further divided into several sublevels. The Methodological Issues dimension is discussed in the context of each of the Research Issues levels. A recommendation from this work is that ITS evaluation studies should adopt multi-dimensional, multi-method designs. (Author)

graduate education students relative to their propensity for various forms of misconduct (including cheating on tests and assignments, use of illegal resources, quasi-misconduct, subtle manipulation, and bold manipulation). Forty-one graduate students in master's and doctoral degree programs at a southern university completed the instrument. Separate principal components Q-technique factor analytic procedures were conducted with data from master's (n=20) and doctoral (n=21) cohorts. These analyses indicate that subjects' responses to the AMS items serve as an effective means of distinguishing clusters of individuals relative to the academic misconduct constructs measured by the instrument. Person factors that emerged share many of the same characteristics. Findings confirm those of Ferrell (1992) using a different data collection technique and item stem. Appendix A lists the factors and Appendix B is the data sheet. Five tables present study findings. (Contains 50 references.) (SLD)

Students; Limited English Speaking; \*Longitudinal Studies;  
National Surveys; Research Methodology; \*Research Problems;  
Sample Size; \*Sampling; \*Test Bias

IDENTIFIERS- \*National Education Longitudinal Study 1988

Sample undercoverage issues in the National Education  
Longitudinal Study of 1988 (NELS:88) are addressed. The main  
focus is the exclusion of certain categories of student in the  
base year, 1988, and in in-school follow-up rounds. A  
subsidiary focus is the question of how adequately transfer  
students were captured within the sampling procedures of the  
study. Recommendations are offered for how better to deal with  
undercoverage issues in future school-based longitudinal  
studies. The six ways in which a student might not have been  
selected were: (1) refusal by the school to participate; (2)  
ineligibility of the school; (3) ineligibility of the student,  
for language, disability, behavioral problems, or lack of  
English; (4) absence from the school due to study elsewhere;  
(5) temporary unavailability due to illness or transition; (6)  
clerical error; and (7) inadequate sampling frame that omitted  
a school. The exclusion of students is referred to as a  
problem, but including everyone would have been more of a  
problem. Ways to increase the rate of meaningful participation  
in the future are discussed. The experience of NELS:88 suggests  
that more students have been excluded than is justified. Two  
tables provide study data. (Contains 28 references.) (SLD)

Students; Middle Schools; \*Outcomes of Education; Program Evaluation; Public Schools; School Districts; Standardized Tests; Student Characteristics; Test Results  
IDENTIFIERS- \*Middle School Students; \*New Orleans Public Schools LA; Overage Students

The status of middle grade students (grades 6, 7, and 8) was studied in the New Orleans (Louisiana) public schools. The district is faced with major challenges in addressing the overall needs of middle grade students and the impact of early retention in grade that has resulted in several overage students. Most sixth graders are in elementary school, but most seventh and eighth graders attend junior high schools or senior high schools. About 17 percent of the district's students left the system after attending the sixth grade, most at the elementary school level. Suspensions and absenteeism were higher for this age group. The current grade configurations and nomenclature for types of schools serving middle grade students are confusing and should be modified to align with appropriate educational and support programs. Overage students are casualties of the practice of retention and are more likely to drop out than those never retained. This issue must be addressed in the middle grades. In addition, the district must consider why high-risk and low-risk students differ by such a large magnitude on standardized test results and to ensure that access and opportunities are equal. Thirteen tables and seven figures present study findings. Appendix A list schools with middle-grade configurations, and Appendix B contains six figures of student characteristics and achievement. IDENTIFIERS- Education Consolidation Improvement Act Chapter 1

Core school enrollment and staffing data are presented from the historical file of the National Catholic Education Association. Data are also presented for Chapter 1 services, extended care programs, and coeducational and single-sex schools. The first part of the report presents a summary of demographic trends with an impact on public and private education. Information is based on reports submitted by 174 diocesan and archdiocesan offices of education or state Catholic conferences. Trends show increasing numbers of students at the preschool and elementary school levels, with an increase in Catholic preschool enrollment of nearly 300 percent in the last decade. In 1992-93, there were 8,423 Catholic schools, 7,174 of which were elementary schools. The total number of Catholic students had increased by 16,767 since the preceding year, to 2,567,630. Numbers and percentages of minority students reflect population

institutional racism (2 days); (3) discrimination; (4) African Americans; (5) continued oppression and prejudice today (2 days); (6) color consciousness and discrimination; and (7) dealing with racism. Eighteen attachments, including overheads, a questionnaire, a test, and handouts, are included. (SLD)

Demography; Elementary Secondary Education; Ethnic Groups;

Higher Education; \*Immigrants; \*Multicultural Education;

\*Pacific Americans; Population Growth; Population Trends;

Program Development; \*Public Policy; Racial Composition

Nineteen chapters consider major public policy implications for

demographic projections of the Asian Pacific American population to the year 2020. A preface by D. T. Nakanishi and J. D. Hokoyama introduces the studies. Policy recommendations from the Asian American Public Policy Institute follow, recommending multiculturalism and intracultural sensitivity, extending civil rights concepts to Asian Americans, and expanding programs for Asian immigrants. The following essays are included: (1) "An Overview of Asian Pacific American Futures: Shifting Paradigms" (S. Hune); (2) "The Growth of the Asian Pacific American Population: Twenty Million in 2020" (P. Ong); (3) "Exclusion or Contribution? Education K-12 Policy" (P. N. Kiang and V. W.-F. Lee); (4) "Trends in Admissions for Asian Americans in Colleges and Universities: Higher Education Policy" (L. L.-C. Wang); (5) "Health Care Needs and Service Delivery for Asian and Pacific Islander Americans: Health Policy" (T. Guillermo); (6) "The Changing Asian American Population: Mental Health Policy" (S. Sue); (7) "Asian American Arts in the Year 2020: Arts Policy" (G. D. Yoshitomi); (8) "Is There a Future for Our Past? Cultural Preservation Policy" (F. S. Odo); (9) "Making and Remaking Asian Pacific America: Immigration Policy" (B. O. Hing); (10) "Work Issues Facing Asian Pacific Americans: Labor Policy" (P. Ong and S. J. Hee); (11) "Legal and Civil Rights Issues in 2020: Civil Rights Policy" (W. R. Tamayo); (12) "The Case of the Southeast Asian Refugees: Policy for a Community At-Risk" (N. Le); (13) "Empowering Our Communities: Political Policy" (S. Kwok and M. Hui); (14) "Out of the Melting Pot and into the Fire" (M. Omi); (15) "Asian Pacific Islanders and the Glass Ceiling--New Era of Civil Rights Activism? Affirmative Action Policy" (H. Der); (16) "Language Rights Issues to the Year 2020 and Beyond: Language Rights Policy" (K. K. Imahara); (17) "Meditations on the Year 2020: Policy for Women" (E. H. Kim); (18) "Will the Real Asian Pacific American Please Stand Up? Media Policy" (D. Y.-M. Wong); and (19) "South Asians in the United States with a Focus on Asian Indians: Policy on New Communities" (S. Mazumdar). An appendix lists specific policy recommendations. (SLD)

SPONS. AGENCY- Robert Wood Johnson Foundation, New Brunswick, N.J.

students. In each year of the DPI, tens of thousands of services to targeted students were recorded. In addition, specific programs under the umbrella of the DPI were reviewed, and detailed case studies were made of three high schools and one elementary and one middle school. The progress observed in these schools is a solid basis for believing that the school system is improving its response to at-risk students and bringing new resources to the schools. Nevertheless, several problems with the DPI program and the school system were identified, and are the subject of recommendations for program improvement. The serious effort that the Board of Education has made is unparalleled in its recent history. The system is engaged in much-needed reforms. A technical note considers the calculation of the city's dropout rate. (SLD)

DESCRIPTORS- Ability; Class Size; Course Selection (Students);

\*Disadvantaged Youth; Educational Practices; \*High Risk Students; High Schools; High School Students; Low Achievement; Needs Assessment; \*Scheduling; \*Student Motivation; Student Needs; Student Placement; Time Management; \*Urban Schools

By studying the process by which disadvantaged and low-achieving high school students are assigned to classes and special programs, how and why disadvantaged students are placed in inappropriate programs can be understood. Reasons exist to question the assumption that students are assigned to programs rationally on the basis of information about abilities, performance, and interests. Ideal characteristics of scheduling processes were identified based on the literature, and compared with practices in four urban high schools. Multiple methods of data collection, including interviews, reviews of school records, and observations of events related to scheduling, were used. Findings from the four schools indicate the degree to which each conforms or deviates from the following ideals of assignment: (1) appropriate for ability level; (2) class size appropriate for the type of instruction; (3) courses that fill graduation and college admission or employment requirements; (4) times that students are likely to attend; (5) effective teachers; (6) course assignments made before the beginning of the term; and (7) programs match student interests and needs. Recommendations for improvement of the assignment process are made. Thirty-six figures illustrate the discussion. Three appendixes contain interview questions, the interview format, and a course change form. (SLD)

IDENTIFIERS- \*Accelerated Schools; Middle School Students; Teacher Empowerment

The Accelerated Schools Project has the overall purpose of creating the best schools for all children so that every child has the opportunity to become a creative, critical, and productive member of society. The project represents a philosophy and a process for transforming conventional schools into accelerated ones where powerful learning experiences are daily occurrences for all members of the school community. The three central principles of accelerated schools are: unity of purpose through active collaboration of parents, teachers, students, staff, and community; empowerment through responsibility; and building on strengths. The Accelerated Schools Project staff develops, refines, and transmits the model to school practitioners who actually use the model to transform school communities. The concept of "big wheels" and "little wheels" interacting has helped participants in the Accelerated Schools Project make sense of the changes occurring in accelerating school sites. The "big wheels" are the formal, explicit components of the state-of-the-art accelerated schools model that are bought into by all participants. For school communities, involve engaging collaboratively in bringing the model to life. The "little wheels", on the other hand, are the spin-offs of the public and collaborative big wheel experiences; they are the informal innovations that individuals and small groups initiate as a result of participating in big wheel activities. Two case studies from an inner-city middle school demonstrate the interactions of the big and little wheels in the areas of family involvement and instruction. These case studies illustrate that all components of the accelerated schools model have the potential to spin off little wheels and that design and implementation are necessarily integrated. (SLD)

\*Course Content; Curriculum; Educational Objectives; \*Health Education; Incidence; Prevention; Program Effectiveness;

\*Residential Institutions; Secondary Education; State Surveys

IDENTIFIERS- \*Colorado

This report summarizes information about the nature and extent of HIV (Human Immunodeficiency Virus) prevention and health education being implemented in Colorado's youth-serving facilities, based on a mail survey of facilities serving youth in out-of-home placement. Forty-three of 78 facilities identified as serving youth age 12 and above responded to the survey. Of the 43 facilities, 40 reported providing some type of HIV education to a portion of youth during their stay in the facility. The percentage of youth receiving HIV education ranged from 20 percent to 100 percent, with a weighted average among facilities of 56.3 percent. A table shows the percentage of facilities addressing specific health education topics, using specialized curricula, and providing skills-building practice in such areas as alcohol and other drug use, sexual behaviors, and emotional and mental health. A second table lists barriers that educators identified in providing health education, such as lack of adequate textbooks, lack of money, lack of audiovisual resources, and lack of staff training opportunities. Survey results suggest progress toward program objectives, but do not ensure that Colorado youth in out-of-home placement are participating in instruction that is effective in assisting them to adopt healthy behaviors and avoid preventable health and social problems. IDENTIFIERS- \*Reform Efforts

In the spirit of education reform, American education is challenged as never before to meet higher standards of teaching and learning. In order to respond to these challenges, the Office of Educational Research and Improvement convened a study group representing a cross section of individuals and organizations interested in the education of teachers. Ideas and recommendations discussed by the study group centered around six issues: (1) the kind of teaching needed to achieve world class standards; (2) problems in educating teachers for world class standards; (3) teacher education issues specific to core subject areas; (4) needed changes in policies and practices in educating teachers; (5) the potential of current reforms to facilitate needed changes; and (6) recommendations for educating teachers for world class standards. This report includes the following presentations: "What Kind of Teaching Do We Need for World Class Standards?" "What Problems Must be Solved in Educating Teachers for World Class Standards?" "How Will Changes in the Core Subject Areas Affect the Education of Teachers?" "What Changes Are Needed in Policies and Practices That Affect the Education of Teachers?" and "Will Current Reforms Contribute to the Changes Needed?" Two appendices provide a meeting agenda and a list of speakers and participants. (LL)

\*Performance; \*Predictive Measurement; Regression (Statistics);  
\*Responses; Scores; Self Concept; Student Interests; Student  
Reaction; Test Use; \*Undergraduate Students

IDENTIFIERS- Variance (Statistical)

The model of feedback processing proposed by R. W. Kulhavy and W.  
A. Stock (1989) was studied in a traditional classroom setting  
in which methods of assessing students' response confidence as  
predictors of postfeedback performance were also examined. The  
relationship between confidence ratings at the time of the test  
and confidence assessed prior to delayed feedback was explored.  
Subjects were 6 male and 21 female undergraduates assigned to  
confidence or interest conditions who rated their confidence in  
responses or interest in each questions. Data for 25 students  
were used. Students were asked to predict their scores,  
received feedback, and completed the examination again. An  
analysis of variance compared the performance of the confidence  
and interest groups, and regression and correlation analyses  
explored the predictability of postfeedback performance. There  
were no significant differences between postfeedback  
performance of the interest and confidence groups. Increase in  
elaborative processing due to students' rating their confidence  
does not appear to affect postfeedback performance any more  
than does rating the interest level. Results indicate that the  
Kulhavy and Stock model can be applied to the classroom. Use of  
students' estimates of test scores is not recommended as a  
measure of response confidence, as it accounted for very little  
variance in postfeedback performance. Implications for  
prediction of students' feeling-of-knowing are explored. (SLD)

The National Education Longitudinal Study of 1988 (NELS:88) is the first nationally representative longitudinal sample of eighth-grade students in public and private schools. Data provide measures of student performance and allow for the examination of attitudes and activities of eighth graders as they pass through the education system. Overall, 53 percent had none of the six commonly used risk factors, while 20 percent had two or more. A majority had high educational aspirations, but many were not planning to enter high school programs that would lead them to realize their goals. More than two-thirds reported positive feelings about school. Nineteen percent overall and 30 percent of Hispanic, Black, and American Indian students were not proficient in basic mathematics skills for everyday tasks. Fourteen percent of all eighth graders and about 30 percent of students who usually speak a language other than English were not able to perform basic reading tasks. About 18 percent of the students had repeated at least 1 grade. Typical students reported spending four times as many hours each week watching television as they spent doing homework. NELS:88 data will be used for many years to analyze important issues in American education. Follow-ups began in 1990 and will continue at 2-year intervals. (SLD)

IDENTIFIERS- \*Experience Sampling Method; Self Report Measures

An often ignored aspect of the study of motivation is the experience of motivation, how it feels to learn. Researchers and practitioners have been clear about the importance of subjective experience to motivation, but have paid little attention to measuring the experience of motivation, possibly because it is so hard to measure. The Experience Sampling Method (ESM) developed by M. Csikszentmihalyi, R. Larsen, and S. Prescott (1977) is suggested as a way to study the experience of motivation. The ESM uses electronic pagers to signal participants in a study to prompt them to fill out a self-report form about the quality of their experience at that moment. Among the advantages of the ESM is that it gathers information about behavior at the same time as it gathers information about the inward stream of experience. It is still, however, a reconstruction of experience, because the pager interrupts the very stream of experience one is hoping to measure. Despite its shortcomings, it is still one of the few methods that can disclose the ongoing experiences of students in natural school settings. Some research applications for the ESM are outlined. IDENTIFIERS- Educational Indicators; \*Lethbridge School District  
AB; Teacher Empowerment

The Lethbridge School District Number 51 Project attempted to develop a more effective model for system, school, and program evaluation in the Lethbridge, Alberta (Canada) schools. A literature review suggested that a collaborative model would be effective and would result in empowerment of school-based personnel through active involvement. The use of educational quality indicators served as a key component in development of the model. Current literature and input from committees and stakeholder groups were used to develop criteria in terms of indicators of effectiveness, quality, and improvement. Findings from the initial study were applied to the development of an evaluation of the arts and library programs with responses from 3,329 teachers, parents, and students for the art program; and 2,858 teachers, parents, and students for library programs. The final project stage focused on the art program and resulted in the identification of input, process, and outcome indicators of program effectiveness. Assessment processes to measure and verify outcomes were identified or developed, and a generic model was developed that could be applied to most program areas. The developed model is considered more effective than the former evaluation model used. Two tables and three figures illustrate the discussion. Five appendixes discuss the project teams and contain questionnaires and instruments used in the surveys. (SLD)

IDENTIFIERS- African Americans; \*Hip Hop Generation; Rap Music

Effective communications strategies for delivering substance abuse and other prosocial behavior messages to African American inner city teenagers were studied. After pilot studies, the final sample consisted of middle school and high school students from the urban centers of New York City; Washington, D.C.; Camden (New Jersey); Philadelphia (Pennsylvania); and East Oakland (California). A total of 295 students participated in the focus group study, and surveys were completed by 387 students in several urban areas. It was found that the messages of the mainstream are generally reaching the wrong audience with the wrong information, because they are not really speaking to the urban African American adolescent. Rather than being homogeneous, street culture dissolves into a series of overlapping subcultures. Decisions about drugs and behavior are made very early. An analysis of the hip hop culture, including rap and other music forms, shows that these forms are not well-suited for conventional long-term public service message campaigns. An effective strategy for reaching this audience simply does not yet exist. It is recommended that a symposium of leading African American communicators, music producers, movie makers, and public health experts convene to seek a way to speak effectively to this population. The questionnaire and its responses are included with the report. (SLD)

IDENTIFIERS- California (San Francisco); San Francisco Unified School District CA

The primary goal of the Schools Partnership Project (SPP) was to investigate whether the emotional and academic well-being of children could be improved by providing mental health consultation services to public school personnel. Licensed clinical social workers were placed at school sites to work collegially with teachers and administrators to identify the problems of stressed children and their families, to improve school personnel's ability to deal with problems, and to learn how to make effective referrals and interventions. Two licensed social workers provided mental health consultation 1 day a week for 2 years and 3 months each at 6 diverse San Francisco

IDENTIFIERS- \*Texas

State legislation requires that the Texas Education Agency write a plan to reduce the state's cross-sectional and longitudinal dropout rates to no more than 5 percent by 1997-98. This report presents the current plan, with current aggregate and disaggregate data on the dropout rate of students in grades 7 through 12 and projections for cross-sectional and longitudinal dropout rates for the next 5 years. A progress report is presented for the recommendations from the 1991 state plan in the following categories: (1) continued action by the Texas Education Agency; (2) actions without fiscal implications; (3) actions with immediate fiscal implications; and (4) recommendations with long-term fiscal implications. Since publication of the plan in 1991, the number of dropouts has consistently declined, from 91,307 in 1987-88, to 53,421 in 1991-92. Students still tend to drop out in the ninth grade, and ethnic minority students still drop out in disproportionate numbers, but combating these facts is a major agency focus. Twenty recommendations to further reduce the dropout rate are included. Five tables summarize dropout information. A list of 70 references is included, and dropout data are presented in Appendix I (15 tables), with an overview of recommendations and a survey of immigrant students in Appendixes II and III. (SLD)

IDENTIFIERS- \*Columbus Public Schools OH; Education Consolidation Improvement Act Chapter 1; Final Reports

The Neglected or Delinquent (N or D) Program of the Columbus (Ohio) public schools is designed to provide classroom and tutorial services in the area of language development for pupils served in Chapter 1 eligible facilities for the neglected or delinquent. In the 1991-92 school year, there was one full-time N or D teacher and 16 part-time tutors providing services in 12 institutions. Standardized test information for grades 2 through 12 was collected from September 1991 through April 1992. The data included results of norm-referenced tests, the Metropolitan Achievement Test, the Comprehensive Tests of Basic Skills, and the California Achievement Tests. The program served a total of 371 students, most of whom were in grades 6

Survey data were collected from a random sample of 120 high school freshmen and were used to compute 4 variables for each student: (1) presence of the mother in the home; (2) presence of the father in the home; (3) presence of other adults in the home; and (4) presence of other children in the home. The familial configurations of subjects were extended maternal (n=7), nuclear family (n=26), mother with children (n=46), orphaned (n=13), only child (n=21), and adopted (n=7). Family constellation, determined by cluster analysis, and gender served as independent variables in a general linear model used to assess student attendance at school and grade point average. Results indicate that the educational performance of males and females differs with respect to the types of familial configurations in which they find themselves. Females appear to perform most poorly in family units characterized by mother's presence and father's absence, but males perform best in groups where the mother and/or maternal relations were present. Contrary to expectations, males in this group of students perform best when the father is absent from the family configuration. This ethnographic approach appears promising for revising familial configuration effects within heterogeneous and transient populations. Two tables present study data. (SLD)

IDENTIFIERS- African Americans; \*Cleveland Public Schools OH

The social and educational status of children from homeless families was studied in four cohorts of Cleveland (Ohio) public school students who requested transportation from homeless shelters for the school years from 1987-88 to 1990-91. Total cohort size ranged from the 1987-88 high of 39 students to the 1990-91 low of 22 students, with 36 students in 1988-89 and 28 students in 1989-90. In the second through fourth cohorts there was a higher percentage of African American students than the 69 percent typical of the school district. The great majority of students in all cohorts were elementary school students, and almost all received free or reduced price meals. Between 7 and 13 percent withdrew in each cohort year, but few actually dropped out of school. The suspension rate for all cohorts was relatively low, but over half transferred at least once during the year of homelessness. Overall results suggest that the experience of homelessness is not as detrimental to the educational experience as had been hypothesized, although the experience appears more detrimental for secondary school students. Cohort students did not evidence particular behavioral problems. Support and special programs appeared influential in keeping homeless students in school.

As part of a larger research program on learning to teach, this paper reviews 15 empirical studies that followed students through one or more components of their student teaching program. The review focused on teacher development, constructivism (which ascertains how initial experiences in teacher education interact with the preconceptions held by prospective teachers), and knowledge utilization. The review found much variation in the usefulness of the research in informing the practices of researchers and of teacher educators. No consistent message was found with regard to the effects of different facets of programs on the work of beginning teachers. Where constructivist teacher education programs were the subject of study, generally positive claims were made about results, but in other cases, student teaching experiences were so devastating that little learning seemed to take place. A positive feature of the research studies was the fact that the research was being conducted by individuals working in programs of teacher education rather than by researchers twice removed from study subjects. (Contains 34 references.) (JDB)

Content; Curriculum; Educational Objectives; \*Health Education; Incidence; Integrated Curriculum; Prevention; Program Effectiveness; Research Needs; School Surveys; Secondary Education; State Surveys

IDENTIFIERS- \*Colorado

This report summarizes and interprets the results of the 1992 Colorado School Health Education Survey, which targets public secondary schools with grades 7 through 12. Results provide a basic sketch of the extent of HIV (Human Immunodeficiency Virus) prevention and health education being implemented in Colorado's secondary schools. The survey, mailed to a random sample of 288 of Colorado's secondary schools, resulted in 246 respondents. Figures display the numbers and percentages of schools providing HIV education, the numbers and percentages of students receiving HIV education, and the numbers and percentages of schools integrating HIV education into comprehensive health education. Results indicate that many of Colorado's secondary schools provide some kind of HIV prevention education in at least one grade. Between one-half and two-thirds of schools provide some kind of comprehensive health education and HIV prevention education for students in at least one of the grades 7 through 10. Evidence of progress toward program objectives is presented, and suggestions for future school health education surveys are discussed. (JDD)

IDENTIFIERS- Alternative Assessment

This paper presents six chapters that describe how statewide reading assessment is currently being performed and how the data are being used. The validity of statewide reading assessment instruments and the appropriate uses of statewide reading assessment data are explored. Several chapters discuss new ways in which some states conduct reading assessment, while others suggest alternative and complementary forms of reading assessment. The range of issues is intended to help in the assessment of relative strengths and weaknesses of current statewide reading practice and consider future directions in reading assessment. The following six chapters are provided: (1) "The Call for Assessment of Reading at the Statewide Level" (Peter Afflerbach); (2) "Developing a Statewide Reading Assessment Program" (Linda Hansche); (3) "Issues in Early Childhood Assessment" (William H. Teale); (4) "The Role of Teacher-Based Information in Statewide Assessments of Literacy Learning" (Elfrieda H. Hiebert); (5) "National Survey of the Use of Test Data for Educational Decision Making" (Sheila W. Valencia); and (6) "Statewide Reading Assessment: A Survey of the States" (Peter Afflerbach). Charts for each of the 50 states are included. (SLD)

S. Bloom's article titled "Learning for Mastery." With approximately 2,000 master learning/testing citations in the ERIC data base alone, Bloom's 1968 piece is indeed one of the most generative works to appear in the educational psychology literature in decades. At this quarter-century juncture, then, it is appropriate to reflect retrospectively and prospectively on the meaning, impact, and continuing possibilities of Bloom's learning for mastery. In so doing, this paper focuses on what could be termed the "internationalization" of mastery learning. Evidence of mastery learning research and development initiatives in well over 30 nations does indeed invite not only an analysis of what has already transpired in the worldwide community but also a projection of future directions for mastery learning in the international arena. (Contains 119 references.) (Author)

age groups' reports of study activities indicated a developmental trend for increasing differentiation of lower-level (rote) strategies and higher-level (meaning-based) strategies emerging with such differentiation in the junior high school years. Two tables present study findings. An appendix contains the questionnaire items used to measure metacognitions. (SLD)

IDENTIFIERS- Assessment Literacy; Open Ended Questions; Standard Setting

The American Association of School Administrators, the National Association of Elementary School Principals, the National Association of Secondary School Principals, and the National Council on Measurement in Education are cooperating on a project to develop competency standards for educational administrators in the area of student assessment. A national survey of educational administrators was conducted as part of this effort to determine the frequency and importance of student assessment tasks that they perform and their self-perceptions of the level of knowledge and skills they have and need in various assessment areas. In the first stage of the survey, a small number of administrators responded to an open-ended questionnaire to identify assessment-related tasks and the skills and knowledge associated with them. A target sample was chosen from each cooperating organization, and responses were received from almost 1,700 administrators. Different categories of administrators have different assessment responsibilities, but every task was performed at least once by a modest percentage from each organization. Overall, the skills and knowledge needed for these administrators were very similar, in spite of the differing levels of task emphasis. Nine tables present survey results, including rating the skills and knowledge requirements by their importance. (SLD)

arts. Results show that extracurriculars are the most likely school activities to engage teenagers fully; they combined feelings of spontaneous involvement with a focus on important goals, and perceptions of high skill with correspondingly high challenges. In contrast, the two most common school activities--productive work and socializing--disjoined and polarized these important dimensions of experience. Findings are discussed in terms of the important role extracurricular activities may play in cultivating habits of undivided attention in adolescents, and the current trend in public education to eliminate such after-school programs. One table and two figures illustrate the study findings. (SLD)

Comparative Testing; Feedback; Higher Education; Knowledge  
Level; \*Measurement Techniques; \*Observation; \*Peer Teaching;  
Training; \*Tutoring

IDENTIFIERS- Obtrusive Measures; Self Report Measures;  
\*Unobtrusive Measures

This study compared obtrusive observers and self-reports to a criterion, unobtrusive observers, to assess how accurately they measured tutor performance. Unobtrusive observers were used as a criterion for comparison because it was assumed that their measures were free of biases. Participants were 55 college-level peer tutors. Course sections were randomly assigned to one of four groups: (1) obtrusive observer and self-reports; (2) self-reports only; (3) obtrusive observer only; and (4) control (no obtrusive observer and no self-reports). All groups contained an unobtrusive observer. Tutors received training in tutoring skills and used those skills in a Personalized System of Instruction classroom to provide feedback to students. Tutors' skills were assessed before and after training. Obtrusive observers accurately assessed tutor performance, but self-reports were only accurate after training occurred. The self-report only group showed the least improvement on a test of written skills. No condition affected the amount of knowledge of course material. Six tables and six figures present study findings. Five appendixes contain the instruments used in the study. (Author)

IDENTIFIERS- \*Alberta Achievement Testing Programs; Standard  
Setting

The 1992 achievement tests for the Alberta (Canada) public schools show what students in grades 3, 6, and 9 can do in social studies, language arts, and mathematics, respectively. Results are reported in terms of curriculum standards, achievement standards, and assessment standards. In June 1992, there were 41,696 students in grade 3, 37,837 in grade 6, and 34,386 in grade 9. Of the total population, 97,315 took achievement tests in mathematics, social studies, and English or French language arts. Results indicate mixed achievement. In Grade 3 social studies, about 84 percent of the students achieved the acceptable standard, and a significant percentage achieved excellence. A smaller percentage achieved these standards in grade 6 language arts and grade 9 mathematics. Results in mathematics were disappointing, especially in problem solving, where about 64 percent achieved the acceptable standard. Achievement-over-time data indicate improvements in grade 3 social studies and grade 9 mathematics compared with 1984. In French, close to the expected numbers achieved the standards. Twenty-one figures and 59 tables present achievement data. Appendix A outlines the standard setting processes. Appendix B describes the public review of standards. Appendix C gives interpretation guidelines. Appendix D answers common parent questions about testing. Appendix E outlines test development. The study questionnaire is included. (SLD)

(California) public elementary schools. Evaluation through a quasiexperimental design demonstrated a positive impact of the mental health consultation for teachers and students. Many users of consultation services reported an increased sense of responsibility for children's learning, with increased internal locus of control, and many teachers reported increased knowledge and professional capability. Results indicate that children's self-expectations and academic achievement are related to teacher use of consultation, and that the SPP is a promising approach to improving achievement and student self-expectation. One table illustrates teacher demographics. Contains 74 references. (SLD)

IDENTIFIERS- \*Project Follow Through

The use of classroom observation is explored in several capacities. Specific observation instruments that were developed to evaluate the effectiveness of the National Follow Through Program were later used (sometimes in adapted forms) to study early childhood programs, secondary school programs, student teacher effectiveness; and use of time across a school district. Project Follow Through was intended to provide a program analogous to Head Start for economically disadvantaged children over a longer period of time. This chapter presents the fourth and most comprehensive report of Follow Through classroom observation data collected in spring 1973 from 36 sites representing 7 sponsors and 7 program models (35 first grades and 36 third grades). Other studies using the developed Classroom Observation Instrument (COI) in the following are briefly outlined: (1) early childhood education; (2) English as a Second Language; (3) secondary school; (4) staff development; (5) effective use of time training; (6) student evaluation; and (7) student teaching. The observation techniques have provided a means to identify effective instructional practices in a wide range of classroom settings. Two tables and one figure illustrate the discussion. (SLD)

through 12. Of these, 144 were non-minority, 224 were Black, and 3 were Hispanic. There were 11 females and 260 males. No assessment could be made of the desired outcome of a defined achievement gain because of high pupil mobility. Program continuation is recommended because it provides needed services in exceptional circumstances. An alternative evaluation design is recommended, since too few pupils are enrolled long enough to fulfill the current plan. Four tables present study findings. An appendix contains worksheets, a data sheet, and evaluation forms. (SLD)

IDENTIFIERS- High School Sophomores; Michigan Educational Assessment Program; Pearson Product Moment Correlation; \*Saginaw City School System MI

As part of the baseline studies necessary for a new strategic plan for the Saginaw (Michigan) public schools, the relationship of grade point averages (GPAs), student absence, and Michigan Educational Assessment Program (MEAP) results were studied relative to the amount of shared variation common to each. All possible correlations were studied at the district's two high schools. Data represent all available 10th-grade first semester information for each school. Results are also aggregated by racial/ethnic and gender groups to see if the same relationships hold. Pearson product moment correlation coefficients were reviewed. Although exact correlation coefficients vary by school, there does seem to be a great consistency in terms of the general strength of relationships by variable pairs across schools, gender, and racial/ethnic groups. GPA versus absence correlations are the strongest set. For MEAP versus GPA, the bulk of the correlations fall within the 0.350 to 0.649 crude prediction range. For MEAP versus absences, 66.7 percent of the correlations fall within the "very little use" range. One MEAP area versus another MEAP area correlates well. For the new baseline figures it is recommended that absence data be captured by total school, gender, and racial/ethnic group. GPA and MEAP data should be collected in the same categories. (SLD)

IDENTIFIERS- \*Compton Unified School District CA; Hispanic American Students; Student Surveys; \*Trade Books

The effects of infusing tradebooks into the school and home environments of non-White, low socioeconomic status, urban third through fifth graders were studied. Tradebooks are books with a purpose that is not school-based. The study was conducted in an urban kindergarten through grade 5 school in the Los Angeles (California) area, where 59 percent of the students are Hispanic American and 40 percent are Black. An action research approach was chosen. Every target classroom was provided with a book box of tradebooks on various subjects for students to read and share at home. Students were interviewed about their use of these books and their attitudes toward reading. Entry and exit interviews with more than 100 children indicated that many had non-school based materials at home, mostly stories based on films or television. From entry to exit there was little stated change in children's expressed attitudes toward reading, but their responses to the availability of these books were favorable. Although no conclusive proof of the importance of tradebooks for promoting developmental reading is offered, some striking comments by children and adults do demonstrate positive effects of providing reading material. Eleven tables present study findings. Appendix A is the letter used to solicit research assistants. Appendix B contains the interview instruments. Appendix C is the project evaluation form for the research assistants. (SLD)

## SUBJECT INDEX

### Curriculum Evaluation

(Continued)

A Summary of the Findings in Art and Music: Research Traditions and Implications for Teacher Education. Elementary Subjects Center Series No. 88.

84p. 1mf. L1 ED 360 247

Teacher Research and Program Evaluation: The Experience of the "Reach Out to Schools Social Competency Program."

31p. 1mf. L1 ED 360 323

Technology, Training, and Curricula Revisited: The National Science Foundation Grant to the Science Academy of Austin 1991-92. Final Report.

22p. 1mf. L1 ED 360 256

### Curriculum Problems

Curriculum Reforms in Post-Secondary Science in Nigeria.

11p. 1mf. L1 ED 360 172

### Czech

Czech Grammar.

200p. 3mf. L1 ED 359 785

Listening to Authentic Czech. Authentic Listening Proficiency-Based Methods.

287p. 3mf. L1 ED 359 782

### Daily Living Skills

Adults in Transition. A Report of the Fourth Year of the Adult Education for the Homeless Program.

17p. 1mf. L1 ED 359 399

Education for Homeless Adults. The 1989-1990 Report.

16p. 1mf. L1 ED 359 400

Life Management Skills. Florida Vocational Program Guide.

49p. 1mf. L2 ED 359 344

Special Life Skills for Community Living.

10p. 1mf. L2 ED 359 733

### Data Collection

Chancellor's Office Management Information System: A Report.

35p. 1mf. L1 ED 360 009

Chicago Quality Programs Project Report #1.

90p. 1mf. L1 ED 359 851

Exclusion of Students with Barriers to Participation in NELS:88-- Baseline Excluded Students Two and Four Years Later.

19p. 1mf. L1 ED 360 371

Live vs. Memorex: Psychometric and Practical Issues in the Collection of Data on Teachers' Performances in the Classroom.

21p. 1mf. L1 ED 360 325

Measuring the Experience of Motivation: Contributions of the Experience Sampling Method to Educational Research.

10p. 1mf. L1 ED 360 372

Moving On! Assessing the Transfer Rate and the Characteristics of Transfer Students at an Urban Community College.

23p. 1mf. L1 ED 359 999

Replication: A New Look at an Old Idea.

25p. 1mf. L1 ED 360 338

STARS: Student Assessment and Response System.

16p. 1mf. L1 ED 360 010

### Data Processing

Chancellor's Office Management Information System: A Report.

35p. 1mf. L1 ED 360 009

STARS: Student Assessment and Response System.

16p. 1mf. L1 ED 360 010

### Database Design

## SUBJECT INDEX

### Ecology

- Natural Resources and Forest Ecology. Florida Vocational Program Guide. 107p. 2mf. L2 ED 359 346  
TVA--A World of Resources. 747p. 8mf. L1 ED 360 152

### Economic Development

- Bilingualism and National Development. 172p. 0mf. L3 ED 359 800  
Business Opportunities Enhancement Act (Draft Legislation To Amend the Buy Indian Act) To Increase Employment and Business Opportunities for Indians. Hearing before the Select Committee on Indian Affairs. United States Senate, One Hundred Second Congress, Second Session. 79p. 1mf. L1 ED 360 127  
Consumerism & Development. 10p. 1mf. L1 ED 360 250  
Education for All: Purpose and Context. World Conference on Education for All (Jomtien, Thailand, March 5-9, 1990). Monograph I. Roundtable Themes I. 96p. 0mf. L3 ED 359 362  
The Equivocal Prospects for Indian Reservations. Occasional Paper 1993-2. 79p. 1mf. L1 ED 360 129  
Perspectives from the South in Development Education. Development Education Annual 1990/1991. 49p. 1mf. L1 ED 360 203

### Economic Factors

- Achieving the National Education Goals: The Status of Minorities in Today's Global Economy. A Policy Report of the State Higher Education Executive Officers Minority Student Achievement Project. 31p. 1mf. L1 ED 360 443  
Appraisal of Audiovisual Materials. 46p. 1mf. L1 ED 359 934  
Black Families at the Crossroads: Challenges and Prospects. 313p. 0mf. L3 ED 360 421  
Energy, Economics, and the Environment: Case Studies and Teaching Activities for Middle School. 123p. 2mf. L1 ED 360 149

### Economic Impact

- Development Opportunities: The Effect of UMES on the Town of Princess Anne, Maryland. 52p. 1mf. L1 ED 359 894

### Economically Disadvantaged

- 4-H Youth Programs - Enhancing the Quality of Life. 13p. 1mf. L2 ED 359 449  
Bridges to Leadership 2000: Howard University Youth Leadership Program. 6p. 1mf. L1 ED 359 673  
The Impact of Homelessness: As Experienced by Four Cohorts of Cleveland Public School Students 1987-1991. 30p. 1mf. L1 ED 360 451  
Inputs, Processes, Outcomes: The Context for Achievement among Economically Disadvantaged Students in Appalachia. 76p. 1mf. L1 ED 360 122  
Lives on the Edge: Single Mothers and Their Children in the Other America. 228p. 0mf. L3 ED 360 420

## SUBJECT INDEX

### Educational Planning

(Continued)

- Planning and Organizing for Multicultural Instruction. Second Edition. 372p. 0mf. L3 ED 360 447
- Quality Management Plus: The Continuous Improvement of Education. 224p. 3mf. L2 ED 359 603

- More Than Just Chinese Food...A Collection of Writings by Adult ESL Learners and Three Approaches to Teaching and Writing in the ESL Classroom. 41p. 0mf. L3 ED 359 825
- Outside Evaluation Report for the Arlington Federal Workplace Literacy Project. 19p. 1mf. L1 ED 359 849
- Past...Present...Future...A Collection of Writings by Adults Learning English as a Second Language. 37p. 0mf. L3 ED 359 826
- Pragmatics and Morphosyntactic Acquisition: A Case Study. 17p. 1mf. L1 ED 359 798
- The Projects Strategy in Curriculum and Instruction. 14p. 1mf. L1 ED 359 769
- Shared Wisdom: A Collection of Proverbs, Sayings and Quotations. 20p. 1mf. L1 ED 359 843
- Speaking of Our World. 74p. 0mf. L3 ED 359 824
- "Sticking Points": Effects of Instruction on NNS Refusal Strategies. 37p. 1mf. L1 ED 359 774
- Storytelling Project. Southeast Asian Women's Alliance. 23p. 1mf. L1 ED 359 838
- Strategy Notebook: A Compilation of Open-Ended Instructional Strategies and Materials for Beginning ESL and Literacy Learners. 698p. 8mf. L1 ED 359 744
- Using Computers with Bilingual Students. 5p. 1mf. L1 ED 359 817
- The Working Experience Books 1, 2, and 3. 221p. 0mf. L3 ED 359 810
- The Working Experience. Teacher's Manual. 92p. 0mf. L3 ED 359 809

### English Curriculum

- The Uses and Limitations of the Writer's Personal Experience in Writing Theory, Research, and Instruction. 18p. 1mf. L1 ED 359 511

### English Departments

- The Effect of Budget Cuts at the University of Georgia. 9p. 1mf. L1 ED 359 518
- Problems in Lectureships at the University of Nevada, Reno. 5p. 1mf. L1 ED 359 521
- The Reno Lectureships and the CCCC Statement: Are They Wearing White Hats in Nevada? 7p. 1mf. L1 ED 359 545

### English Instruction

- Carolina English Teacher 1992/1993. 54p. 1mf. L1 ED 359 543
- The Development of the Comic Spirit in 17th Century England from James Shirley to William Congreve. Curriculum Projects, April 7-June 16, 1992. The Huntington Theatre Company Master Works Study

## SUBJECT INDEX

### Federal Programs

(Continued)

H.R. 1685, Defense Language Institute Foreign Language Center. Hearing before the Investigations Subcommittee of the Committee on Armed Services. House of Representatives, One Hundred Second Congress, Second Session (May 27, 1992).

64p. 1mf. L1 ED 359 796

Healthy Schools. A Directory of Federal Programs and Activities Related to Health Promotion through the Schools.

297p. 4mf. L1 ED 360 303

High Performance Computing: Advanced Research Projects Agency Should Do More To Foster Program Goals. Report to the Chairman, Committee on Armed Services, House of Representatives.

45p. 1mf. L1 ED 359 940

Improving America's Schools Act of 1993: The Reauthorization of the Elementary and Secondary Education Act and Amendments to Other Acts.

125p. 2mf. L1 ED 359 671

Multiple Employment Programs. National Employment Training Strategy Needed. Testimony before the Subcommittee on Education, Labor, and Health and Human Services, Committee on Appropriations, U.S. Senate.

15p. 1mf. L1 ED 359 427

Poor Children and Welfare Reform. Executive Summary of the Final Report.

47p. 1mf. L1 ED 360 414

Special Education in Early Childhood. A Burning Issues Series Report.

51p. 1mf. L1 ED 360 136

### Federal Regulation

From Hot Wheels to Teenage Mutant Ninja Turtles: The Evolution of the Definition of Program Length Commercials on Children's Television.

35p. 1mf. L1 ED 359 566

Learning To Meet the Science and Technology Challenge.

56p. 1mf. L1 ED 360 163

Pathways to Excellence: A Federal Strategy for Science, Mathematics, Engineering, and Technology Education. U.S. Science, Mathematics, Engineering, and Technology Education Strategic Plan FY1994-FY1998.

51p. 1mf. L1 ED 360 165

### Federal State Relationship

Goals 2000: Educate America Act Overview and Analysis.

15p. 1mf. L1 ED 359 637

### Feedback

How To Institute the Cross/Angelo Classroom Assessment Training Program on a College Campus, or, How To Create a Dynamic Teaching/Learning Partnership between Teachers and Students.

198p. 3mf. L1 ED 359 994

Predicting Postfeedback Performance from Students' Confidence in Their Responses.

8p. 1mf. L1 ED 360 332

What Is the Effect of the Cross/Angelo Model of Classroom Assessment on Student Outcome? A Study of the Classroom Assessment Project at Eight California Community Colleges. Research Report.

92p. 1mf. L1 ED 359 995

### Fees

Fee Survey 1992-93. Indicators of Fee Levels Charged to Part-Time Adult Students by Local Education Authorities.

High School. 11p. 1mf. L1 ED 360 131
- Troubled Lifestyles: High-Risk Youth in Florida. Draft. 58p. 1mf. L1 ED 360 436
- "Unusually Successful": Pittsfield Chapter 1. 9p. 1mf. L1 ED 360 079
- Urban Education Today. 11p. 1mf. L1 ED 360 445
- Youth in Single-Parent Families: Risk and Resiliency. Background  
Paper. 25p. 1mf. L2 ED 360 462

## High School Equivalency Programs

- Performance-Base Diploma Program: An Award-Winning Approach to  
Dropout Prevention. 8p. 1mf. L1 ED 359 658

## High School Freshmen

- Familial Configuration Influences on the Educational Performance  
of Urban High School Freshmen. 8p. 1mf. L1 ED 360 450

## High School Graduates

- The 1990 High School Transcript Study Tabulations: Comparative  
Data on Credits Earned and Demographics for 1990, 1987, and 1982  
High School Graduates. Tabulations. 580p. 7mf. L1 ED 360 375
- Class of 1991 Graduation Rate Study: A Study of Graduation Rates  
for Arizona Public High Schools. 207p. 3mf. L1 ED 360 359
- Class of 1992 Graduation Rate Study: A Study of Graduation Rates  
for Arizona Public High Schools. 345p. 4mf. L1 ED 360 360
- Graduate Activity Survey: Class of 1991 One Year after  
Graduation. 43p. 1mf. L1 ED 360 365
- High School Graduate Follow-up Study: Class of 1989 Two Years  
after Graduation. 35p. 1mf. L1 ED 360 366

## High School Students

- America's High School Sophomores: A Ten Year Comparison, 1980-  
1990. 121p. 2mf. L1 ED 360 318
- Barriers to Women Entering the Workforce: Math Anxiety. Research  
Bulletin No. 3.

## SUBJECT INDEX

### Institutional Role

African American Educational Excellence. Planning Symposium  
Proceedings for the Development of the Center for Applied  
Cultural Studies and Educational Achievement (Long Beach,  
California, January 27, 1989).

82p. 1mf. L1 ED 360 424

### Instruction

The Research on Learning To Teach: Prospects and Problems.

37p. 1mf. L1 ED 360 275

### Instructional Design

How To Integrate Language and Content Instruction: A Training  
Manual. Second Edition.

109p. 2mf. L1 ED 359 780

Impact of Learning Styles on Instructional Design for Distance  
Education.

9p. 1mf. L1 ED 359 926

Occasional Papers in Open and Distance Learning, Number 13.

38p. 1mf. L1 ED 359 928

### Instructional Development

Are We Using Instructional Technology Effectively?

6p. 1mf. L1 ED 360 008

Developmental Continuity across Preschool and Primary Grades.

Implications for Teachers.

97p. 2mf. L1 ED 360 059

Distributed Training for the Reserve Component: Course  
Conversion and Implementation Guidelines for Computer  
Conferencing.

105p. 2mf. L1 ED 359 916

Isomorphism: Many Paths, One Activity.

10p. 1mf. L1 ED 360 123

SCID: Model for Effective Instructional Development.

14p. 1mf. L1 ED 359 338

### Instructional Effectiveness

An Evaluation of Experiential Teaching/Learning Methods--In a  
Professional Legal Training Course.

286p. 3mf. L1 ED 359 907

Practices of Special Education Teachers for Dealing with  
Students with ADD/ADHD.

98p. 2mf. L1 ED 359 729

Research in the Classroom: Sixth Annual Report of Research  
Projects Conducted by Educators in Their Classrooms.

19p. 1mf. L1 ED 359 732

Retraining the European Workforce: How Technologies Can Help.

Training Discussion Paper No. 95. 11p. 1mf. L1 ED 359 320

Special Life Skills for Community Living.

10p. 1mf. L2 ED 359 733

### Instructional Improvement

CFCC: A Report on Indicators of Excellence.

90p. 1mf. L1 ED 360 030

Designing Coherent Education Policy: Improving the System.

370p. 4mf. L1 ED 359 626

Developing and Implementing a Curriculum and Instructional  
Program To Improve Reading Achievement of Middle-Grade Students  
with Learning Disabilities in a Rural School District.

137p. 2mf. L1 ED 359 492

Effects That the Developmentally Appropriate Process Makes on  
Curriculum of a Rural Elementary School.

## SUBJECT INDEX

### Language Patterns

- Chinese Students and Questioning Skills in American Graduate Level Classrooms. 125p. 2mf. L1 ED 359 803
- A Dynamic Treatment of Tone with Special Attention to the Tonal System of Igbo. 412p. 5mf. L1 ED 359 745
- Lexis in Discourse. 9p. 1mf. L1 ED 359 751
- On the Sociolinguistic Significance of Obscure Dialect Structures: The NP i "call" NP i "Ving" Construction in African American Vernacular English. 26p. 1mf. L1 ED 359 790
- Pragmatics and Morphosyntactic Acquisition: A Case Study. 17p. 1mf. L1 ED 359 798
- "Sticking Points": Effects of Instruction on NNS Refusal Strategies. 37p. 1mf. L1 ED 359 774
- University of New Mexico Working Papers in Linguistics, Volume 1. 102p. 2mf. L1 ED 359 783

### Language Planning

- Foreign Language Teaching at the University of Pennsylvania: A Language Planning Case Study. 23p. 1mf. L1 ED 359 776
- Language Planning and Language Policy in Australia. 230p. 0mf. L3 ED 359 801
- Planning Language-in-Education in Arkansas: A Case Study. 22p. 1mf. L1 ED 359 775

### Language Proficiency

- English-as-a-Second-Language Model Standards for Adult Education Programs. 87p. 1mf. L2 ED 359 830
- Listening to Authentic Czech. Authentic Listening Proficiency-Based Methods. 287p. 3mf. L1 ED 359 782
- Testing the Limits of Proficiency: The ACTFL OPI and FL Departments. 31p. 1mf. L1 ED 359 788

### Language Research

- Notes on Linguistics, 1990. 267p. 3mf. L1 ED 359 784
- The Sociolinguistic Model in Speech and Language Pathology. 34p. 1mf. L1 ED 359 789
- University of New Mexico Working Papers in Linguistics, Volume 1. 102p. 2mf. L1 ED 359 783

### Language Role

- Bakhtin as a Theory of Reading. Technical Report No. 579. 24p. 1mf. L1 ED 359 502
- Bilingualism and National Development. 172p. 0mf. L3 ED 359 800
- A Case Study of Two Foreign Students: Focus on Language Problems. 34p. 1mf. L1 ED 359 574
- Dialect Differences in the Schools: Educational, Social, and Economic Implications. Workshop (Cleveland, Ohio, June 26-28, 1986). 184p. 2mf. L1 ED 359 778
- Language Development from Two to Three. 523p. 0mf. L3 ED 359 794
- Language Planning and Language Policy in Australia.

## SUBJECT INDEX

### Literacy Education

(Continued)

- Strategy Notebook: A Compilation of Open-Ended Instructional Strategies and Materials for Beginning ESL and Literacy Learners. 698p. 8mf. L1 ED 359 744
- Teaching Literacy to Second Language Learners. 11p. 1mf. L1 ED 359 807
- Territory of Guam Adult Education Programs. Performance Report. Fiscal Year 1992. 35p. 1mf. L1 ED 359 407
- Volunteer Voice. Volume IX. 38p. 1mf. L1 ED 359 848
- Workforce & Workplace Literacy. Selected References. Revised. 10p. 1mf. L1 ED 359 330
- The Working Experience Books 1, 2, and 3. 221p. 0mf. L3 ED 359 810
- The Working Experience. Teacher's Manual. 92p. 0mf. L3 ED 359 809
- Working with Numbers. 5p. 1mf. L1 ED 359 326
- Workplace Literacy Development Guide for Employers. 79p. 1mf. L1 ED 359 835

### Literary Criticism

- Bakhtin as a Theory of Reading. Technical Report No. 579. 24p. 1mf. L1 ED 359 502
- Growing Up American: A Record. 91p. 1mf. L1 ED 359 537
- The Parameters of Postmodernism. 200p. 0mf. L3 ED 359 524
- Using Reader-Response Techniques To Teach Multicultural Writings in the Composition Classroom. 11p. 1mf. L1 ED 359 512

### Literary Devices

- Multiple Voices in Young Adult Novels. 9p. 1mf. L1 ED 359 533

### Literary Genres

- Message Structure in LSP Texts: A Socially Determined Variation at Different Text Levels. 18p. 1mf. L1 ED 359 753

### Literature Appreciation

- Ideas Plus: A Collection of Practical Teaching Ideas. Book Eleven. 59p. 1mf. L1 ED 359 541
- Ideas Plus: A Collection of Practical Teaching Ideas. Book Ten. 66p. 1mf. L1 ED 359 551
- Interactive Reading on the Secondary Level. 16p. 1mf. L1 ED 359 490

### Lobbying

- School Health Coalition Building--One State's Plan. 7p. 1mf. L1 ED 360 263

### Local Area Networks

- Using Network Technology To Create New Writing Environments for Deaf Students: Teachers' Strategies and Student Outcomes. 12p. 1mf. L1 ED 359 707

### Local History

- Folkpatterns 4-H Leader's Guide: A Cultural Heritage Project. 62p. 0mf. L3 ED 360 199

17p. 1mf. L1 ED 359 777

Using Reader-Response Techniques To Teach Multicultural Writings in the Composition Classroom.

11p. 1mf. L1 ED 359 512

Vision and the Black Community College President. Revised.

22p. 1mf. L1 ED 360 227

Working Papers in Educational Linguistics, Volume 9, Number 1, Spring 1993.

147p. 2mf. L1 ED 359 771

Zora Neale Hurston: A Storyteller's Life. Unsung Americans.

105p. 0mf. L3 ED 360 440

## Multigraded Classes

Implementation Challenges of the Primary Learning Communities Program: Precautions and Potential.

20p. 1mf. L1 ED 360 048

Teacher Perception of Mixed-Age Groupings of Children.

22p. 1mf. L1 ED 360 047

## Multiple Choice Tests

Performance Assessment. Policy Bulletin, No. PB-B13.

7p. 1mf. L1 ED 360 388

## Multiple Disabilities

Communication Intervention for Individuals with Dual Sensory and Intellectual Impairments.

## SUBJECT INDEX

### Parent Child Relationship

(Continued)

- Internal/External Locus of Control and Parental Verbal  
Interaction of At-Risk Adolescent Black Males.  
8p. 1mf. L1 ED 360 453
- Parents as Resources When Adult Children Divorce.  
13p. 1mf. L1 ED 359 472
- Paternal Involvement and the Development of Gender Expectations  
in Sons and Daughters.  
26p. 1mf. L1 ED 359 457
- A Study of Stereotyping of Infants and Toddlers.  
12p. 1mf. L1 ED 360 089
- Understanding Learning Disabilities: A Parent Guide and  
Workbook. Second Edition.  
181p. 2mf. L1 ED 359 680
- Variations of Parent and Adolescent Emotional Expression:  
Differences by Pubertal Status, Gender, and Conversation.  
11p. 1mf. L1 ED 360 073

### Parent Education

Toddlers, and Preschool-Aged Children with Deaf-Blindness and  
Multihandicap Sensory Impairments. Project INSITE Outreach.  
Final Report.  
112p. 2mf. L1 ED 359 689
- Promising Practices in Early Childhood Education. Volume I.  
39p. 1mf. L1 ED 360 137

### Parent Materials

# SUBJECT INDEX

## Preservice Teacher Education

(Continued)

- The Preservice Teacher Education Program as Described in Journals. 21p. 1mf. L1 ED 360 276
- The Research on Learning To Teach: Prospects and Problems. 37p. 1mf. L1 ED 360 275
- Restructuring a Teacher Preparation Program Using the Professional Development School Concept. 28p. 1mf. L1 ED 360 260
- A Stitch in Time: Strengthening the First Years of School. Compulsory Years of Schooling Project. Project Paper No. 3. Commissioned Report No. 16. 69p. 1mf. L1 ED 360 061
- Teaching Oral Interpretation: A Reading Specialization Perspective. 7p. 1mf. L1 ED 359 591
- The "U" in UTEP: Development of the Urban Curriculum and Its Delivery. Second Year Report to the Indiana Department of Education, Teacher Training and Licensing Advisory Committee. 128p. 2mf. L1 ED 360 270

## Presidents of the United States

- President Lincoln and His Vice-Presidents. Lincoln Era Essay Contest Eleventh Annual Winners-1992. 181p. 2mf. L1 ED 360 206

## Prevention

- Children's Mental Health and Their Ability To Learn. Occasional Paper #8. 38p. 1mf. L1 ED 359 720
- A Compilation of Federal Education Laws: Volume V, As Amended through December 31, 1992. Prepared for the Use of the Committee on Education and Labor of the U.S. House of Representatives and the Committee on Labor and Human Resources of the United States Senate, One Hundred Third Congress, First Session. 651p. 7mf. L1 ED 359 740
- Condoning Drug Education Programs at Colleges and Universities. 7p. 1mf. L1 ED 359 876
- Crisis Nursery Services--Responding to Parental Concerns. ARCH Factsheet Number 20. 4p. 1mf. L1 ED 359 723
- Handbook for Evaluating HIV Education. 280p. 3mf. L1 ED 359 633
- Network Directory. The Network of Colleges and Universities Committed to the Elimination of Drug and Alcohol Abuse. 197p. 3mf. L1 ED 359 889
- Program Development for Community AIDS Outreach. Clinical Report Series. 73p. 1mf. L1 ED 359 462
- Working with Youth in High-Risk Environments: Experiences in Prevention. OSAP Prevention Monograph-12. 220p. 3mf. L1 ED 359 461

## Primary Education

- Early Childhood in Australian Schools: Future Directions. A Discussion Paper Commissioned by the Schools Council. AECA Working Paper. 89p. 1mf. L1 ED 360 065
- Implementation Challenges of the Primary Learning Communities Program: Precautions and Potential. 20p. 1mf. L1 ED 360 048
- A Stitch in Time: Strengthening the First Years of School. Compulsory Years of Schooling Project. Project Paper No. 3.

## SUBJECT INDEX

### Publicity

Media & Marketing--A Powerful New Alliance for Higher Education.  
157p. 0mf. L3 ED 359 879

### Publish or Perish Issue

Research What You Love--and Get It Published Anyway.  
11p. 1mf. L1 ED 359 580

### Publishing Industry

The Findings and Activities of the Texas Commission on Braille  
Textbook Production. A Report from the State Board of Education,  
Submitted to the Governor, Lt. Governor, Speaker, and the  
Seventy-Third Texas Legislature. Excellence and Equity for All  
Students.  
23p. 1mf. L1 ED 359 726

### Puzzles

Strategies, Solutions, and Snoopy: Teacher-Child Dyads Solving  
Microcomputer Puzzles.  
35p. 1mf. L1 ED 360 099

### Qualitative Research

Living Lives, Studying Lives, Writing Lives: An Educational  
Potpourri or Pot au Feu?  
33p. 1mf. L1 ED 360 297

### Quality of Life

4-H Youth Programs - Enhancing the Quality of Life.  
13p. 1mf. L2 ED 359 449

Education for All: Purpose and Context. World Conference on  
Education for All (Jomtien, Thailand, March 5-9, 1990).  
Monograph I. Roundtable Themes I.

96p. 0mf. L3 ED 359 362

Education for All: The Requirements. World Conference on  
Education for All (Jomtien, Thailand, March 5-9, 1990).  
Monograph III. Roundtable Themes III.

93p. 0mf. L3 ED 359 364

Education, Culture and Productive Life. Proceedings of the  
Annual International Meeting of the Centre for the Study of  
Education in Developing Countries (25th, December 9-21, 1988).  
CESO Paperback No. 13.

477p. 5mf. L2 ED 360 198  
Is Communication Really the Point? Some Thoughts on Where We've  
Been and Where We Might Want To Go.

20p. 1mf. L1 ED 359 703

Societal Conceptualization of Mental Retardation: A Contrived  
Darkness.

29p. 1mf. L1 ED 359 736

### Quality of Working Life

Parity 2000: Achieving Equity for Women in Higher Education.  
Report of the Council for Women in Higher Education.  
42p. 1mf. L1 ED 359 881

### Questioning Techniques

Chinese Students and Questioning Skills in American Graduate  
Level Classrooms.  
125p. 2mf. L1 ED 359 803

Nordic Research on Text and Discourse. NORDTEXT Symposium  
(Espoo, Finland, May 10-13, 1990).  
282p. 3mf. L1 ED 359 746

The Notion of Coercion in Courtroom Questioning.  
11p. 1mf. L1 ED 359 752

## SUBJECT INDEX

### Rural Schools

(Continued)

A Report on the Effectiveness and Potential of an Interactive Video Teaching Trial.

29p. 1mf. L2 ED 359 931

The Rural Superintendent: The Missing Link in School Improvement.

10p. 1mf. L1 ED 360 111

Small, Rural and Effective: A Study of Secondary Schools.

Warwick Papers on Education Policy, No. 1.

68p. 1mf. L1 ED 360 142

UNESCO School Libraries in Oceania Project.

7p. 1mf. L1 ED 359 958

### Rural Urban Differences

Characteristics of Successful Schools: Perception Differences between Rural and Urban Elementary School Teachers.

20p. 1mf. L1 ED 360 115

West Virginia Adolescents' Health Risk Behaviors: Differences by Gender, Age, Grade Level, and Level of Rurality.

57p. 1mf. L1 ED 360 134

### Salaries

ARL Annual Salary Survey, 1992.

100p. 2mf. L1 ED 359 955

Occupational and Educational Outcomes of Recent College Graduates 1 Year after Graduation: 1991. Contractor Report. Statistical Analysis Report.

94p. 1mf. L1 ED 359 909

### Salary Wage Differentials

Parity 2000: Achieving Equity for Women in Higher Education. Report of the Council for Women in Higher Education.

42p. 1mf. L1 ED 359 881

### Sampling

Exclusion of Students with Barriers to Participation in NELS:88-- Baseline Excluded Students Two and Four Years Later.

19p. 1mf. L1 ED 360 371

Schools and Staffing Survey, 1990-91: Sample Design and Estimation. Technical Report.

137p. 2mf. L1 ED 360 380

### Scheduling

Matching School Resources and Student Needs: Scheduling and Assignment Problems in High Schools Serving At-Risk Youth. Final Report.

174p. 2mf. L1 ED 360 429

### Schemata (Cognition)

Differences in Aspects of Preschoolers' Race Schema: Race Schematization, Race-Based Peer Preferences, and Memory for Racially Stereotyped Drawings.

11p. 1mf. L1 ED 360 071

### Schizophrenia

Attitudes of Suicidal Ideators and Non-Ideators toward Suicide.

23p. 1mf. L1 ED 359 445

Overview of Childhood Schizophrenia.

24p. 1mf. L1 ED 359 471

### Scholarly Journals

The Determination of Statistical Sophistication of Research in Vocational Education.

31p. 1mf. L1 ED 360 381

## SUBJECT INDEX

### Self Determination

(Continued)

Self-Direction in Adult Learning: Perspectives on Theory, Research, and Practice. Routledge Series on Theory and Practice of Adult Education in North America.

276p.

Omf. L3 ED 359 423

### Self Efficacy

Development and Evaluation of a School-Based Stress and Coping Curriculum.

14p.

1mf. L1 ED 360 051

### Self Esteem

Forgotten "Native Americans": A Study of the Psychological Development of Hawaiian Children.

26p.

1mf. L1 ED 359 467

Home School Specialist: "The Missing Link" and "The Student Connection Program."

45p.

1mf. L1 ED 360 114

"How To Do What's Best for YOU" - A Workshop for Adolescents.

7p.

1mf. L1 ED 359 443

A Program Evaluation of Short Term Counseling with Primary Grade Children.

20p.

1mf. L1 ED 359 460

A Survey of Fifth Grade Pupils: Selected Variables of Self-Worth, Sexuality and Sources of Information.

23p.

1mf. L1 ED 359 438

Yes You Can! A Booklet To Help Young People with Learning Disabilities Understand and Help Themselves. Revised Edition.

38p.

1mf. L2 ED 359 685

### Self Evaluation (Groups)

Associate in Occupational Studies, Culinary Arts. Self-Study Report Presented to the Accrediting Commission of the American Culinary Federation Educational Institute.

118p.

2mf. L1 ED 359 396

Institutional Assessment, Planning, and Institutional Change: An Integrated Institutional Assessment and Strategic Planning Process for Community Colleges.

24p.

1mf. L1 ED 360 000

NMSU-Alamogordo Institutional Assessment and Strategic Planning (IASP) Process: A Handbook. (Version 1.1).

104p.

2mf. L1 ED 360 001

Self-Regulation in Higher Education. A Multi-National Perspective on Collaborative Systems of Quality Assurance and Control. Higher Education Policy Series 15.

238p.

Omf. L3 ED 359 904

Three-Year Strategic Plan for New Mexico State University-Alamogordo, 1993-1996.

85p.

1mf. L1 ED 360 002

### Self Evaluation (Individuals)

Pathways to Your Future. Career Planner Activities. Student Workbook and Facilitator's Guide.

109p.

2mf. L2 ED 359 415

Reflective Teaching. What Am I Doing? Why Am I Doing It This Way? Instructional Strategies Series No. 11.

36p.

1mf. L2 ED 360 309

Yes You Can! A Booklet To Help Young People with Learning Disabilities Understand and Help Themselves. Revised Edition.

38p.

1mf. L2 ED 359 685

### Self Expression

Art Therapy: What Does It Have To Say to Writing Teachers?

## SUBJECT INDEX

### Standardized Tests

- District-Wide Testing Results, Technical Report, 1991-92. OPET Report. 109p. 2mf. L1 ED 360 341
- Norm-Referenced Test Results of the New Orleans Public Schools: A Comprehensive Report on Their Relationship to Major Student Characteristics. 119p. 2mf. L1 ED 360 364
- What Do SAT Scores Say about Indiana's Education Performance? Policy Bulletin No. PB-1.2. 9p. 1mf. L1 ED 359 614

### Standards

- Goals 2000: Educate America Act Overview and Analysis. 15p. 1mf. L1 ED 359 637
- HDTV: In Search of a Policy. 46p. 1mf. L1 ED 359 939
- Joint Committee on Competency Standards in Student Assessment for Educational Administrators Update: Assessment Survey Results. 24p. 1mf. L1 ED 360 354
- National Early Childhood Program Accreditation (NECPA) Annual Report, 1992. 36p. 0mf. L3 ED 360 095
- National Science Education Standards: A Sampler. 69p. 1mf. L1 ED 360 174
- National Science Education Standards: An Enhanced Sampler: A Working Paper of the National Committee on Science Education Standards and Assessment. 91p. 1mf. L1 ED 360 175
- National Standards: Who Benefits? 21p. 1mf. L1 ED 359 640

### State Action

- Barriers to School Restructuring. 27p. 1mf. L1 ED 359 663
- Charter Schools: A Viable Reform Initiative. 40p. 1mf. L1 ED 359 662

### State Aid

- Choice Programs and State Constitutions: The Inclusion of Sectarian Schools. CRS Report for Congress. 25p. 1mf. L1 ED 359 636
- Prince George's Community College Annual Cost Containment Report. Submitted to the Maryland Higher Education Commission and the Maryland General Assembly in Compliance with Section 8 of Chapter 465 of the Acts of 1991. 22p. 1mf. L1 ED 360 016
- Pupil Transportation Cost Control Opportunities. Public Affairs Focus, Issue Number 26. 9p. 1mf. L1 ED 359 609

### State Curriculum Guides

- The Status of the Curriculum in the Public Schools: A Report from the State Board of Education. Submitted to the Governor, Lieutenant Governor, Speaker, and the Seventy-Third Texas Legislature 1990-1992. 35p. 1mf. L1 ED 359 639

### State Departments of Education

- Methods of Power Used by the Ohio State Department of Education To Implement State Mandated Programs. 13p. 1mf. L1 ED 359 622

### State History

## SUBJECT INDEX

### Technological Advancement

(Continued)

Education for All: Purpose and Context. World Conference on Education for All (Jomtien, Thailand, March 5-9, 1990). Monograph 1. Roundtable Themes I.

96p. Dmf. L3 ED 359 362  
HDTV Debate: Industrial Policy Gone Awry.

28p. 1mf. L1 ED 359 925

High Performance Computing: Advanced Research Projects Agency Should Do More To Foster Program Goals. Report to the Chairman, Committee on Armed Services, House of Representatives.

45p. 1mf. L1 ED 359 940

Information Technology: A Model for Brandon University.

46p. 1mf. L1 ED 359 982

Machine Translation Technology: A Potential Key to the Information Age. Report of the FCCSET Committee on Industry and Technology.

61p. 1mf. L1 ED 359 942

National Center for Education Statistics "Product Planning and Development." Final Report.

124p. 2mf. L1 ED 360 319

National Symposium on Information Technology: Proceedings (7th, Myrtle Beach, South Carolina, May 3-6, 1992). Volume 6.

292p. 4mf. L1 ED 359 683

Problems of Diffusion in High Technology: Compact Disc-Interactive (CD-I)--A Case Study.

40p. 1mf. L1 ED 359 920

Reengineering Teaching and Learning in Higher Education: Sheltered Groves, Camelot, Windmills, and Malls. Professional Paper Series, #10.

57p. 1mf. L1 ED 359 921

Technology and the Organization of Schooling. Technical Report No. 28.

10p. 1mf. L1 ED 359 933

Technology in the Classroom: Planning for Educational Change.

7p. 1mf. L2 ED 359 922

### Telecommunications

American Indian Higher Education Consortium (AIHEC) Telecommunications Planning Project. Year One, Final Report and Recommendations.

135p. 2mf. L1 ED 360 135

Building the South Carolina Network for Educational Telecomputing. Four Years of Growth and Success--Bringing Educators Together. Annual Report to BellSouth Foundation. Project REACH, Telecommunications Grant (1 July 1992-1 April 1993).

242p. 3mf. L2 ED 359 973

A Comparison of Mainframe and Personal Computer Based Bulletin Board Systems for Computer-Mediated Communications in Distance Education Courses.

6p. 1mf. L1 ED 359 945

Technology in the Classroom: Planning for Educational Change.

7p. 1mf. L2 ED 359 922

Telecommunications and K-12 Educators: Findings from a National Survey.

95p. 1mf. L1 ED 359 923

World Trends in Corporatization and Privatization. Proceedings of the 1993 Mid-Year Seminar of the Pacific Telecommunications Council (Taipei, Taiwan, June 9-11, 1993).

250p. 3mf. L1 ED 359 943

### Teleconferencing

Distributed Training for the Reserve Component: Course

## SUBJECT INDEX

### Wages

Graduate Follow-up and Employer Survey 1989.  
202p. 3mf. L1 ED 359 405

### War

Peace Education: Perspectives from Brazil and India. An  
Interview with Anima Bose (India) and Zlmarian Jeanne Walker  
(Brazil). Reprints and Miniprints No. 683.  
24p. 1mf. L1 ED 360 194

### Waste Disposal

Consumerism & Development.  
10p. 1mf. L1 ED 360 250

### Water Resources

Lake Life.  
33p. 1mf. L1 ED 360 222

### Welfare Services

LEAP: Interim Findings on a Welfare Initiative To Improve School  
Attendance among Teenage Parents. Ohio's Learning, Earning, and  
Parenting Program.  
269p. 3mf. L1 ED 359 459  
More than Survival: Access to Higher Education for Low Income  
Women.  
30p. 0mf. L3 ED 360 215  
Poor Children and Welfare Reform. Executive Summary of the Final  
Report.  
47p. 1mf. L1 ED 360 414

### Western Civilization

A Cooperative Research Group for the Study of Culture and  
Science Education in Developing Countries.  
7p. 1mf. L1 ED 360 155  
Social Studies Grade 8 Curriculum Guide. Revised.  
86p. 1mf. L1 ED 360 234

### Whole Language Approach

ESL Small Town.  
103p. 2mf. L1 ED 359 845  
The Integrated Language Arts: Curriculum Enactments in Whole  
Language and Traditional Fourth Grade Classrooms.  
35p. 1mf. L1 ED 359 495  
Interactive Reading on the Secondary Level.  
16p. 1mf. L1 ED 359 490  
Language Arts Topics and Educational Issues: Information Sheets.  
54p. 1mf. L1 ED 359 486  
Literature and Literacy: The 'Real' Book Approach to Children  
Learning To Read.  
14p. 1mf. L2 ED 359 954  
Portraits of Whole Language Classrooms: Learning for All Ages.  
332p. 0mf. L3 ED 359 501  
"Projects"--The Link between Literacy and the Real World.  
20p. 1mf. L1 ED 359 806  
Shared Meaning: Whole Language Reader Response at the Secondary  
Level.  
16p. 1mf. L1 ED 359 491  
Theme Exploration: A Voyage of Discovery.  
239p. 0mf. L3 ED 359 485  
The Whole Language Evaluation Book.  
295p. 0mf. L3 ED 359 500  
Whole Language Teacher Education in Multicultural Contexts:  
Living Our Own Models of Learning.

# Academic Content Areas.

- 25p. 1mf. L1 ED 360 265  
Effects of Day Care on Elementary School Performance and Adjustment.
- 17p. 1mf. L1 ED 360 052  
Effects That the Developmentally Appropriate Process Makes on Curriculum of a Rural Elementary School.
- 28p. 1mf. L1 ED 360 082  
Familial Configuration Influences on the Educational Performance of Urban High School Freshmen.
- 8p. 1mf. L1 ED 360 450  
Giving Beginning College Students a Chance for Success. A Report of a 20-Year Experiment with Non-traditional Education in a University Setting.
- 20p. 1mf. L1 ED 359 903  
Growth and Learning in Accelerated Schools: Big Wheels and Little Wheels Interacting.
- 48p. 1mf. L1 ED 360 449  
Inputs, Processes, Outcomes: The Context for Achievement among Economically Disadvantaged Students in Appalachia.
- 76p. 1mf. L1 ED 360 122  
Instructional Leadership, School Instructional Climate, and Student Learning Outcomes. Project Report.
- 30p. 1mf. L1 ED 359 668  
Interfacing Two-Year and Four-Year Transcripts for Transfer Students.
- 31p. 1mf. L1 ED 360 017  
The Internationalization of Bloom's Learning for Mastery: A 25-Year Retrospective-Prospective View.
- 19p. 1mf. L1 ED 360 333  
Middle Level Demonstration School, 1991-92. OREA Report.
- 39p. 1mf. L1 ED 360 426  
Minority Student Achievement Partnerships: What's Working in Arizona. Volume One. A Directory of Public School, Community College, and Public University Partnership Programs Improving Minority Access and Achievement in Arizona.
- 62p. 1mf. L1 ED 360 118  
Motivational Components of College Students' Performance and Productivity.
- 17p. 1mf. L1 ED 359 877  
National Assessment of College Student Learning: Getting Started. A Summary of the Beginning Activities.
- 192p. 2mf. L1 ED 359 856  
The National Education Goals Report: Building a Nation of Learners. Volume One: The National Report, 1993.
- 233p. 3mf. L1 ED 360 394  
The National Education Goals Report: Building a Nation of Learners. Volume Two: State Reports, 1993.
- 252p. 3mf. L1 ED 360 395  
The National Education Goals Report: Building the Best. Summary Guide, 1993.
- 22p. 1mf. L1 ED 360 396  
National Education Longitudinal Study of 1988: A Profile of the American Eighth Grader. Research in Brief.
- 4p. 1mf. L1 ED 360 352  
National Standards: Who Benefits?
- 21p. 1mf. L1 ED 359 640  
North Carolina Rural Initiative Study of Secondary Schools: Funding Effects on Depth of the Curriculum.
- 16p. 1mf. L1 ED 360 133  
Parents Assuring Student Success (PASS): Achievement Made Easy by Learning Together.
- 155p. 2mf. L2 ED 360 413  
Placement Testing and Student Success: The First Intervening

- The Working Experience Books 1, 2, and 3. 13p. 1mf. L2 ED 359 360  
 221p. Omf. L3 ED 359 810  
 The Working Experience. Teacher's Manual. 92p. Omf. L3 ED 359 809
- Adult Vocational Education
- Development of a Curriculum and Materials for Use in Teaching  
 Occupationally Specific Vocabulary for Health Care Students.  
 Final Report. 27p. 1mf. L1 ED 359 371
- Adults
- A Comparison of the Myers-Briggs Type Indicator Extraversion-  
 Introversion Scale, and the Minnesota Multiphasic Personality  
 Inventory O Scale (Social Introversion). 71p. 1mf. L1 ED 360 357  
 Impact of Learning Styles on Instructional Design for Distance  
 Education. 9p. 1mf. L1 ED 359 926  
 Internal-Structure Analysis of Analytical Reasoning Worksamples  
 244 D and E and Development of Form H. Technical Report 1992-1. 42p. 1mf. L1 ED 360 361  
 The Spelling Project. Technical Report 1992-2. 68p. 1mf. L1 ED 360 362
- Adventure Education
- A Guide to Women's Studies in the Outdoors: Review of Research  
 with Annotated Bibliography. 47p. 1mf. L1 ED 360 141
- Adverbs
- Nordic Research on Text and Discourse. NORDTEXT Symposium  
 (Espoo, Finland, May 10-13, 1990). 282p. 3mf. L1 ED 359 746  
 Temporal Adverbials in Text Structuring: On Temporal Text  
 Strategy. 14p. 1mf. L1 ED 359 761
- Advertising
- The Big Deal over a Camel: What "Joe Smooth" Should Teach Us  
 about Children's Media Research. 30p. 1mf. L1 ED 359 570
- Advisory Committees
- Report of the Committee on Student Learning. Submitted to the  
 Governor, Lieutenant Governor, Speaker, and the Seventy-Third  
 Texas Legislature, 1992-1993. 123p. 2mf. L1 ED 359 638

#### Learning Modalities

Impact of Learning Styles on Instructional Design for Distance Education.

9p. 1mf. L1 ED 359 926

#### Learning Motivation

Guideposts to Self-Directed Learning. Expert Commentary on Essential Concepts.

## Mastery Tests

User's Manual for the Basic Math Mastery Tests.  
32p. 1mf. L2 ED 360 342

## Material Culture

Doors and Windows of My Mind: Thresholds of Visual Thinking.  
43p. 1mf. L1 ED 360 213

## Material Development

Creating Elementary and Secondary School Libraries: A Basic Approach.  
13p. 1mf. L1 ED 359 963

How To Integrate Language and Content Instruction: A Training Manual. Second Edition.  
109p. 2mf. L1 ED 359 780

SCID: Model for Effective Instructional Development.  
14p. 1mf. L1 ED 359 338

## Mathematical Applications

Working with Numbers.  
5p. 1mf. L1 ED 359 326

## Mathematical Models

The Effect of the Multivariate Box-Cox Transformation on the Power of MANOVA.  
19p. 1mf. L1 ED 360 348

## Mathematics Achievement

Context for Learning: Science, Mathematics, Geography - IAEP: Alberta Report.  
62p. 1mf. L1 ED 360 363

Hierarchical Linear Modeling of Class Ability Range on Student Mathematics Achievement.  
17p. 1mf. L1 ED 360 317

NAEP 1992 Mathematics Report Card for the Nation and the States.  
389p. 5mf. L1 ED 360 190

Statistics Achievement: A Function of Attitudes and Related Experiences.  
19p. 1mf. L1 ED 360 324

## Mathematics Anxiety

Barriers to Women Entering the Workforce: Math Anxiety. Research Bulletin No. 3.  
6p. 1mf. L1 ED 359 381

Self-Regulated Achievement in the Cegep Student: Motivated Strategies for Learning.  
84p. 1mf. L1 ED 360 269

Study To Examine Math Anxiety for Students Who Are Single Parents and Those Enrolled in Nontraditional Career Preparation Programs.  
22p. 1mf. L1 ED 359 380

## Mathematics Curriculum

Effect of Teacher Involvement in Implementation of an Innovation.  
11p. 1mf. L1 ED 360 291

State of the Art: Transforming Ideas for Teaching and Learning Mathematics.  
19p. 1mf. L1 ED 360 188

## Mathematics Education

Learning To Meet the Science and Technology Challenge.  
56p. 1mf. L1 ED 360 163

Pathways to Excellence: A Federal Strategy for Science,

## Nondiscriminatory Education

Effective School Responses to Student Diversity: Challenges and Prospects.

10p. 1mf. L1 ED 360 446

## Nonformal Education

Education for All: An Expanded Vision. World Conference on Education for All (Jomtien, Thailand, March 5-9, 1990).

Monograph II. Roundtable Themes II.

89p. 0mf. L3 ED 359 363

Nonformal Environmental Education: Toward a Working Definition.

The Environmental Outlook. ERIC/CSMEE Informational Bulletin.

9p. 1mf. L1 ED 360 154

Save the Children Nonformal Education and Early Childhood

Development Activities in Rural Nepal.

25p. 1mf. L1 ED 360 090

## Nonmajors

Remediation, Bridging Explanations, Worked Examples and Discussion: Their Effectiveness as Teaching Strategies in a Freshman-Level Nonscience Major Chemistry Course.

17p. 1mf. L1 ED 360 179

## Nonprofit Organizations

Federal Support to Universities, Colleges, and Nonprofit Institutions: Fiscal Year 1990. A Report to the President and Congress. Surveys of Science Resources Series.

215p. 3mf. L1 ED 360 158

Assessment Research in the Context of Practice.

# Futures (of Society)

71p.

1mf. L1 ED 359 822

The Culture of Inequality. Second Edition, with a New Introduction.

230p.

0mf. L3 ED 360 464

Higher Level Open Distance Learning in Europe: The Accelerating Pace of Change.

6p.

1mf. L1 ED 359 324

Technology in the Classroom: Planning for Educational Change.

7p.

1mf. L2 ED 359 922

## Games

Ideas at Work. Techniques for Effective Communication: Giving Feedback and Asking for Clarification. The Work Styles Series Minibook A.

52p.

1mf. L1 ED 359 850

## General Education

Assessing General Education Outcomes: An Institution-Specific Approach. Final Report.

131p.

2mf. L1 ED 359 859

Assessing Models of Liberal Education: An Empirical Comparison.

179p.

2mf. L1 ED 359 864

## Generalization

The Trap of Generalization: A Case of Encountering a New Culture.

27p.

1mf. L1 ED 359 773

## Geography

Context for Learning: Science, Mathematics, Geography - IAEP: Alberta Report.

62p.

1mf. L1 ED 360 363

## Geography Instruction

The African Diaspora: Teaching the Children.

21p.

1mf. L1 ED 360 228

Geography in History: A Necessary Connection in the School Curriculum. ERIC Digest.

4p.

1mf. L1 ED 360 220

Lake Life.

33p.

1mf. L1 ED 360 222

Social Studies K-12. Teacher Handbook.

417p.

5mf. L1 ED 360 232

## German

A Pilot Program in International Engineering.

41p.

1mf. L1 ED 359 858

Remarks on the Needed Reform of German Studies in the United States.

104p.

0mf. L3 ED 359 898

## Gifted

Administrative Guidelines: Education of Gifted Students and Plan for Education of the Gifted in South Dakota.

46p.

1mf. L1 ED 359 713

Cooperative Learning and Gifted Students: A National Survey. Short Report.

6p.

1mf. L1 ED 359 717

Gifted Education Resource Directory.

30p.

1mf. L1 ED 359 715

A Guide for Parents of the Gifted Child.

23p.

1mf. L1 ED 359 712

Handbook for Implementing a District Gifted Education Plan.

## Honors Curriculum

- Sexual Difference and Participatory Pedagogy.  
9p. 1mf. L1 ED 359 527
- Hospital Personnel
- Improving Hospital Ethics Committees (HEC): Educating across the Health Professions.  
16p. 1mf. L1 ED 359 860
- Hospitality Occupations
- Basic Skills in the Hotel & Food Service Industries. Workforce & Workplace Literacy Series. Revised.  
10p. 1mf. L1 ED 359 332
- Hospitality Management. Florida Vocational Program Guide.  
46p. 1mf. L2 ED 359 422
- Hostility
- The Development of the Post-Divorce Parental Conflict Scale.  
17p. 1mf. L1 ED 360 384
- Human Capital
- Challenge: To Develop Incentives for Investment in Educational Attainment in Order To Produce a More Productive, More Competitive Workforce. EQW Issues Number 5.  
9p. 1mf. L1 ED 359 353
- Human Resources
- Toward the 21st Century: Preparing Proactive Visionary Transformational Leaders for Building Learning Communities. Human Resource Development.  
200p. 3mf. L1 ED 359 412
- Human Services
- Assessment of Field Placement.  
10p. 1mf. L1 ED 360 015
- Crisis Nursery Services--Responding to Parental Concerns. ARCH Factsheet Number 20.  
4p. 1mf. L1 ED 359 723
- Job Satisfaction in Human Services: A Rehabilitation Agency.  
100p. 2mf. L1 ED 359 465
- Shared Opportunities for Schools and Communities. Robert Lee Sutherland Seminar (8th, Austin, TX, September 25-26, 1992).  
56p. 1mf. L2 ED 359 600
- Humanistic Education
- Powerful Social Studies: Concepts That Count. Elementary Subjects Center Series No. 88.  
98p. 2mf. L1 ED 360 229
- Humanities Instruction
- The Astonishing Curriculum: Integrating Science and Humanities through Language.  
185p. 2mf. L1 ED 359 538
- A Model for Professional Education in the 21st Century: Integrating Humanities and Engineering through Writing.  
15p. 1mf. L1 ED 359 520
- Teaching Excellence in the Liberal Arts.  
19p. 1mf. L1 ED 359 867
- Humor
- Humor as an Instructional Practice: A Longitudinal Content Analysis of Humor Use in the Classroom.  
23p. 1mf. L1 ED 359 587

Executive Secretaries of the Peace Education Commission.  
Educational Information Debate 99.

49p. 1mf. L1 ED 360 236

#### International Organizations

School Exchanges Present and Future. Proceedings of the  
Symposium (Barcelona, Spain, March 13-17, 1991) = Bilan et  
Perspectives des Echanges Scolaires. Actes du colloque  
(Barcelone, Spain, 13-17 mar 1991).

188p. 2mf. L1 ED 360 208

Visions of Peace Education: Interviews with the Five Former  
Executive Secretaries of the Peace Education Commission.  
Educational Information Debate 99.

49p. 1mf. L1 ED 360 236

#### International Programs

A Regional Information System Strategy for the Caribbean for the  
Year 2000.

142p. 2mf. L1 ED 359 962

#### International Relations

Assessing the Impact of Peace Building Processes.

8p. 1mf. L1 ED 360 254

Biennial Report of the United States Institute of Peace, 1991.  
Submitted to the Congress and the President of the United States.

189p. 2mf. L1 ED 360 197

Changes in the Former Soviet Union: Debating U.S. Aid. Choices  
for the 21st Century. Alternatives for Public Debate and Policy  
Development.

60p. 1mf. L2 ED 360 218

International Exchanges in a Changing World. Hearing before the  
Subcommittee on International Operations of the Committee on  
Foreign Affairs. House of Representatives, One Hundred Second  
Congress, Second Session.

112p. 2mf. L1 ED 360 246

Strategies for Dissemination of Principles and Concepts of  
Education for Peace.

12p. 1mf. L1 ED 360 200

#### International Studies

Foreign Language Teaching at the University of Pennsylvania: A  
Language Planning Case Study.

23p. 1mf. L1 ED 359 776

International Curriculums.

23p. 1mf. L1 ED 360 262

The Internationalization of Bloom's Learning for Mastery: A 25-  
Year Retrospective-Pro prospective View.

19p. 1mf. L1 ED 360 333

#### International Trade

U.S. Trade Policy: Competing in a Global Economy. Choices for  
the 21st Century. Alternatives for Public Debate and Policy  
Development.

49p. 1mf. L2 ED 360 217

#### International Trade Vocabulary

U.S. Trade Policy: Competing in a Global Economy. Choices for  
the 21st Century. Alternatives for Public Debate and Policy  
Development.

49p. 1mf. L2 ED 360 217

#### Internship Programs

Internship, Residency, and Fellowship Programs in ARL Libraries.  
SPEC Kit 188.

## Menu Driven Software

User's Manual for the Basic Math Mastery Tests.

32p.

1mf. L2 ED 360 342

## Merchandise Information

Apparel and Accessories. Second Edition. Career Competencies in Marketing Series.

257p.

3mf. L2 ED 359 342

## Metabolism

The Digestive System and Alcohol Use. Science of Alcohol Curriculum for American Indians. Training Unit and Participant Booklet.

223p.

3mf. L1 ED 360 106

## Metacognition

Leren Oplossen van Wiskundige Problemen in het Voortgezet Onderwijs (Learning To Solve Mathematical Problems in Secondary Education).

252p.

3mf. L1 ED 360 153

A Metacognitive Strategy for Teaching Essay Planning to E.S.L.

Students: A Computer-Based Instructional Design.

48p.

1mf. L1 ED 359 802

Self-Regulated Achievement in the Cegep Student: Motivated Strategies for Learning.

84p.

1mf. L1 ED 360 269

## Metaphors

A Comparative Study of the Educational Stances of Madeline Hunter and James Britton. Concept Paper No. 6.

87p.

1mf. L1 ED 359 546

Doors and Windows of My Mind: Thresholds of Visual Thinking.

43p.

1mf. L1 ED 360 213

## Methods Courses

Simulation and Meta Processing: Affective Component of Math Procedures.

11p.

1mf. L1 ED 360 258

## Mexican American Education

Quien Soy Yo?/All about Me. Learning through Cultural Diversity and the Arts.

145p.

2mf. L1 ED 360 145

Thorough and Fair: Creating Routes to Success for Mexican-American Students.

69p.

1mf. L1 ED 360 116

## Mexican Americans

Ethnic Identity: Formation and Transmission among Hispanics and Other Minorities. SUNY Series, United States Hispanic Studies.

317p.

0mf. L3 ED 360 121

Unpackaging the Effects of Generation and SES on Early Literacy Practices of Mexican American Fathers.

19p.

1mf. L1 ED 360 144

## Microcomputers

A Comparison of Mainframe and Personal Computer Based Bulletin Board Systems for Computer-Mediated Communications in Distance Education Courses.

6p.

1mf. L1 ED 359 945

## Microteaching

Co-Constructing the Zone: A Neo-Vygotskian View of Microteaching.

Scientific and Engineering Research Facilities at Universities  
and Colleges: 1992.

180p. 2mf. L1 ED 360 183

#### Engineering Education

Characteristics of Recent Science and Engineering Graduates:  
1990. Detailed Statistical Tables. Surveys of Science Resources  
Series.

155p. 2mf. L1 ED 360 156

A Model for Professional Education in the 21st Century:  
Integrating Humanities and Engineering through Writing.

15p. 1mf. L1 ED 359 520

A Pilot Program in International Engineering.

41p. 1mf. L1 ED 359 858

Science and Engineering Doctorate Awards: 1991. Selected Data.

122p. 2mf. L1 ED 360 181

#### Engineers

Characteristics of Recent Science and Engineering Graduates:  
1990. Detailed Statistical Tables. Surveys of Science Resources  
Series.

155p. 2mf. L1 ED 360 156

The Influence That Marital Status Has on the Advancement of  
Professional Women in Non-Traditional Fields.

35p. 1mf. L1 ED 360 223

#### English

Dialect Differences in the Schools: Educational, Social, and  
Economic Implications. Workshop (Cleveland, Ohio, June 26-28,  
1986).

184p. 2mf. L1 ED 359 778

#### English (Second Language)

Adult ESL Literacy Education in the United States: Developing a  
Learner-Centered Approach.

35p. 1mf. L1 ED 359 819

All about English as a Second Language. A Basic Guide to ESL and

Family Talk Time. A Curriculum for Refugee and Immigrant Parents.  
126p. 2mf. L1 ED 359 833

Family School Relationship

Empowering At-Risk Families during the Early Childhood Years.  
NEA Early Childhood Education Series.  
209p. 3mf. L2 ED 360 093

Home School Specialist: "The Missing Link" and "The Student  
Connection Program."  
45p. 1mf. L1 ED 360 114

Shared Opportunities for Schools and Communities. Robert Lee  
Sutherland Seminar (8th, Austin, TX, September 25-26, 1992).  
56p. 1mf. L2 ED 359 600

Family Structure

Familial Configuration Influences on the Educational Performance  
of Urban High School Freshmen.  
8p. 1mf. L1 ED 360 450

Public School Kindergartners: Isolates, Low Self-Concept, and  
Family Status.  
11p. 1mf. L1 ED 360 062

Youth in Single-Parent Families: Risk and Resiliency. Background  
Paper.  
25p. 1mf. L2 ED 360 462

Family Violence

Battered Husbands and Battered Wives: Why One Is a Social  
Problem and the Other Is Not.  
28p. 1mf. L1 ED 359 483

Fashion Industry

Apparel and Accessories. Second Edition. Career Competencies in  
Marketing Series.  
257p. 3mf. L2 ED 359 342

Fathers

Paternal Involvement and the Development of Gender Expectations  
in Sons and Daughters.  
26p. 1mf. L1 ED 359 457

Unpackaging the Effects of Generation and SES on Early Literacy  
Practices of Mexican American Fathers.  
19p. 1mf. L1 ED 360 144

Federal Aid

America 2000: The President's Education Strategy. CRS Report for  
Congress.  
18p. 1mf. L1 ED 359 635

An Analysis of Resources To Aid Drug-Exposed Infants and Their  
Families.  
259p. 3mf. L1 ED 359 734

Assessment of the National Science Foundation's 1985-87 College  
Science Instrumentation Program. Final Report.  
106p. 2mf. L1 ED 360 157

Child Care Funding Re-Assessed: Operational Subsidies, Fee  
Relief and Taxation Issues.  
68p. 1mf. L1 ED 360 064

Choice Programs and State Constitutions: The Inclusion of  
Sectarian Schools. CRS Report for Congress.  
25p. 1mf. L1 ED 359 636

The Federal Role in Improving Elementary and Secondary  
Education. A CBO Study.  
93p. 1mf. L1 ED 360 087

Federal Support to Universities, Colleges, and Nonprofit  
Institutions: Fiscal Year 1990. A Report to the President and

Evaluating Magnet Schools for the Health Professions: Career Aspirations of Hispanic and Non-Minority Students.

20p. 1mf. L1 ED 360 457

Health Personnel

Basic Skills & the Health Care Industry. Workforce & Workplace Literacy Series. Revised.

13p. 1mf. L1 ED 359 333

National Workplace Literacy Program for Health Care Employees. Final Evaluation Report.

68p. 1mf. L1 ED 359 397

Health Programs

The Hazard Community College "50 Mile Club."

7p. 1mf. L1 ED 360 026

Healthy Kids! State Initiatives To Improve Children's Health.

71p. 1mf. L2 ED 360 096

Health Promotion

The Hazard Community College "50 Mile Club."

7p. 1mf. L1 ED 360 026

Healthy Kids! State Initiatives To Improve Children's Health.

71p. 1mf. L2 ED 360 096

Healthy Schools. A Directory of Federal Programs and Activities

Related to Health Promotion through the Schools.

297p. 4mf. L1 ED 360 303

Overview of Youth Recreation Programs in the United States.

92p. 1mf. L1 ED 360 268

Step by Step to Comprehensive School Health: The Program Planning Guide.

146p. 2mf. L2 ED 360 304

Health Services

Healthy Kids! State Initiatives To Improve Children's Health.

71p. 1mf. L2 ED 360 096

Hearing Impairments

Comprehensive Training of Personnel and Technical Assistance in Establishment of Home Intervention Programs for Families of Infants, Toddlers, and Preschool-Aged Children with Hearing Impairments. Project SKI\*HI Outreach. Final Report.

136p. 2mf. L1 ED 359 688

Outreach Services To Stimulate Home-Based Services for Infants, Toddlers, and Preschool-Aged Children with Deaf-Blindness and Multihandicap Sensory Impairments. Project INSITE Outreach. Final Report.

112p. 2mf. L1 ED 359 689

Hearings

Colorado Special Education Administrative Decisions, 1993.

132p. 2mf. L1 ED 359 710

Help Seeking

Self-Reports and Observed Behavior Seeking and Giving Help to Peers.

25p. 1mf. L2 ED 360 355

Helping Relationship

Computational Approaches for Analyzing Tradeoffs between Training and Aiding. Final Technical Paper for Period February-December 1989.

66p. 1mf. L1 ED 360 346
